SCARLET TRUMPET OR CORAL HONEYSUCKLE

Here is a vine of rapid, strong growth adapted for all trellis or fence decorations. The flowers are trumpet shaped, scarlet and bloom freely from June to November. This is one of the most beautiful vines. (See page 63 for description and price).

Two Ornaments for Every Lawn

Beauty Bush **KOLKWTZIA AMABILIS**

(Illustrated Below)

An exceedingly handsome ornamental shrub introduced from China. It grows 6 to 9 feet high, erect, with long arching branches covered in June with clusters of small pink flowers resembling honeysuckle blossoms.

Read what Mr. E. H. Wilson of Arnold Arboretum says of it,

"Of the many valuable hardy shrubs which our gardens have received from the Orient, none is more lovely than *Kolkwitzia amabilis*. Related to the weigelas and abelias, this new plant exceeds them in hardiness and in beauty. The principal stems are erect and the lateral ones arching, giving the plant a compact habit, and in early June its sprays of abelia-like blossoms transform it into a fountain of pink loveliness. It is a sun-loving plant and needs loam and good drainage. In the opinion of its introducer, *Kolkwitzia amabilis* is one of the best of all hardy shrubs, and it was he who suggested the common name, Beauty Bush."

Field grown plants,
each \$1.25; 3
for \$3.50. House
grown
plants,
60c; 3
for \$1.50.

French Lilacs

(Illustrated Above)

"Lilac Time" is always looked forward to by those who have lilac bushes, or who have friends who have them and share the blossoms. Coming early in the spring, when flowers are scarce, with their profusion of lovely blooms permitting of gathering arm loads, with their sweet fragrance, every person is sure to remember the lilac bushes, back home, all his life, wherever he lives.

To the French we must credit wonderful improvements in the Lilacs. They have improved the bushes in form, flowers and freedom of bloom. The French varieties which we offer in the department of Shrubs will give a vast amount of pleasure in beautiful fragrant Spring blooms. (See page 47).

PERSONAL TO ALL WHO BUY SEEDS

Dear Customers and Friends:

We send sincerest thanks to all our old customers for past liberal patronage and earnestly ask a continuance of the same. To those who have not been our customers in the past we invite them to purchase and plant the O. K. SEEDS this year. O. K. SEEDS are ALL RIGHT SEEDS. They are fresh and vital and will grow and with proper treatment, should produce the crops like you expect.

As you look over our list you will be impressed with the reasonableness of our prices, and that we catalogue only the most valuable varieties, omitting the indifferent and non-essential sorts. From the viewpoint of securing as HIGH QUALITY seeds as are produced and SAVING MONEY, we solicit your orders.

HOW TO ORDER

Use our order sheet and return envelope if you have them. Send remittance by any convenient method. We accept 2c or 5c postage stamps for small amounts. Canadian customers may send their currency or postage stamps. If you changed address since last order give both former and present address.

PAY ON DELIVERY

We know that it is sometimes inconvenient to spare the money, or to get a money order just at the time needed. Therefore if you prefer to do so, send your order to us and tell us when to fill it. We will send it at that time and you can pay the value of the goods to the Postman when he brings them, plus only the postoffice fee for the return of the money. So, if you are short of money when you get this catalog, or have no convenient way of remitting, just send the order in and pay later.

FREE DELIVERY

The prices in this catalogue include delivery, or prepayment by Parcel Post, of seeds to amount of 5 lbs. or less and bulbs, plants, nursery stock, etc., unless stated to the contrary.

SAFE ARRIVAL GUARANTEED

We guarantee safe arrival in good condition, of all shipments. In case any shipment shows damage on arrival, be sure to have the mail carrier or freight or express agent give you a statement to that effect which send to us, or in the case of freight or express shipments make your claim to the delivering agent at once.

Don't order shipments to "Stops" or a station where there is no agent, unless you send full payment and enough more to pay the transportation.

EIGHT REASONS WHY EVERY FAMILY SHOULD HAVE A GARDEN

1. It will furnish healthy exercise for those who need it.
2. Otherwise idle time will be turned to earning.
3. Regular habits of work can be formed in the young members of the family by requiring them to do a share.
4. It will save idle land from being a weed patch and put it to useful work.
5. Gardening—Vegetables and flowers—with many people is the most enjoyable recreation.
6. Gardening develops civic pride and civic beauty and develops good citizenship.
7. It reduces the cost of living. A good garden may furnish $\frac{1}{4}$ to 1-3 the table requirements.
8. And vegetables direct from your own garden are far better than from a store.

Food is still high. It seems that, no matter how abundant the crops, vegetables, fruit and canned goods are very high by the time the consumer gets hold of them.

5 CENTS

We save you about

50%

AS TO WARRANTY

We exercise care to have all of our seeds pure and reliable but in growing, buying, shipping, cleaning and handling seeds, and in growing the crops from them so many things may occur over which we have no control that we, in common with all other responsible seedsmen, do not give any warranty, express or implied, as to the description, quality or productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be responsible for the crops.

OUR LOCATION

Main Store, 32-36 South Illinois St.

This store is only 75 steps off of W. Washington St.; $\frac{1}{2}$

block from Claypool and Lincoln hotels; $1\frac{1}{2}$ blocks south of Traction terminal station; $2\frac{1}{2}$ blocks north of Union R. R. station. From this you will note its central location and easy accessibility.

Branch—Store, 5 North Alabama St.

This store is only 20 steps off of E. Washington St.; it is opposite the east entrance of the Court house and less than one block from the city Market house.

If your operations come under the above headings send for our Gardeners and Truckers Price List, then next fall you can write a letter like the following:

TRUCK GARDENER WILL USE NO OTHERS

I am a truck gardener and I have bought quite a lot of seeds of you, including Detroit dark red beets, Early and Late Flat Dutch cabbage, Golden Plume celery, Improved long Green and Chicago Pickling cucumbers, Crystal Wax Bermuda onions, Perfection pimento, Chartist and Rose Chinese radishes, Golden Hubbard squash. All did excellently. People bought plants of me and say they are stronger plants than they can get anywhere else. All seeds that I buy will be O. K. Seeds—J. Sherman, Franklin, Ind.

PLANT A GARDEN

If the family earning power is reduced, **PLANT A GARDEN.**

If you dislike the wilted vegetables from the grocery, **PLANT A GARDEN.**

If you want good health that comes from outdoor work and recreation, **PLANT A GARDEN.**

And if you want a home beautiful—A show place of the town—**PLANT FLOWERS, SHRUBS, VINES AND TREES.**

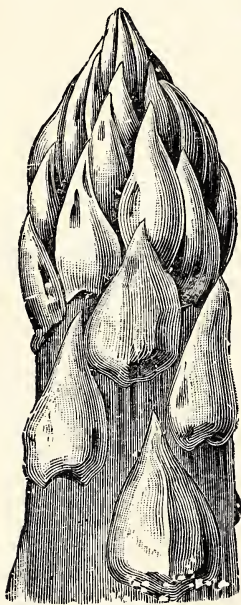

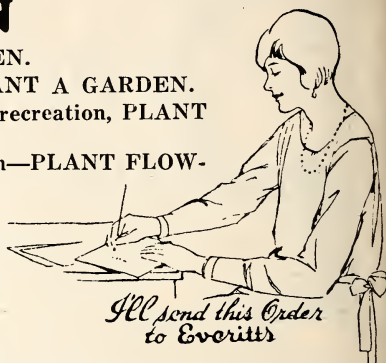

Plant the usual garden plots and thousands of back yards, vacant lots, and other unused places. Make them sources of income and things of beauty.

The necessity for economizing by many families suggests a garden. From a moderate plot of ground, one-fourth to one-half the expense of keeping up the table can be saved.

The desire for a beautiful home—one that you will be proud to show; that will cause passers by to pause and look back; that will have a good influence on your children, is expressing itself everywhere. Such desire can be met by consulting the following pages. No matter where you live, we can deliver nearly everything in this catalog to you with less effort and expense on your part than to drive to your local store and purchase them and carry them home.

We guarantee good condition on arrival.

We deliver at the prices quoted, seeds, seed potatoes, seed corn, etc., in quantities of 5 lbs. or less; and bulbs, plants, shrubs, trees, etc., unless stated to the contrary.

Mary Washington Asparagus

livered. Not delivered, 100, \$1.75; 1,000, \$15.00.

As the Mary Washington is the best, we do not list other kinds.

Artichoke

Culture Sow early in hotbed, or outdoors in May. Transplant to rows 3 feet apart and 2 feet apart in row. It is hardy in the north. One oz. of seed will sow 25 feet of row for plants.

Green Globe The unripe flower heads are used and when properly prepared are delicious. Pkt., 5c; oz., 20.

Remember
O.K. Seeds
Are Reliable

Asparagus

Asparagus is the first vegetable to come in the spring and is very popular with those who know its value. Plant in rich dirt, 10 inches deep and rows 1½ feet apart. Place plants in the trench 6 to 8 inches apart, spreading roots out flat. Then cover with about three inches of soil and fill up as the stalks grow. 100 plants for average family.

Mary Washington

This asparagus has been selected by the United States Department of Agriculture, Washington, D. C., as the best variety. The plants form large, clean shoots which are thick, heavy and rust proof. The color is rich, dark green tinted darker at the tips; a heavy yielder and a long-lived producer. Old beds should be renewed with Mary Washington. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Asparagus Roots

of above variety, doz. 50c; 50, \$1.25; 100, \$2.00; delivered, 100, \$1.75; 1,000, \$15.00.

Plant Plenty of Beans

Culture

Beans will grow on almost any kind of soil, but no crop responds more readily to fertilizer than garden beans. Plant late enough in the season so the ground is warm and dry although some plant earlier and risk a frost, for the sake of earliness. Plant in rows 2 feet apart, and thin to 3 to 6 inches apart. Cover 1½ to 2 inches deep. Lima Beans should not be planted until the ground is thoroughly warm. A pound of large Lima Beans plants 100 hills; of the smaller sorts, 200 hills.

N. B.—The 1929 bean crops were very short and prices of most kinds must be higher than usual. Price of pecks do not include delivery.

GREEN-POD BUSH BEANS

Full Measure

Every garden will be improved by this superior bean. Market gardeners will find big profits in growing it. It is well named because it surely fills the measures, heaped up and running over, with its large, plump round pods, 6 ins. long, borne

in great quantities. Pods stringless, brittle and as fine quality as ever went on a table. It cannot be recommended too highly for the home or market garden and should now be planted instead of some of the older varieties which it is bound to supercede. Price, pkt., 5c; ¼ lb., 15c; ½ lb., 27c; lb., 50c; 3 lbs., \$1.35; peck, \$5.50.

Full Measure

Burpee's Stringless Green Pod

(Round Pod) Early, hardy, vigorous and productive. Pods large, 5 inches long, round and crease backed, dark green in color; strictly stringless, tender and brittle. One of the best for all purposes. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., \$1.20; Peck, \$4.50.

Bountiful (Flat Pod) An early variety of sturdy, upright growth. It bears continuously for several weeks. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., \$1.20; Peck, \$4.50.

Horticultural An old standard snap and shell bean. One of the best dry beans for winter. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., \$1.00; Peck, \$4.00.

Early Valentine (Round Pod) An old standard variety which will always have many friends because of its good qualities. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

DWARF YELLOW OR WAX POD

Kidney Wax (Round Pod) A fine early round podded stringless variety of highest table qualities. Pods, 5-6 in. Seeds white with brown eye. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

Unrivalled Wax

Unrivalled Wax

A very productive, first early sort. Pods 5 to 5½ in. long, rather narrow, either perfectly straight or slightly curved, somewhat flattened but fleshy. Plant vigorous and nearly disease resistant; seed kidney-shaped, brown in color. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

Improved Golden

Wax (Flat Pod). Very early and quite productive; flesh brittle, stringless and of good quality; seed white, mottled brown. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

BUSH, SHELL OR FIELD BEANS

Large White Marrow Large, oval-shaped, white beans, grown as a field crop for baking. Pkt., 5c; $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., 90c; peck, \$3.00.

Navy or Pea Bean A small round, white bean, extensively grown as a field crop. Pkt., 5c; $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., 90c; peck, \$3.00.

Red Kidney The beans are deep red in color. Much raised as a field crop. Pkt., 5c; $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 3 lbs., 90c; peck, \$3.00.

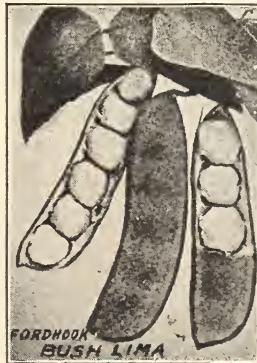

3 FEET RUNNER BEAN

Everyone who has seen this bean growing, or eats of it, says: "I never saw its equal." Pods sometimes grow to be a yard long. Our customers have reported 37 inches, 36 inches, 34½ inches, 34 inches, 33 inches, 32 inches, etc. The whole pod and beans are tender and with a delicious asparagus flavor.

SOME REPORTS—Nina Cook, Parrish, Ala., and Beatrice Williams, Ashboro, N. C., reported pods 37 inches long; Mrs. G. Boswell, McIver, N. C., 36 inches; Mrs. John Curry, Garfield, Ky., 34½ inches; Mrs. C. A. Townsend, Aspen, Va., 33 inches; Leonard Hall, Boles, Ky., 32 ins.

Prices, pkt., 10c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 35c; 1 lb., 60c.

We do not prepay 15 lb. or Pecks of Beans at prices.

POLE, CLIMBING AND CORNFIELD BEANS

New Ideal Market (Greenpod). This new pole northern sections where no other variety will mature a good crop, these are a great success. But on account of their fine quality and great productiveness they will find favor clear to Florida. They come in bearing with the bush varieties of beans and are extremely productive while the quality of the round, pulpy, stringless green pods is all that anyone could desire. The pods grow in clusters of 4 to 6. A basketfull can be gathered quickly. Pkt., 10c; $\frac{1}{4}$ lb., 20c; $\frac{1}{2}$ lb., 30c; 1 lb., 50c.

Kentucky Wonder

(Round Pod) The most popular green-podded climbing, or corn-hill bean, early and wonderfully productive. Bears until frost. Pods, 8 to 9 inches long in clusters. The returns from an acre of corn can often be doubled by planting this bean in the corn hills. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

Golden Cluster Wax

(Flat Pods) Unsurpassed in Wax Pole Beans. Pods 6 to 7 ins. long, in clusters. Flesh thick. Some string. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 45c; 3 lbs., \$1.20; peck, \$4.50.

Lazy Wives (Flat Pods). Borne in such large clusters that a mess can soon be gathered, hence the name. Pods long, broad, fleshy, stringless. Beans white. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 45c; 3 lbs., \$1.20; peck, \$4.50.

Horticultural or Cranberry (Flat Pods). An old well-known standard sort. Stringless and of good quality; color dark green, splashed with bright red. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

Kentucky Wonder Wax (Round Pod). One of the earliest of the pole wax sorts. Pods 8 to 9 inches long thick, crease backed, very fleshy, brittle. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

LIMA BEANS

Henderson's (Bush) A very prolific variety. Beans small, but of fine, lima flavor. Valuable for garden and field crop. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 3 lbs., \$1.00; peck, \$4.00.

Burpees (Bush) A well known kind. Liked by all. Pkt., 5c; $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 3 lbs., \$1.20; peck, \$4.50.

Fordhook (Bush). Preferred by many, particularly by market gardeners. Very thick white beans. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 50c; 3 lbs., \$1.25.

King of the Garden (Pole). An improved strain of large white lima. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 45c; 3 lbs., \$1.20.

Jackson Wonder (Bush). A very prolific, almost drought-proof lima. Seeds small but of true, delicious lima bean flavor. Can be grown where others might not succeed. Pkt., 5c; $\frac{1}{4}$ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00.

Sweet, Tender Table Beets

Culture For best results, select a deep, rich loam and fertilize with well decomposed manure. Sow 14 to 16 inches apart, cover 1 inch. Thin to 4 to 5 inches apart. Or sow in beds and transplant to garden. Plant as soon as ground is fit in Spring for early. For Autumn, plant May and June; for Winter, about July 1st, according to variety. One pkt. will make about 250 plants. One oz., about 800 plants, 7 lbs. per acre.

Extra Early Eclipse Round, very early, good size, very tender. Has small top, bright red flesh. The O. K. strain is unexcelled. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 3 lbs., \$2.00.

Crosby's Early Beet An exceptionally good selection from Crosby's Egyptian, being more "globy"; with a smaller top and tap root. Roots are remarkably uniform, very dark red, flesh deep purplish red with little tendency to zoning. It will become one of the most popular, as it is the most handsome of the early beets. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 65c; 3 lbs., \$1.75.

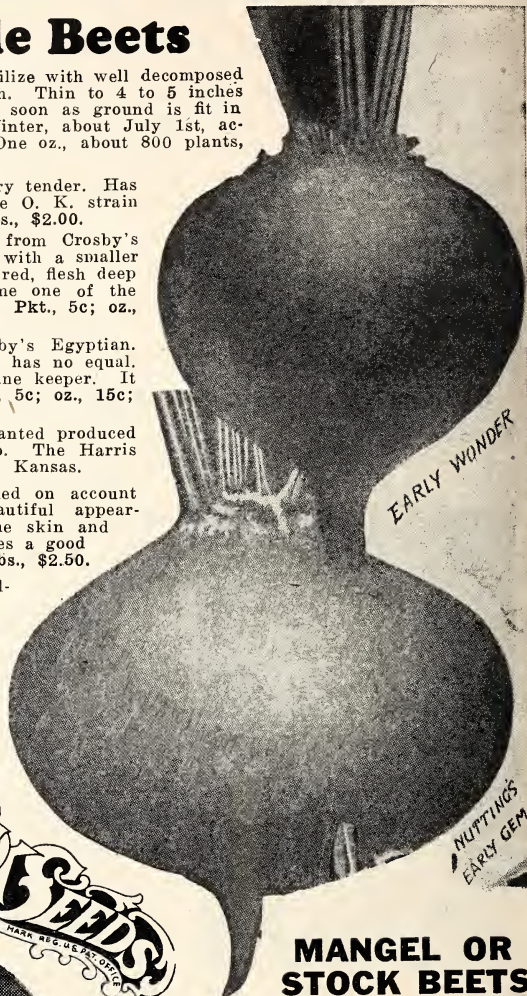

Early Wonder An improvement, by selection, of Crosby's Egyptian. As a variety to bunch for the market, it has no equal. Color is a rich dark red, small top, single tap root and a fine keeper. It merits a place in every garden, private or for market. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.25.

My Early Wonder beets were wonderful. Every seed planted produced a beet of excellent quality. The Swiss Chard was fine also. The Harris Early Pepper was extra.—Mrs. Grace S. Hadlock, Elk City, Kansas.

Nuttings Early Gem This new beet will be esteemed on account of its desirable, smooth beautiful appearance and unexcelled quality for the table. The color of the skin and flesh is bright red. Solid and crisp. If planted late, it makes a good Winter beet. Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

Crimson Globe Especially on light soil this most handsome beet will be appreciated by all who try it. The skin and flesh are both very dark. Quality the finest. Has a small top. A good keeper. Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

Detroit Dark Red One of the best deep red turnip beets, not only for market gardeners but also for home use and canning. Its early maturity, fine size and adaptability to all soils, the splendid shape and color of the root make it popular everywhere. Remains in good condition a long time. Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

MANGEL OR STOCK BEETS

Mammoth Long Red If your soil is fairly deep this is the one to plant. Grows as much as 2 feet long, much above the ground. Makes a great yield, as much as 60 tons to the acre. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.00.

Golden Tankard This variety grows almost entirely on top of the ground. Shape oval, color deep yellow; productive, easily harvested. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.00.

BORECOLE OR KALE

Culture Used as Greens in the fall and winter and is most welcome when other vegetables are gone. With a little protection the plant will winter over out doors. Sow seed July and August like cabbage and transplant. One packet will plant about 40 feet of row; one ounce about 200 feet.

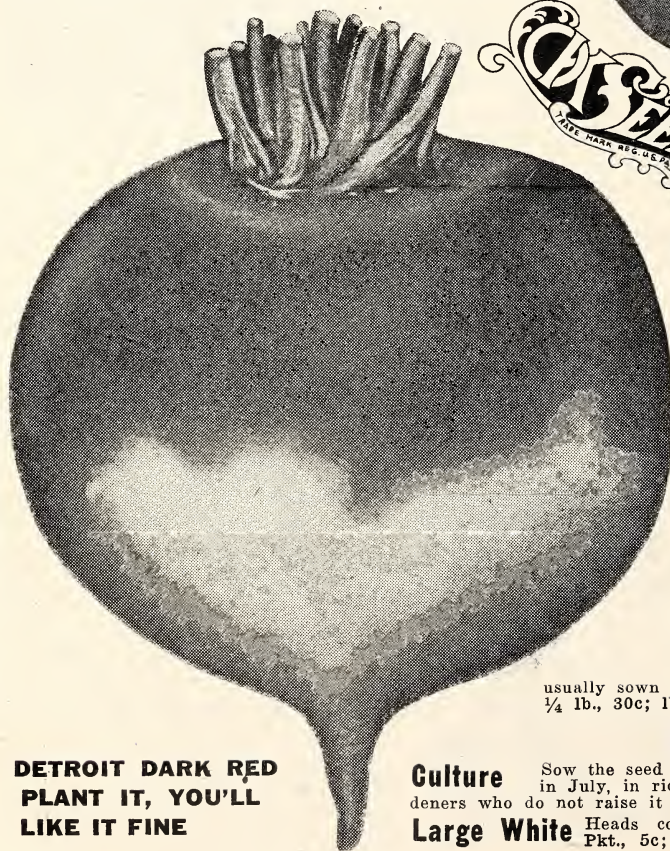

Dwarf or Curled Scotch This is the variety usually sown in the fall for spring use. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

BROCCOLI

Culture Sow the seed in May. Plant in garden late in June or early in July, in rich mellow soil. Set 18 inches by 2 feet. Gardeners who do not raise it miss many table treats.

Large White Heads compact and very certain to head. Delicious. Pkt., 5c; oz., 50c.

DETROIT DARK RED
PLANT IT, YOU'LL
LIKE IT FINE

American Grown Cabbage Seed

Culture Cabbage will succeed on any land that will grow good corn. The richer the soil the bigger will be the crop. Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Do not follow cabbage or turnips with cabbage. For early set the plants out as early as ground will permit. For late set plants about middle of June in latitude of Indianapolis. One pkt. will make about 300 plants, one oz. about 2,000 plants, one-quarter lb. for one acre.

EARLY AND MIDSEASON

Early Jersey Wakefield A widely known and popular early variety for home and market, heads pointed and very solid. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Golden Acre

Golden Acre Cabbage

The earliest round headed cabbage. Market gardeners and private gardeners who plant this cabbage cannot praise it high enough on account of its earliness and solid heads, weighing 4 to 5 pounds usually and sometimes 10 lbs. The plants are very short stemmed and the heads rest almost on the ground. It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt., 5c; ½ oz., 25c; oz., 40c; ¼ lb., \$1.25; lb., \$4.50.

Early Summer

Heads medium in size, round, somewhat flattened, compact and solid; ten days later than Jersey Wakefield and one of the best large, second early sorts. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Charleston Wakefield Only about one week later than early Jersey Wakefield, but the pointed heads are fully one-half larger. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Copenhagen Market A popular round head variety. Stem short, heads are large and solid. A very profitable kind to grow. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

All Head Early One of our Specialties. It is as early as any summer cabbage and makes such large, uniform, handsome, solid heads that it competes with the later fall varieties. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

New Glory Cabbage

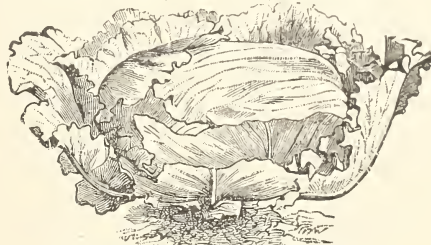

Glory A new medium early cabbage. Heads large, round, solid, heavy. Short stems and few outer leaves. While it is only ten days later than Jersey Wakefield, the heads weigh twice as much. It is one of the finest varieties for garden or field introduced in many years. Pkt., 5c; oz., 35c; ¼ lb., \$1.25.

Yellow Resistant Strains The disease called "yellows" causes tremendous losses every year. It is prevalent, in sections, from Colorado to the Atlantic. We offer resistant strains of these varieties. ALL HEAD EARLY, ALL SEASON and HOLLANDER, all at these prices. Pkt., 5c; oz., 35c; ¼ lb., \$1.25; lb., \$4.60.

LATE VARIETIES

Everitt's Premium Flat Dutch A justly popular and esteemed variety; extensively cultivated for market and family use. Heads large, flattened and very firm, has a medium stem and is very hardy. Excellent for slaw and famous for kraut. Practically 99 of 100 plants of our "Premium" stock will head. When it comes to an all-around Fall and Winter cabbage, we cannot point to anything that will fill the bill any better. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Surehead "All Head and sure to head." Heads are large round and flattened, very hard and fine-grained; splendid keeper. A great favorite for main crop. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Everitt's Premium Flat Dutch

Danish Winter Ballhead For late Winter and Spring, this one is hardly excelled. Thrives very well on thin soil and in adverse seasons. It is well and favorably known on nearly all markets and is sought after in March and April when it comes out of the pits as fresh as when put in. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Large Late Drumhead A favorite winter cabbage; recommended for its fine, large, deep, heavy and solid heads on short stems. Can be kept in good condition till late in the spring. This is another of our Specialties. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.25.

Cwt. (Hundredweight) A great Kraut Cabbage. Everybody knows that "CWT" means hundred weight, and this is the largest and heaviest of all varieties of Cabbage. Single specimens have weighed 50 pounds. It is the grandest type of mammoth Cabbage, and certainly whoever raises for exhibition purposes should not fail to include the CWT. Cabbage. A late fall and winter sort. For kraut it is simply immense, a few heads filling a barrel. If you want the largest Cabbage ever seen in your neighborhood, and besides, one of splendid quality, plant some of CWT. Pkt., 10c; oz., 35c; ¼ lb., \$1.25.

New "Chihli" Chinese Cabbage This is the best of the Chinese Cabbages that are becoming so popular. It comes quicker than any of the others and has a fine, delicate flavor, as tender as head lettuce. It is in great demand for numerous

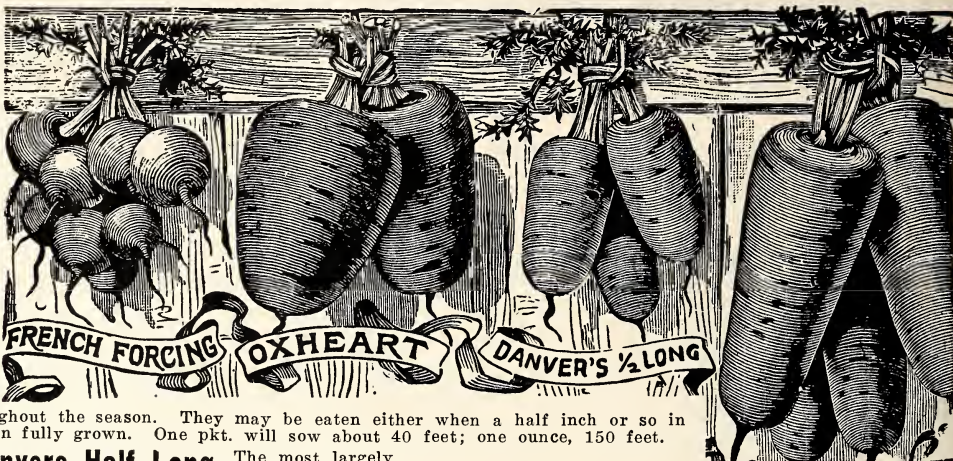

dishes such as salads and cold slaw, or it may be cooked. The culture, storing for winter, etc., are the same as for late Cabbage. It cannot be grown successfully as a Spring crop. Seed should be sown in August for Fall crop. Pkt., 5c; ½ oz., 15c; oz., 25c; ¼ lb., 75c.

HEALTH GIVING CARROTS

Culture

This delicious and nutritious vegetable is not appreciated as it should be. Properly cooked, it is a great delicacy. A sandy soil is best, but any good rich soil will produce good crops. Sow in early spring in rows 15 to 18 ins. apart and thin to 3 to 4 ins., according to size of variety. Cover the seed half an inch and give good cultivation throughout the season. They may be eaten either when a half inch or so in diameter, or when fully grown. One pkt. will sow about 40 feet; one ounce, 150 feet.

Selected Danvers Half Long

The most largely grown of all for table. Color rich, dark orange, very smooth, cylindrical, very handsome; easily harvested. It is a heavy yielder. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

French Forcing

OR EARLY SCARLET—One of the earliest, small round root. For garden as well as under glass. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

Hutchinson Carrot

Ox Heart

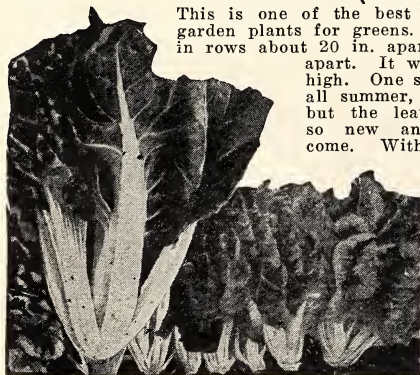

Also called GUERANDE. It is very early, short, thick and extra fine quality. It is very popular as an early bunching kind for market. Deep orange color. Finely adapted to shallow, hard soils. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

New Carrot Hutchinson

Roots 10 to 12 in. long, color deep orange. A1 quality and extremely productive. Is superceding others of same type where introduced. It should be grown extensively by market gardeners and should not be overlooked for the private garden. Pkt., 5c; oz., 15c; 1/4 lb., 50c; lb., \$1.50.

Lucullus (Swiss chard)

This is one of the best and most productive garden plants for greens. Sow seed in spring in rows about 20 in. apart and thin to 12 in. apart. It will grow about 15 in. high. One sowing will make crop all summer, until killed by frost, but the leaves must be cut off so new and tender ones will come. With protection it will stand over winter and be ready to use in the spring. This vegetable is so easily grown and so good that it will be a surprise if it is not soon found in every garden. It makes lots of green feed for poultry. Pkt., 5c; oz., 15c; 1/4 lb., 35c; lb., \$1.25.

Chantenay or Model

This carrot comes between the very early and later varieties. Color rich, dark orange. In some markets is preferred to others for bunching. In shape and quality this leaves nothing to be desired in a medium season carrot. Pkt., 5c; oz., 10c; 1/4 lb., 30c; lb., \$1.00.

White Belgian

For stock feeding. 10 to 15 inches long, very large and productive. Can be pulled by hand. Pkt., 5c; oz., 10c; 1/4 lb., 20c; lb., 75c.

CAULIFLOWER

Culture Treat similar to cabbage. Ground should be rich. Cauliflowers make their best growth in the cool, moist days of Fall. One oz. will produce about 2,000 plants; one packet about 300 plants.

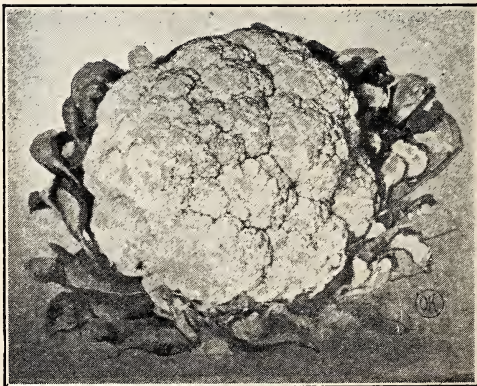

Our cauliflower seed is grown in Denmark, by the firm of E. Suhr and Co., who have established a wonderful reputation for their products all over the world. If you have had any reason to be dissatisfied with your cauliflower in the past, get seed of the Suhr strains and it will be the best insurance for a satisfactory crop.

Suhr's Early Snowball

For forcing or growing in open ground, it is the acknowledged leader. It has short outer leaves and can be planted 2 feet apart. Is early, solid, pure white and is sure to head. Pkt., 10c; 1/4 oz., 40c; oz., \$1.50; 1/4 lb., \$5.50.

Suhr's Dry Weather

This variety is of vigorous and dwarf growth and produces stone-hard and snow-white heads. It is a leading type for dry weather districts, being a sure header when other sorts fail, sometimes on account of the weather. The large leaf development protects the head from the hot sun. Pkt., 10c; 1/4 oz., 40c; oz., \$1.50; 1/4 lb., \$5.50.

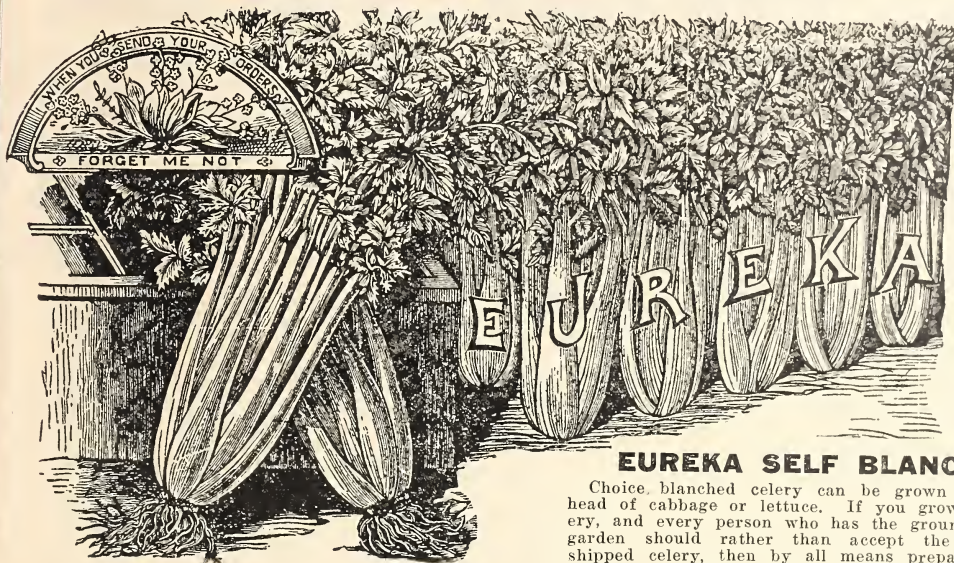

Cauliflower

TASTY, HEALTHY CELERY

Culture

Plant seed in house or hot bed for early plants. For main, late crop, it can be sown early in open ground. When 3 inches high transplant to 4 ins. apart. When well rooted transplant again to permanent place, on surface or in trenches. Set plants 8 to 10 ins. apart. One pkt. will produce about 800 plants. One oz. about 4,000.

EUREKA SELF BLANCHING

Choice, blanched celery can be grown as easily as a head of cabbage or lettuce. If you grow your own celery, and every person who has the ground and makes a garden should rather than accept the tough, wilted, shipped celery, then by all means prepare to grow the Eureka. The plant grows quite dwarf and stocky with large, light yellow heart. Stalks are broad, thick and crisp. Medium early and a superior Fall and Winter variety. You may know that it is a good table celery, because it is too brittle to ship to distant markets. Every garden should have some Eureka Celery. Pkt., 10c; 1/2 oz., 25c; oz., 75c.

Golden Self-Blanching Our strain of this variety is unexcelled. Plants compact and stocky, with yellowish-green foliage; fine nutty flavor. Attains good size; when blanched is of a handsome golden yellow color. Pkt., 5c; 1/2 oz., 15c; oz., 25c; 1/4 lb., 75c.

White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Pkt., 5c; 1/2 oz., 15c; oz., 25c; 1/4 lb., 75c.

Golden Plume or Wonderful Matures 2 to 3 weeks before any other kind and blanches in half the time required by others. Broad stalks. Does not grow hollow. Crisp, tender and all of it, including foliage, is good eating. Rich Golden-yellow with full heart. A sort that will please immensely for home and shipping. Pkt., 10c; 1/2 oz., 20c; oz., 35c.

Giant Pascal

or Winter King. A compact vigorous, productive variety and one of the best for winter use. Leaves upright, short and dark green. Stalks short, thick, broad; blanches a beautiful yellowish white. Pkt., 5c; 1/2 oz., 15c; oz., 25c; 1/4 lb., 75c.

Winter Queen

This grand variety grows stout, thick and heavy with more heart than most other kinds. Bunches handsomely, presenting an attractive appearance when offered for sale; has that sweet nutty quality so much desired. Pkt., 5c; 1/2 oz., 20c; oz., 35c; 1/4 lb., \$1.25.

Easy Blanching

Easy Blanching

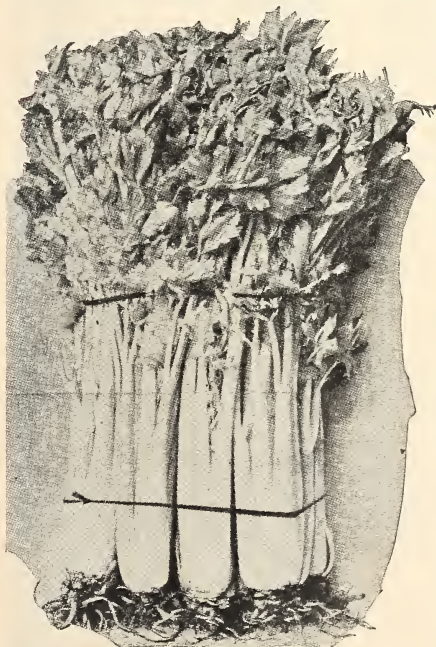

Notwithstanding the splendid varieties of celery that were before the gardening public, this new variety is already enjoying an enviable popularity, purely on account of its great merit. Its habit is dwarf and compact with a wealth of rich, crisp, nutty flavored hearts and stems, every bite of which will be relished. It blanches with the greatest ease, quite a time before it is possible to get other green celeriacs ready for market or the table. It is a celery for Summer, Fall, Winter and Spring. Pkt., 5c; 1/2 oz., 30c; oz., 50c; 1/4 lb., \$1.75.

Rose

This is the best of the red or pink varieties. Early, hardy, solid, crisp, fine nutty flavor. Pkt., 5c; 1/2 oz., 15c; oz., 25c.

Celeriac (Turnip Rooted)

Large, smooth white. The best variety for soups and salads. Pkt., 5c; 1/2 oz., 15c.

Golden Plume or Wonderful

Grow Your Own Sweet Corn

Culture If you do not care for the seed that may be lost, plant some sweet corn even before the ground is very warm. If it comes you will have earlier roasting ears. Ordinarily plant when ground is warm. The small early kinds plant in rows 2½ feet apart, 10 inches apart in rows. Large kinds, 3 feet by 12 inches apart. Plant frequently for succession. One pkt. will give about 200 stalks; one quart will plant one-fifth acre. We do not prepay 10 lbs. at price.

EXTRA EARLY VARIETIES

Early Adams This is not a sugar corn, but a popular white table corn. Hardier than sugar corn. May be planted earlier and closer. Pkt., 5c; ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

Merit Wins And Prices Talk

We have built up our great business on the foundation of good seeds at the lowest cost of production with a fair margin added for profit after they are economically handled. Because of the immensity of our business, we can afford to deal liberally with our customers. Cut our trade in two and we would lose money. We believe the people will again rally to the support of

and Double our Trade for 1930

Golden Bantam

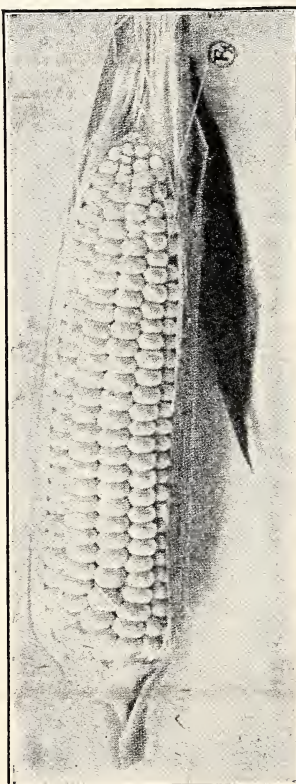

It is very early, very sweet, very hardy and very productive. It has become a favorite with all who grow it or eat it. Dwarf, can be planted closely. ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

White Cory

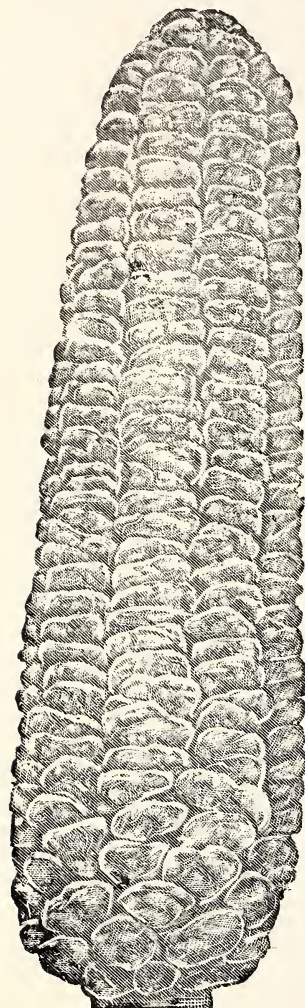

One of the largest and best of extra early sweet corn. Sweet, tender and white. Usually produces two ears on each stalk. Pkt., 5c; ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

Golden Sunshine Sweet Corn

The Golden Bantam Sweet Corn has brought millions of dollars to gardeners and truckers and has been adopted as a prized early sweet corn in millions of home gardens. Now we are indebted to an experimenter in North Dakota, where the seasons are short, for an earlier and better Golden Bantam, which we call Golden Sunshine. So early is the Golden Sunshine that it comes on the market with the extra early white corns and of course gets the extra top prices. The stalk grows about 4½ feet tall and usually bears two or more fine ears 6-7 inches long with broad, deep grains of rich golden color and sweet, juicy luscious flavor. Every order from this catalog should really include it. Pkt., 5c; ¼ lb., 25c; 1 lb., 45c; 3 lbs., \$1.20; 10 lbs., \$2.50.

De Lue's Golden Giant

Golden Sunshine

Howling Mob

A big eared medium early corn with the sweet flavor of the late varieties; usually two pearly white ears to the stalk; the shuck extends well over the tip and protects it from the green worm. Pkt., 5c; ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

Early Evergreen

This is similar to Stowell's Evergreen, except that it is almost two weeks earlier and the ears are slightly smaller. Pkt., 5c; ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

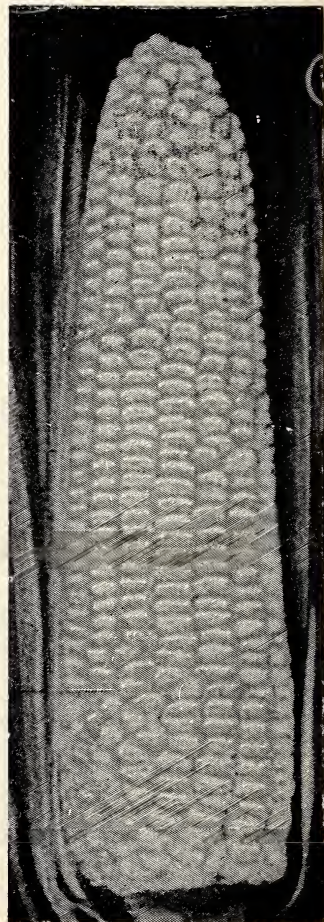

De Lue's Golden Giant

In size, productiveness, quality and early maturity, it excels other medium early varieties. It is the one corn for the market gardener who wants the greatest amount of the highest quality corn in the shortest period of time from the smallest piece of land. It is because of the extreme tenderness, combined with the exquisite, rich sugary flavor, that the Golden Giant is becoming the standard of perfection for sugar corn. Postpaid, pkt., 10c; ½ lb., 25c; 1 lb., 45c; 3 lbs., \$1.20; 10 lbs., \$2.25.

WHIPPLES MEDIUM EARLY

White This new sweet corn, remarkable to say, matures as early as the small eared extra early varieties and has ears approaching the size of Stowell's Evergreen. The commercial grower, who is the first to have Whipples Early White is bound to find it wonderfully profitable. Pkt., 5c; ¼ lb., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., 90c; 10 lbs., \$1.75.

Yellow The description of Whipples White above applies to this except the color is yellow. Price the same as the White.

Whipples White

Sweet Corn—Continued

LATE VARIETIES

Stowell's Evergreen The Leading Main Crop Sweet Corn. I know that nearly every person who raises any sweet corn, plants some of this variety. Every person just dotes on the big, juicy "roasting" ears when the Stowell's Evergreen comes. Our O. K. Brand is unexcelled. Pkt., 5c; 1/4 lb., 10c; 1/2 lb., 20c; lb., 35c; 3 lbs., 90c; 10 lbs. \$1.75.

Country Gentleman An especially fine sweet corn. Cob is small white and densely covered with long, slender white grains in irregular rows. Pkt., 5c; 1/4 lb., 10c; 1/2 lb., 20c; lb., 35c; 3 lbs., 90c; 10 lbs. \$1.75.

POP CORN

Culture

The same as for sweet corn except the same amount of seed will plant about twice the space. Three quarts will plant an acre.

White Rice

A standard variety. Very prolific. Pkt., 5c; 1/4 lb., 10c; lb., 30c; 5 lbs., \$1.25.

Queen's Golden

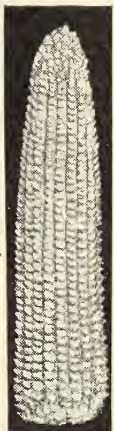

The largest eared, largest grained variety. While the grains are yellow, it pops perfectly white. Very productive. Pkt., 5c; 1/4 lb., 10c; lb., 30c; 5 lbs., \$1.25.

Japanese Hulless

A splendid variety recently introduced. Coming to be much in demand by poppers. Used exclusively in many sections where known. Yieldy and commands 25 to 50 per cent better price per pound from poppers than the old varieties. Bears 2 to 5 ears to stalk. Pkt., 5c; 1/4 lb., 10c; lb., 30c; 5 lbs., \$1.25.

Jap. Hulless

White Rice

Queen's Golden

"LITTLE WONDER" ELECTRIC POPPER

You can now pop corn anywhere there is an electric light fixture, without bending over a hot stove, and this new way we have found pops corn that was not considered good by the old way. Popcorn is a healthy cereal. Have it daily like you do toast. A child can operate the popper and delights to do so. Delivered at the price.

5 lbs. Japanese Hulless corn for popping, \$1.00, delivered.

The Popular Winter Sport

ONLY \$1.50

The O. K. Seeds bought of you last Spring were very successful. I had plenty of fine lettuce. Your Golden Bantam corn was wonderful. We had plenty of Swiss Chard and the best radishes I ever ate. Our flowers, also, were the finest I ever have seen, and made all of our friends admire them.—Chas. Kurtz, N. Y.

GOURDS

Ornamental and Useful

Culture Start the seed early and transplant, or in open when ground is warm. The following varieties will be found very useful about every house. All are climbers.

Nest Egg They closely resemble the eggs of hens and are very useful as nest eggs, never breaking or freezing. The plant grows very rapidly, and is useful in covering unsightly places, being quite ornamental. Pkt., 5c; oz., 20c.

Sugar Trough

Grows to great size. Cut off the top and you will have a receptacle that will hold from 1 to 10 gallons, and will be useful for many purposes. Pkt., 5c; oz., 20c.

Luffa (Shi-Qua in

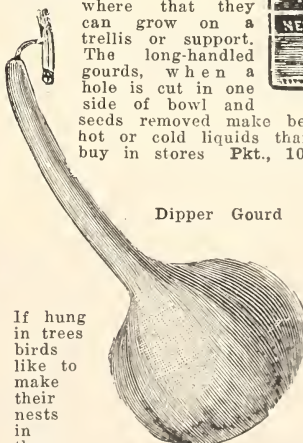

China) or Dishcloth. This wonderful vine produces fruit that has two-fold value in every home. When young and tender, they are delicious eating prepared like squash. When full grown they attain lengths of 2 to 4 feet and when ripe the inner lining is removed and makes a dishcloth that many women prefer to anything else as it is so pleasant to handle and is sweet and easy to clean as long as any of it is left. Pkt., 10c; oz., 30c.

Mixed All varieties mixed. Pkt., 5c; oz., 20c.

Dipper Gourd

Valuable in every kitchen. Plant a few seeds in your garden along the fence or anywhere that they can grow on a trellis or support. The long-handled gourds, when a hole is cut in one side of bowl and seeds removed make better dippers for handling hot or cold liquids than most anything you can buy in stores. Pkt., 10c; oz., 30c.

Dipper Gourd

OUR GOURD COLLECTION

One pkt. each of the 4 varieties, at catalog prices, will cost 30c.

Our Special Offer
One pkt. of each,
25c

THE BEST CUCUMBERS

Can anything be nicer than cool sliced Cucumbers in hot Summer?

Culture Cucumbers must have rich soil. New ground is the best. Plant when ground is warm, in hills 3 to 4 feet apart. Thin to 3 or 4 plants to the hill. As vines grow cover occasional joints to induce new roots. Do not let them ripen on the vines, or they will stop bearing. One packet will make about a dozen hills, two pounds per acre.

Earliest of All

Green Prolific Or Boston Pickling (for pickles). One of the most prolific varieties. Also splendid kind for slicing. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Early Frame (For pickles). A famous pickle cucumber producing cukes of medium size and of fine quality. Medium early. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Early Cluster Fruit short, chunky, small. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Earliest of All An extra early, prolific, desirable White Spine much in favor wherever a very early cucumber is desired. Fruit very full and uniform, tapering slightly but abruptly at both ends; color a good deep green. Pkt., 5c; oz., 10c; ¼ lb., 40c; lb., \$1.25.

Early Fortune (For Forcing). The finest shipping type of White Spine. Very productive and disease-resistant. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Imp. E. White Spine (For slicing). Plump cucumber for slicing. They are also good for pickling when small. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

New Longfellow Cucumber

slender, dark-green fruit like that grown in a hothouse. The Longfellow supplies this want, as it succeeds equally both ways. It is of the White Spine type but has an intense dark green color. Vines very vigorous and productive. Medium early. Cukes grow 12 to 14 in. long and about 2½ inches through. A fine acquisition for the private gardener and a boon to market gardeners. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Davis (Slender Pickles). An extra long, dark green type of White Spine, retains its color and good qualities long after being picked: fruit is exceptionally long, smooth, and tapering at both ends; flesh crisp, solid, with few seeds; mid-season; size 1x2½ ins. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Davis Slender Pickle

BRUSSEL SPROUTS

Italian Green Sprouting The best variety for home and market. Should take the place of old kinds. Pkt., 5c; oz., 15c; ¼ lb., 50c.

CHICORY

Culture Sow early in the Spring in rows 18 inches apart and thin to 6 ins. between plants. The plants are perennial and spread from the roots.

Large Rooted The dried roots are roasted and mixed with coffee or used as a substitute for coffee. Pkt., 5c; oz., 20c; ¼ lb., 75c.

COLLARDS

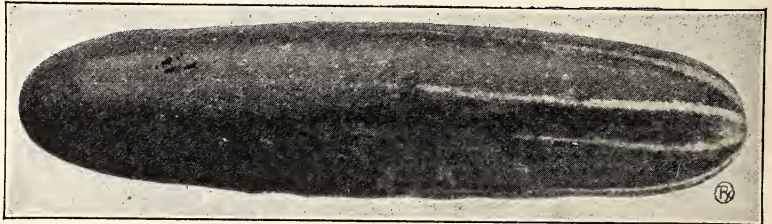

Georgia Bears large bunches of leaves which are used as greens. It also furnishes green forage for stock or poultry. make their appearance. It grows all winter as fast as the leaves are pulled, new ones in the South. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Climbing China Cucumber

A Cucumber from China, for every home and market garden. It will grow on the ground or a trellis, pole or fence. When allowed to climb they will give about three times as many cucumbers, to space, as ground kinds. If pulled off when green will bear continuously. Quality equal to hot house product. Very ornamental. Read what growers say: "The finest I ever grew." "20 in. long, 2 inches through, and finest for table and market." "Grew 8 ft. high and full of pickles." "The cucumber with ornamental vine for everybody." Pkt., 10c; 3 for 25c; oz., 20c; ¼ lb., 60c.

in. long, 2 inches through, and finest for table and market." "Grew 8 ft. high and full of pickles." "The cucumber with ornamental vine for everybody." Pkt., 10c; 3 for 25c; oz., 20c; ¼ lb., 60c.

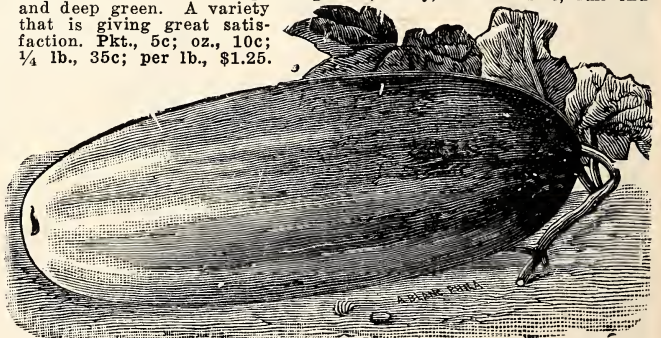

Longfellow—Grows outdoors like greenhouse cucumbers

Everbearing (Pickling and Slicing). For a continuity of crop this variety is hardly equalled. Produces until frost. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Gherkin The fruit is 2 to 3 inches long, oval and closely covered with spines. Used exclusively for pickling. Pkt., 5c; oz., 15c.

Snow's Perfect Pickling Cucumber The most symmetrical, best formed, and most productive pickling sort; early, medium size, full end and deep green. A variety that is giving great satisfaction. Pkt., 5c; oz., 10c; ¼ lb., 35c; per lb., \$1.25.

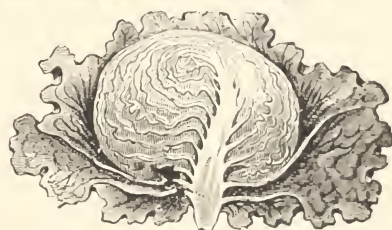

Snow's Perfect Pickling

Imp. Long Green (Pickling and Slicing)—This is the old, long Cucumber that has always been the choice in thousands of gardens. It will grow a foot long, almost seedless. Fine for pickles when small, and for sweet pickle when full grown. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Crisp, Tender, Leaf and Head Lettuce

Culture Lettuce likes a moderately moist, fertile soil. Seed may be sown as early as the ground is fit. Sow every two weeks for succession. The heading varieties should be thinned to 8 inches apart, but if heads are not wanted leave the plants 2 inches apart to grow in a mass. For winter use sow under glass from November to February. Keep in moderate temperature, giving as much light and air as possible. From time of seeding to maturity is 40 or 50 days. One pkt. will produce about 600 plants. One oz. about 3,000 plants.

Wayahead Lettuce The earliest hard-heading variety. The name of this lettuce was suggested by the fact that it comes way ahead of any other hard heading variety. Every gardener will appreciate the combination of earliness, firm head, handsome appearance and splendid, crisp table quality. It gives a lettuce of finest quality throughout the season. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb. \$1.50.

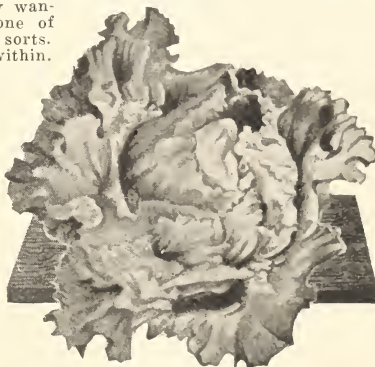

Wayahead

Wonderful or New York

(Head) Heads sometime measure 15 inches across. It is distinguished from others by the rich golden-yellowish color on the inside of the heart. The outside of the leaves is a dark green, crisp, tender and delicious. It is one of the best to resist heat and dry weather. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Imp. Hanson

(Head) White seed. We have had the Hanson lettuce as long as the writer remembers and there is no likelihood of its popularity waning for some years. It is one of the best mid-season head sorts. Light green outside, white within. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Wonderful or New York

Black S. Simpson

(Loose Leaf) Black seed, crumpled leaves. It does not form a head but a bunch of delicate green, almost white, crisp, tender and sweet leaves. It does not run to seed quickly. It is also a favorite for forcing. Largely grown for market. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Grand Rapids

(Loose Leaf). This variety looks like Simpson. It is particularly valuable for forcing. Its upright habit permits of close planting. Does very well in the garden, too. Crisp, delicious flavor. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Brown Dutch

(Head) A late heading medium sized variety; leaves broad, very thick and smooth, with plain edges. Color dark green, overlaid bronze red. Heads firm and buttery-yellow inside. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Iceberg

(Head) An extremely hard, heading variety. Has fine appearance in leaf. There is hardly another lettuce that gives better satisfaction both for home and market. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Everitt's Long Standing

Big Boston

(Head) This grand lettuce is more extensively grown than any other kind in many sections, this is both for commercial sale and the home table. It is suited to grow in the open ground and in greenhouses for Winter or cold frames for early Spring. It produces under ordinary conditions fine, large, creamy-white heads, of completely blanched leaves crisp, tender and sweet. Stands a long time. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.75.

Trianion

Self Closing. An extremely large, strictly self-blanching Cos Lettuce. A loaf-shaped head. Color dark green, quality excellent. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Everitt's Long Standing Lettuce

Beautiful color, forms large, handsome, tender heads. The longest standing of all. Every gardener knows the value of a lettuce that is slow to run to seed and we want them to know that sort excels all others in that respect. It will remain in good condition almost all summer from one sowing. It comes early and makes a large, solid head which is of the finest quality. It succeeds under most trying weather when gardeners will find it most satisfactory and money in their pockets. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c; per lb., \$2.00.

Big Boston

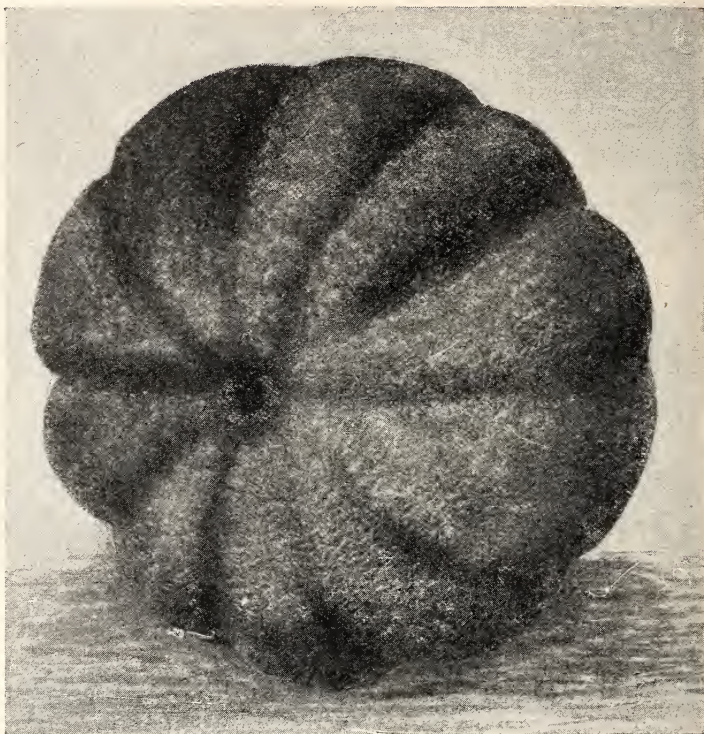

LUSCIOUS MUSKMELONS

Culture Select a light, warm soil; a poor light soil is better than a rich, cold, heavy one. Fertilize well. Lay off hills six feet apart. Plant a dozen seeds to the hill, but thin to two to three plants. Pinch the ends off of vines if they encroach on their neighbors, and this will also induce bearing. One pkt. will plant about 15 hills; an ounce 50 hills; 2 lbs., an acre.

Tip Top (also called Benders Surprise) and is sup-
 erceding that variety. Great-
 est late market melon. Our O.
 K. strain is unexcelled. Sal-
 mon Flesh. This I may say, is
 the melon for the millions to grow
 and sell and eat. It is a sure
 cropper and practically every mel-
 on is a good one, sweet, juicy,
 melting, if you plant the O. K.
 strain of seed. Grows large,
 round, ribbed. Appearance is at-
 tractive. So popular is it on some
 markets that other kinds will not
 sell when it comes. A good ship-
 per. The season is fairly late,
 but when it comes its size, appear-
 ance and good quality commands
 the market. Pkt., 5c; oz., 10c; ¼
 lb., 35c; lb., \$1.25; 3 lbs. or more
 at \$1.15 per lb.

Giant Montreal Market (Green flesh)

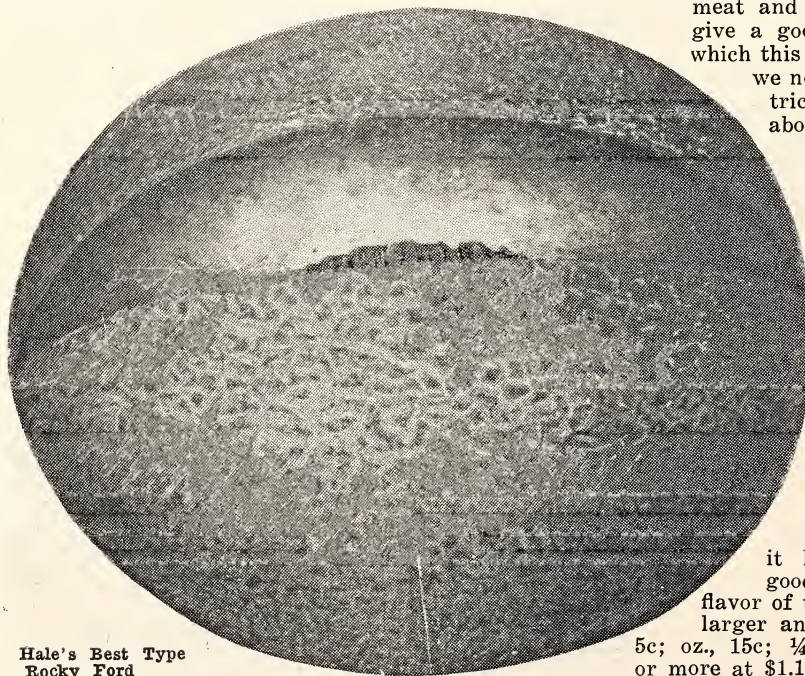

If you want to raise the very largest muskmelon that grows, that will win the blue ribbon at your fair, and at the same time one that is splendid to eat, pick this one. On good ground they will average around 15 pounds each, but have often reached 20 pounds and one was reported as weighing 44 lbs. They are nearly round, heavily netted, deeply ribbed, thick flesh, season late. When they come to market they bring high prices. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Bender's Surprise (Imp. Tip Top)

Hale's Best Type Rocky Ford (Salmon flesh).

This is a selection of the salmon tinted Rocky Ford. It carries the same shape and appearance and meat and flavor of that variety. To give a good idea of the esteem in which this melon is held, where known, we need only relate that in a district which normally plants about 20,000 acres of Muskmelons there were planted 300 acres of Hales in 1924, 5,487 acres in 1925 and 16,533 acres in 1926. Or, in three years' time this melon became the most widely grown of all melons. And what was true in that district has been duplicated in others and will be in still others as it becomes known. EARLINESS is the great secret of its popularity. It gets into the markets earlier and actually makes thousands for large growers. Remember, it has the same appearance, good shipping qualities and fine flavor of the best Rocky Ford, is 10% larger and two weeks earlier. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.25; 3 lbs. or more at \$1.15 per lb.

Hale's Best Type
 Rocky Ford

Muskmelons—Continued

Orange Nectarine Muskmelon

Orange Nectarine

Given this name because of its orange flesh and flavor as sweet as nectar. This is positively the "last word" in an all-round home and market melon. Size of Rocky Ford but more solid, with less seed space and heavier. Fruit very uniform in size, nearly round and covered with a gray netting. Has appealing deep orange flesh of luscious eating qualities. Very prolific. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

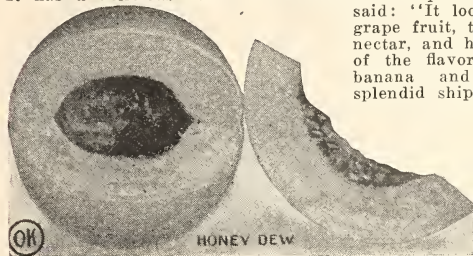

Osage MILLER'S CREAM.

(Orange Salmon). Skin is dark green, slightly netted but nearly smooth, medium size, egg shaped. The thick, heavy, juicy, luscious, salmon flesh is what made it famous. There is scarcely any cavity for the seeds. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Golden Champlain (Salmon flesh). The earliest melon. All growers for market know that the first melons bring about double the price. They are not large, weighing 2 to 3 lbs.. Nearly round and slightly ribbed. The flesh is very deep, tender, rich, golden color. The flavor is good, clear out to the thin rind. They can be picked "ripe" and shipped to market 500 miles away and arrive in good condition. The Golden Champlain is also extraordinarily productive. Probably this is because the vines are sturdy. The strong vines are frequently as thick as a man's thumb. With this melon it is the rule to sell around \$200 worth of melons per acre before competitors have any to market. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50; 3 lbs. or more at \$1.25 a pound.

Honey Dew Melon

The average size of the melon is 8 to 10 inches in diameter, solid and juicy. It has a delicious flavor all its own. One person describing it said: "It looks like a large grape fruit, tastes like sweet nectar, and has the mingling of the flavors of pineapple, banana and vanilla." A splendid shipper. Will keep many weeks after other melons are gone. Might be called a winter melon. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.25.

HONEY DEW

Fragrant Pomgranate Or Queen Ann's Melon. A very fragrant little fruit belonging to the muskmelon family. Color mottled and dark green striped. Gives forth a delicious perfume when carried in the pocket or laid among clothing. Pkt., 10c.

Bush Muskmelon

A gem for small gardens where not room for vining kinds. The bush habit of growth of this new variety enables it to be grown in small gardens, where the vine sorts could not be grown for lack of room, and they yield about twice as much on the same piece of land as the vine sorts. The fruits average 5 inches in diameter; they vary somewhat in shape from flattened-round to almost spherical; the ribs are shallow, the surface is dark green, but so densely netted that it appears almost russet colored. The flesh is very deep, edible almost to the rind and is colored light green flushed with salmon towards the center. The seed cavity is small. The quality is superb, lusciously sweet and juicy, with a cool, gratifying flavor and a delightful aroma. They ripen a little in advance of "Rocky Ford." The plants grow from 15 to 18 inches in length and two or three plants should be grown in a hill $2\frac{1}{2}$ to 3 feet apart. Pkt., 10c; 3 for 25c; oz., 20c.

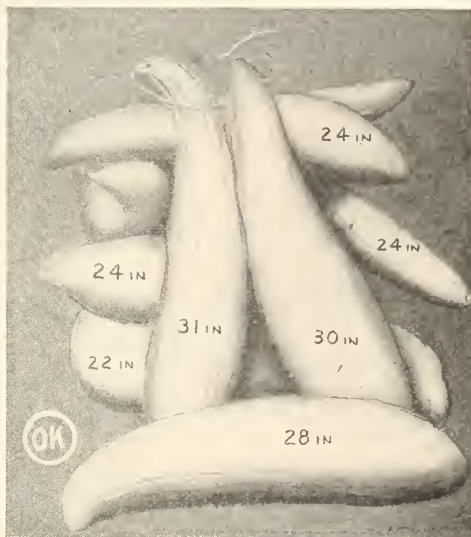

Bush Muskmelon, a gem for small gardens

Banana Muskmelon

Banana Muskmelon

Novel appearance. Good quality. Succeeds on ground where others will not. Shape and appearance somewhat like an overgrown banana. It attains a length of from 18 inches to 2 feet, and a diameter of about 2 inches at the stem end to 4 to 6 inches at the largest part. Flesh is salmon, firm, juicy and sweet. It is liked by many people better than the regular muskmelon. Many growers are getting higher prices on the market than the regular muskmelons bring. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

WATERMELONS

Culture

A light sandy soil, well exposed to the sunlight is the best situation for growing watermelons. Prepare the ground with deep working, but later give shallow cultivation. Frequent hoeings are essential. Plant in hills 8 to 10 feet each way, with a very generous shovelful of well rotted manure mixed with the soil in each hill. In using commercial fertilizer, it should contain a large percentage of ammonia and potash. Put 8 to 10 seeds in a hill and finally when danger from insects is past, thin to 3 strong plants. It requires an ounce to plant 20 to 30 hills, one pkt. about 5 hills; 4 to 5 lbs. per acre.

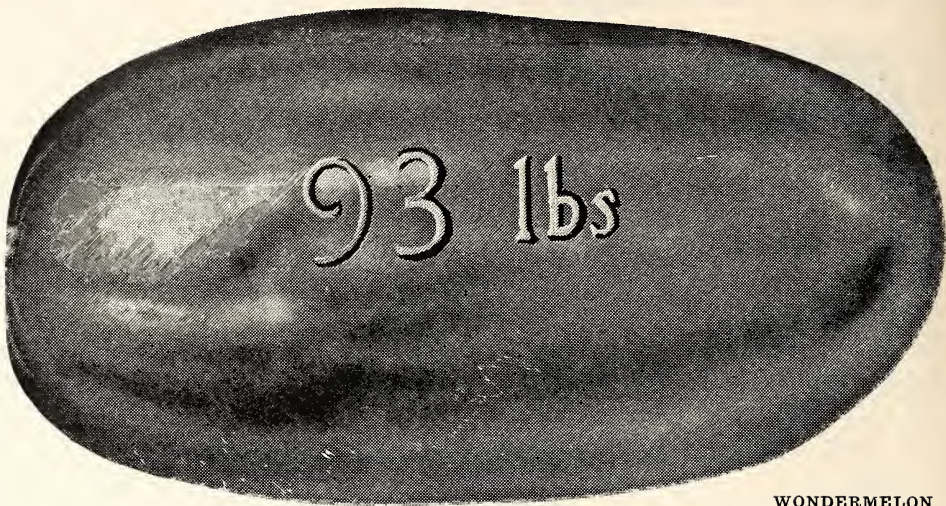

Wondermelon

A real wonder in size, beauty and quality. This is a long melon of the Tom Watson type, but is thicker through and better in most points that go to make up a high type for marketing and consumption. While it has a thin rind, it is very tough and ships well. The flesh is real red, sweet and fine throughout. Color of rind, dark green. Melons grow medium to very large and bear numerously. Highly recommended. Pkt., 10c; oz., 20c; ¼ lb., 45c; lb., \$1.50; 5 lbs., \$5.00.

Tom Watson (Long) The most Popular Shipping Melon. An extra-long melon of attractive appearance, uniform in shape and quality. The average melon will weigh 30 to 40 pounds and measure about 24 inches long and about 10 inches in diameter. It is very prolific, producing in greatest abundance the large, delicious fruits. We sell a very fine selection of this popular melon. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.00.

Imp. Kleckley Sweet

or Monte Cristo. (Long) For nearby market selling and for eating quality, its popularity is increasing each

WONDERMELON

season. It is early, but grows very large. Skin is rich, dark green shaded with faint lines of lighter green. It is not a shipping melon. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., \$3.50.

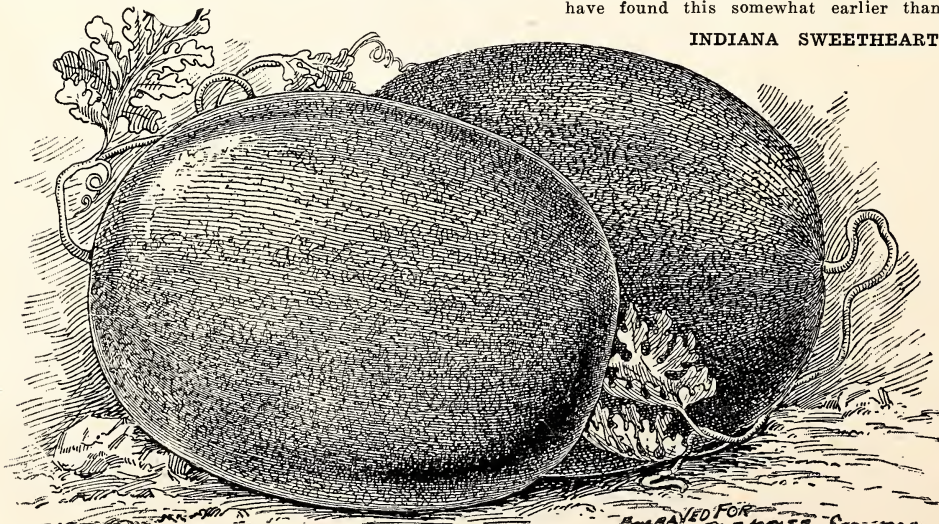

Indiana Sweetheart

There are two general classes of watermelons—round or oblong and long. Some prefer a round melon, others the long, but this preference is not so positive, except quality goes with the choice. Of round to oblong melons the Sweetheart is the choice of many. It grows large, is early, heavy, a long keeper, fine quality and good shipper. Skin mottled green. It is very productive. Sweethearts usually bring a good price when others will be neglected. This is because of their handsome appearance and fine qualities. This melon remains in good condition longer than most others, even improving in its quality for a time. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25; 5 lbs., \$5.00.

Stone Mountain

Very early; Very Large Size; Finest Quality. A very large, medium green, round melon of excellent quality. Flesh highly colored, very solid, fewer seeds than most watermelons. This is rapidly gaining a well deserved popularity wherever planted, South and North. The fruits frequently obtain a weight of 60 to 80 pounds. The rind is tough enough to stand handling for nearby markets but is not so good for long distance shipping. We have found this somewhat earlier than the other large varieties. It produces an abundant crop and because of earliness can be grown successfully farther North than many of the long shaped varieties. The grower who takes pride in his melon patch or field and looks forward to good times and profits in July and August must be sure to plant some Stone Mountain seed. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25; 5 lbs., \$5.00.

INDIANA SWEETHEART

Everitt's Earliest and Sweetest The Melon to Anticipate

The best home watermelon. Very early and deliciously sweet. It fairly melts in your mouth. This melon is the earliest and sweetest of all. It has been selected for many years for these qualities. The size averages from 10 to 12 pounds. The flesh is scarlet, of extra sweetness. It is also one of the most prolific known. Is adapted to grow on ground that will not

produce other melons, and northern latitudes where larger and later kinds will not succeed. Wherever you live plant some of them. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25; 5 lbs., \$5.00.

ORANGE WATERMELON

A peculiarity of this fine melon is that when well ripened the inner core separates from the rind. Frequently one can lift the entire heart

Orange Watermelon

of the melon out of the shell or rind by cutting the melon rind only. The flesh is of a pink shade, of fine quality. Considered by many a great delicacy and prized to serve on special occasions. It grows to a medium size. Very productive. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Colorado Preserving Grown for making preserves. This is the best variety. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

CRESS

Culture Plant thickly in drills 6 to 8 inches apart. Prized for its piquancy. It makes an appetizing salad and is used for garnishing. One oz. to 1000 feet of row. Grows in the cool season best. Sow often as it goes to seed.

Fine Curled (Pepper Grass). Pkt., 5c; oz., 10c; ¼ lb., 30c.

CORN SALAD

Culture Sow in early Spring, also August, September, October. Treat like lettuce. Used as salad. One oz. to 100 feet of row.

Large Round Leaved The well-known variety. Ready to use in 4 to 5 weeks. Pkt., 5c; oz., 15c; ¼ lb., 50c.

It means **WINTER** to plant **SPRING** comforts in OK Seeds in

**EVERITT'S EARLIEST
and SWEETEST**

EGG PLANT

Culture Plant seed early in house or hot-bed. Set in open ground when warm. Set 2 feet apart each way. They must have rich soil and as warm as possible, although do very well on any good rich soil. One pkt. will make about 200 plants; oz., about 1000 plants.

New York Imp. Purple A popular old variety. Grows to great size and fine quality. Bears until frost. Pkt., 5c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.50.

Florida High Bush Of strong upright growth, holding its fruit well above ground; fruit similar in form and size to New York Purple, though not so dark in color. Will supercede the New York Improved Purple. Pkt., 5c; oz. 35c; ¼ lb., \$1.50.

ENDIVE

Culture One of the best fall and winter salads. Sow as soon as ground can be worked in the spring for early crop. For the main crop sow in August, in drill 15 inches apart, 6 to 8 inches in row. To blanch, tie the leaves, when dry, in matting or any soft material, or invert something over the plants, or even tie them together at top. One pkt. to 20 feet of drill, one oz. to 100 feet.

Broad Leaved Batavian One of the best varieties for salads; leaves of upright growth, broad, more or less twisted and waved, bright deep green, with a nearly white midrib. Inner leaves form a fair head which blanches a creamy white. Pkt., 5c; oz., 10c; ¼ lb., 35c.

KOHL RABI

Early White Forms turnip-like bulbs on the stem above ground. Use while young and tender when they are sweet and nutritious. Pkt., 5c; oz., 40c.

LEEK

Culture Sow early in April in drills one foot apart, one inch deep. When plants are 6 inches high transplant 12x16 inches. Set deep in the ground. Leeks are generally considered superior to onions for flavoring soups, etc. One pkt. will make about 200 plants; one ounce about 800 plants.

American Flag The standard variety. The gardener's favorite. Pkt., 5c; oz., 15c; ¼ lb., 50c.

CHICKEN LETTUCE

Poultry requires green feed to keep in the best of health and produce the most eggs. This lettuce from Japan is the ideal cropper for the poultryman. It grows rapidly and as the stalks are cut or the leaves pulled off it grows again and continues to produce until killed by frost. The yield is very heavy. Also feed it to rabbits. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

MUSTARD

Culture Sow in drills 1 foot apart. Cover lightly. For a succession sow each two weeks. Water copiously if weather is dry. Cut when not over 3 inches high. Used for salads.

Southern Giant Curled The best kind. Leaves about twice the size of the old kind. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c.

RHUBARB

Culture Sow the seed in drills 18 inches apart and cover ½ inch. Thin to 4 or 5 inches, leaving the strongest. In fall or spring following set in permanent beds, 4 feet each way. The soil must be deep and rich. A good way is to buy the roots and set as above.

Strawberry An old, satisfactory variety. Ribbs of great size. Cooks tender. There is no better under any name. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Rhubarb Roots Of same variety, 3 for 40c; ½ doz., 65c; doz., \$1.25, delivered. Not prepaid, \$7.00 per 100.

SALSIFY—OYSTER PLANT

Culture This plant is used as a substitute for oysters, and many like it fully as well as the oysters themselves. It is either used in soup or escalloped with best results. Sow early in the Spring on rather light, fertile ground, in drills 18 inches apart; thin the plants to 1 or 1½ inches in the row. Light freezing greatly benefits the flavor. One pkt. for about 25 feet of row; one oz. to 75 feet.

Mammoth Sandwich Island The best variety. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

SPINACH

Culture For Summer sow as soon as you can in the Spring, in drills 1 foot apart, 1 inch deep, and every two weeks for a succession. For Winter and early Spring, sow in late August and September and protect with straw during severe weather. The ground for spinach can not be too rich. One pkt. sows about 20 feet of drill; one oz., 100 feet; 8 to 10 lbs. per acre.

Long Standing One of the best for Summer, as it is slow to turn to seed. Also sown in the Fall, but should have protection in winter. Leaves are large, thick and crimped. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs., \$2.00.

Bloodsdaile, or Savoy Another hardy winter variety. Leaves numerous, curled, blistered and succulent. Glossy, dark green color. Sow in early Spring and use before hot weather, or in Fall for Winter use. The most largely grown variety. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 50c; 5 lbs., \$2.00.

Princess Juliana Spinach The Juliana is the most thoroughbred type of long-standing spinach ever introduced. In form it is a dense, compact rosette with very short leaf stalks, the leaves are large, and rounded, thick in texture, very much blistered and crumpled and of intense, very dark green color; will hold up well in shipping to distant markets. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs., \$2.50.

PARSLEY

Culture Drill one foot apart, cover one-eighth inch. Seed germinates very slowly so have patience. To soak the seed a few hours in warm water will hasten its germination. Thin to four inches when two inches high. A small plat sown broadcast, thinly, will do very well for a family supply. Prized for garnishing and for flavoring soups. One pkt. will produce many plants.

Moss Curled An elegant decorative variety. Also has high flavoring properties. Pkt., 5c; oz., 10c; ¼ lb., 25c.

PARSNIPS

Culture Give rich soil, and to the long kinds deep soil. Plant very early in rows 18 inches apart. Cover seed one-half inch. Thin to 3 to 5 inches. Will keep in the ground over winter and improves in quality. One pkt. for 50 feet of drill; oz., 200 feet; 5 lbs. per acre.

Imp. Hollow Crown or Large Sugar. This is the best table variety. Also is a great producer and profitable to grow for stock. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Guernsey Not so long, but thick. Suited to shallow ground. Heavy yielder. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

There is no greater pleasure, once you start a garden, than to grow your own vegetables and to gather them crisp and fresh for your own table every day, for the greater part of the year and have some during the winter as well. You will not only find it a pleasure, but a profit also. The outlay is so small in comparison with the returns, with reasonable attention, that you will be delighted with the substantial results, not forgetting the pleasure you will derive from your flower garden, which must not be overlooked.

The reasons for making a garden in 1930 are more urgent than since the war, because of the great number of people out of employment, which gives them the time, and the economy in living expenses. A moderate sized garden can easily be made to produce one-fourth to one-half the living of a family.

COMBINATION OR COMPANION VEGETABLE CROPS. Growing two vegetables where only one might be expected to grow is naturally a great advantage and a saving of labor. Several quick-growing sorts can be grown between two rows of slower growers and gathered before the latter require more room. Onion sets may be planted between two rows of peas, early or medium early. Radishes can be grown between peas or cabbages and will mature before the cabbage needs more room. Early turnips and lettuce and other crops can be similarly treated.

SUCCESSION OR ROTATION OF VEGETABLE CROPS. By this we mean late-maturing crops following early or quick-maturing crops in the same row. Late cabbage, cauliflower, Chinese cabbage, celery, etc., may take the place of bush beans, lettuce or peas, after these have been removed. Lima beans are frequently not planted until earlier crops have been removed. Leaf crops should be succeeded by legumes, such as beans and peas, which are producers of nitrogen.

CONTINUOUS CROPS. Many seeds of vegetables can be sown for quite a long time during the season. Bush beans, (early), beets, carrots, corn-salad, lettuce until August 15th; corn (sweet), cucumbers for pickles, kohlrabi, until July 15th; endive and peas, until August 1st; radish (late), spinach and turnips, of early varieties, can be sown as late as September 15th.

A PLAIN TALK TO THE PEOPLE

For years we have been selling our good O. K. Seeds direct to the planter, and number our customers by many thousands, representing probably every county in the country. Our ambition is to have our O. K. Seeds planted on every farm and in every garden in the country. We hope to accomplish this because no other seeds are better and no other seeds of equal high grade can be had for so little money.

JUST THINK OF THIS

Every post-office in the country is a branch store for O. K. Seeds. What could be more convenient? Put a letter in the mail and in a couple of days you can take out of your mail box the best seeds that are planted under the sun, all charges paid. Why risk your crops on store seeds of uncertain age and quality? O. K. SEEDS planted means success. Store seeds planted means—WHAT? ! ! ! ! ! ! ! ! ! !

BUY YOUR SEEDS BY MAIL. It is all right to buy sugar, soap, nails, etc., at your local store, but it is all wrong to get living, vital, seeds there. They live long under the conditions found in the average grocery store.

MAKE A GARDEN IN 1930

Culture

The ground for onions must be rich and it should have been in cultivation for a year or more. Pulverize not more than 5 ins. deep. The seed

bed must be fine. For large onions in fall, drill about 4 lbs. per acre in rows 14 to 15 inches apart. Weeds must be kept out. Pull when tops begin to dry down. For sets sow 40 to 60 lbs. per acre in drills 12 inches apart.

THE THREE SOUTHPORTS

Southport Yellow Globe Globe shaped. All that can be asked for in table and market and keeping qualities it possesses. Extensively grown for best market demand and home gardens. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 3 lbs., \$5.25.

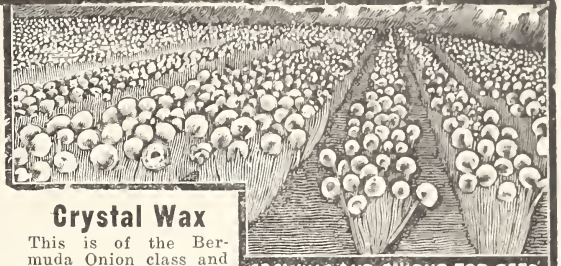

Southport White Globe Identical in appearance with the yellow except it is as white as a clean snowball. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50; 3 lbs., \$6.00

Southport Red Globe And this also is identical in appearance to the Yellow and White, except its color. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 3 lbs., \$5.25.

Yellow Globe Danvers Fine, symmetrical shape, large size and quality; just what an onion should be. They can be grown full size from seed the first year. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 3 lbs., \$5.25.

Large Red Wethersfield Noted for productiveness and keeping qualities. Grows to full size from seed the first year. The bulbs are large, flat in shape, purplish, red skin. Flesh a purplish white color, not too strong flavored to meet the popular taste. One of the best keepers. It succeeds almost everywhere. Very productive. The O. K. Strain of seed is unexcelled. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75; 3 lbs., \$4.50.

Ebenezer, or Japanese Onion An exceedingly fine onion introduced from Japan that is of mild and pleasant flavor. The onions are flattened, of a light yellow color. They can be raised successfully from seed or sets. Ripens early and all at the same time. Has very small neck. This variety keeps late in the spring which is an advantage over some others. Pkt., 5c; oz., 20c; ¼ lb., 65c; lb., \$2.00; 3 lbs., \$5.25.

Crystal Wax

This is of the Bermuda Onion class and is the most attractive onion of all. It is beautiful, pure waxy white, which causes it to sell on "sight" in any market and at high prices. Tender and deliciously sweet. Eat it from hand like an apple, or just make a sandwich with it and it will tickle your palate. We have them in plants also. Pkt., 5c; oz., 25c; ¼ lb., 85c; lb., \$3.00.

Yellow Bermuda The description of the Crystal Wax will apply to this except the color, which is light straw color. Both these Bermuda onions are of quick growth to large sizes. They are also suitable for pulling green. We have this in plants, also. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50.

White Pickling A fine white onion and the best for pickling. The bulbs quickly grow to a nice, small, uniform size, beautiful white color. Mild flavor. Pkt., 5c; oz., 20c; ¼ lb., 75c; lb., \$2.50.

ONION SETS

By planting sets you can have onions to eat, or market in one-fourth the time required from seed. Set onions come off so early that a second crop can be grown on the ground. Write for prices in larger quantities.

WHITE, lb., 35c; 5 lbs., at 30c.

YELLOW, lb., 35c; 5 lbs., at 30c.

RED, lb., 35c; 5 lbs., at 30c.

EBENEZER SETS, lb., 35c; 5 lbs., at 30c.

Potato Onion

This excellent onion multiplies by the parent bulb dividing. You plant the Onion and it grows and divides and makes sets. You plant the sets and they make large onions to use. Large onions, lb., 35c; 5 lbs., at 30c. Sets lb., 35c; 5 lbs., at 30c.

Egyptian or Winter Plant as early as possible, even in the winter. They produce green onions for the table and top sets to plant. Also the old planting continues year after year. Lb., 30c; 5 lbs. at 25c. Ask for prices on large quantities.

ONION PLANTS

Onion plants are now preferred by many planters to the dry sets or seed. They are grown in the South and when planted in the North just as large, beautiful and mild onions can be grown as formerly were shipped in. From plants you can rely upon a full crop of perfect onions in a shorter time.

VARIETIES—Crystal Wax (white) and Yellow Bermuda. In small gardens set them 4 inches apart in rows 6 inches apart. Thus a plot 12x12 feet will take 1,000 plants and if allowed to mature, instead of pulling for green onions, will yield 5 to 8 bushels.

Prices, delivered to customer: 500, \$1.00; 1000, \$1.85. Crate of 6000 plants, not prepaid, \$6.00. We do not accept orders for less than 500.

Types of our Southport Globe Onions—See these varieties. Are big croppers and good keepers. They get the top prices.

Wrinkled and Smooth Peas

Culture Plant peas early in the Spring so the crop will be off before hot, mid-summer. Peas never do well in mid-summer, but may be planted late to grow in the cool Fall. Plant the dwarfs in rows $2\frac{1}{2}$ feet apart; the tall ones 3 ft. apart; plant 3 to 4 inches deep. A pound will plant about 100 feet; 120 to 150 pounds for an acre. The wrinkled peas are the sweetest. Write for prices of Peas by larger quantities. The price on 15 lbs. does not include delivery.

Quantity and Quality

This pea was so named because of its large productiveness and splendid table qualities. It is medium early and grows uniformly about 24 inches high. Pods are large and of blocky shape. The peas are wrinkled, green and for eating are near perfection, being rich, buttery and marrow-like. With a large canner it holds the record for producing the largest number of bushels of

Quantity and Quality Pea

shelled peas per acre. The home and market gardener will find this a most profitable variety. The pea is properly named. Every grower should get it. Large pkt., 10c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 5 lbs. at 37c.

Don't stick to the old, antiquated varieties of peas; surprise yourself and your customers with some of the newer and better sorts. Our list embraces the newest and highest types in pea culture, with less valuable kinds omitted.

Alaska (2 ft. smooth)—A pea of fine quality. Largely grown for market, commercial canning and in the home garden. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb., 35c; 3 lbs., \$1.00; 15 lbs., \$2.75.

American Wonder (1-ft. wrinkled)—The well-known dwarf pea. Extra early and exquisite quality. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb., 35c; 3 lbs., \$1.00; 15 lbs., \$2.75.

Little Marvel Wrinkled, 14 in. The best extra early you can plant for private or market garden. Pods nearly round, 3 inches long, square ended and contain 6-7 dark green peas of exceptional quality. Very productive. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb., 35c; 3 lbs., \$1.00; 15 lbs., \$2.75.

World's Record (Wrinkled, 2 ft.) Gardeners who are partial to the Gradus and that type will find in this an earlier and dwarfier sort but a heavier cropper. The vines bear wonderfully of broad, pointed pods, filled with 7 to 9 very large dark green peas of finest quality. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb., 35c; 3 lbs., \$1.00; 15 lbs., not delivered, \$3.25.

Telephone (4 ft. wrinkled)—A standard, high-quality, large podded pea. Vine and foliage strong and heavy. Pods $4\frac{3}{4}$ in. long, medium green, straight, broad and pointed, containing 8 large, light green peas; main crop, productive. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb., 35c; 3 lbs., \$1.00; 15 lbs., not prepaid, \$3.25.

Sugar Pea (Edible Pods)

(3 ft. smooth)—This distinct pea is used like stringless beans. The pods are tender and are broken and cooked with the peas. Very sweet and delicious. Try them and you'll like them better than shelled peas alone. Pkt., 5c; $\frac{1}{2}$ lb., 25c; lb., 40c; 3 lbs., \$1.00.

Laxton's Progress

THE LAST WORD IN GARDEN AND MARKET PEAS—LAXTON'S BEST CREATIONS

Laxtonian This is a new large-podded, dwarf, wrinkled Pea. Grows 20 to 22 inches high. The pods are large, almost like the Telephone. The peas are exquisitely flavored, 7 to 9 to the pod. The vines require no support. They are ready to use in about 65 days. The vines are vigorous and productive. It is fast becoming one of the most popular varieties. Postpaid, pkt., 7c; $\frac{1}{2}$ lb., 25c; lb., 45c; 3 lbs., \$1.00; 15 lbs., not prepaid, \$3.00.

Laxton's Progress Wrinkled, 16 to 18 in. The earliest large podded dwarf pea. A vigorous grower, extremely productive. Pods 4 in. long, broad, pointed, beautiful green and bear 7-8 large, dark green peas of delicious quality. Pkt., 7c; $\frac{1}{2}$ lb., 25c; lb., 45c; 3 lbs., \$1.00; 15 lbs., not prepaid, \$3.00.

Our Specialties in Peas

We are thoroughly in earnest when we recommend gardeners and truckers to get away from the old type of peas and use these newer, better varieties.

OKRA

Its green seed pods are used in soups or stewed like asparagus. Sow seed in drills 2 ft. apart. Thin to stand 9 inches apart. Draw soil to stems as they grow.

Perkins Mammoth (Long Green) Very early and productive. Plant grows 3 feet high. Pods green, very long and slender. A fine variety. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c.

The Best Mild and Hot Peppers

Culture Start in cold frame, hot bed or house. Transplant to garden when warm weather has come to stay. The rows may be 18 inches apart and plants 12 inches apart in row. One pkt. will produce about 250 plants; 1 oz., about 1000 plants.

WORLD BEATER

The introducer of this pepper said, "It is the finest introduction of a pepper in ages." A cross of Chinese Giant and the Ruby King, its chief improvement is in the fact that it is much more prolific than the Chinese Giant, some plants having yielded two dozen marketable peppers. The flavor is so mild that it can be sliced and eaten raw. The fruit is green until it ripens, when it takes the scarlet color. The flesh is so thick that it holds up a long time making it one of the best shippers. Order World Beater and have something you will be proud of. Pkt., 10c; 3 pkts., 25c; ½ oz., 25c.

HARRIS

E. GIANT

This is in the large mango type, and is the earliest of the large ones and also is the most prolific. Is of dwarf, sturdy growth and bears as many as twelve large mangoes on a single plant. The scarlet fruit measures about 5 in. long by 3½ in. diameter. Mild and sweet. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.75.

Golden Queen If you want a yellow mango as well as the red, select this one. It is not too much to say that the red and yellow mangoes ought to be served together as they are then very ornamental. Pkt., 5c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.20.

Golden Queen

Oshkosh Pepper

Yellow peppers are usually not very popular, but this new variety is of such exceptional merit that we feel sure it will be largely grown when gardeners find out what it is.

The peppers, before they mature, are of a deep green, large, smooth and of the best shape for stuffing. When ripe, the color is a deep golden yellow. The flesh is exceptionally thick—more so than any other large pepper that we know of.

Another important point is that the Oshkosh is a very sweet pepper. We have never tasted a pepper of such mild, sweet flavor. It is quite distinct in that respect.

We highly recommend this new pepper to those who wish to raise green peppers for market or home use where smooth form, thick flesh and exceptionally fine quality is more desired than extra earliness. Pkt., 10c; ¼ oz., 25c; oz., 75c.

Royal King The Royal King averages nearly twice as much meat as the old Ruby King. It is also a heavier bearer. Is most beautiful in color and its shape is all that can be asked for, while it also has all good qualities for shipping to distant markets. Pkt., 5c; ¼ oz., 20c; oz., 65c; ¼ lb., \$1.20.

Royal King

Perfection Pimento This new pepper grows quite tall. Its productiveness, bearing until killed by frost, makes it very profitable to the market gardener, while its desirable size and shape, thick flesh and agreeable flavor makes it a favorite in every kitchen. Color, crimson-scarlet. Their meat is never hot but of a very agreeable sweet flavor. Pkt., 5c; ¼ oz., 20c.

Sunnybrook Pepper

As sweet as an apple—shape like a tomato, bright scarlet color, smooth, glossy skin; very thick red flesh. Extremely productive, the whole plant will be loaded with the beautiful fruits, about 2½ in. diameter. Pkt., 5c; ¼ oz., 20c; oz., 75c.

Cayenne

Cayenne This is the hot pepper used for seasoning. Long and tapering. Very yielding. Pkt., 5c; ¼ oz., 20c.

Red Chili Sharply conical about 2 inches long, brilliant scarlet, very hot; used for chili and pepper sauce. Pkt., 5c; ¼ oz., 20c; oz., 65c.

ZUCCA PERGOLA SQUASH

This is not a snake nor a horse collar, but a very interesting vegetable marrow, or species of squash. They grow about 3 feet long and are about 3 inches in diameter, tapering to a point. For the table use like squash and egg plant. When young and small they are delicious. Pkt., 10c.

Last year I ordered China Cucumber and Win-its-way tomatoes and two kinds of cabbage from you and I think every seed came up. I think there is nothing like O. K. Seeds to come up and grow. I expect to order some more of you this Spring. —Mrs. W. A. Koontz, Stubenville, Ky.

A PAGE OF GOOD PUMPKINS

Culture

Plant when the ground is warm, in hills 6 to 10 feet apart depending on the variety. Some var-

ieties like large Cheese, Tennessee Sweet Potato, Sugar Pie and Big Tom may be planted in the corn field. A pkt. will plant 20 hills; one oz. about 50 hills; two to three lbs. to acre. (The numbers identify the illustrations).

King of Mammoths (1)—If you want to grow pumpkins of mammoth size, from curiosity or to exhibit, pick this one. This K. of M. grows to enormous size, often 2 feet or more in diameter and over 100 lbs. The flesh is salmon color and finer grained than you would think, considering its size. To get the largest specimens, fertilize well and allow only one vine to the hill and only one or two pumpkins on the vine. Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Mammoths Tours (2)—A French variety which grows to immense size. The pumpkins may be either long or round. Are very heavy, frequently exceeding 100 lbs. Quality real good. Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Mammoths Etampes (3)—Another French kind that is quite an attraction. The skin is bright, glossy red and excites favorable comment on exhibition or on sale. Flesh very thick, heavy. Quality is excellent. Attains very large size. Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., \$1.00.

Large Cheese or Kentucky Field (4)—This is the large flat, solid, heavy, cream-colored "sweet" pumpkin, extensively grown in corn field for stock. Sells well on the market. It is the variety used by many canners. Pkt., 5c; oz., 10c; ¼ lb., 15c; 1 lb., 40c; 3 lbs., \$1.00.

Tennessee Sweet Potato (5)—A pear-shaped variety of splendid qualities. The flesh is white, fine-grained, solid and thick. When cooked has the appearance of sweet potatoes and some people say it tastes as good. Excellent for pies and custards. Prolific. Keeps well until late Spring. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 60c; 3 lbs., \$1.25.

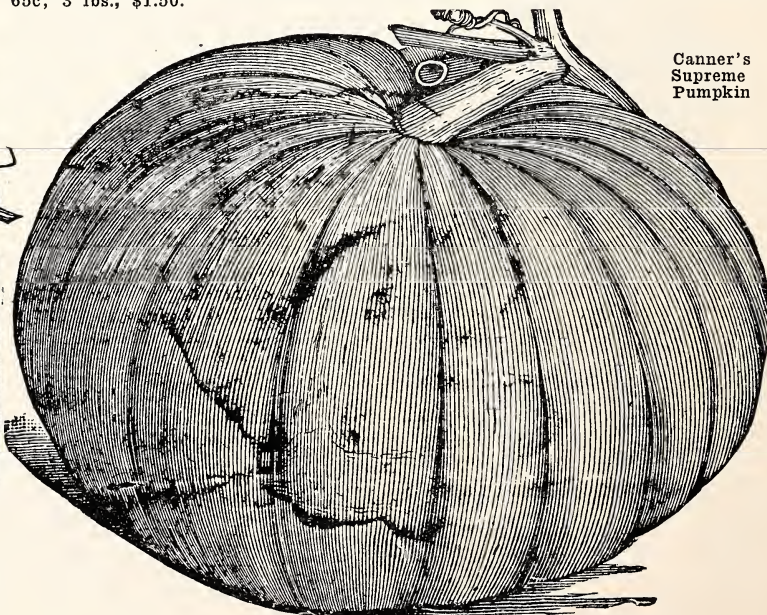

Sugar Pie (6)—The chief end of pumpkins is to make pies, and I consider this the best pie pumpkin. It is small, perhaps it was made small so enough good quality could be supplied. Very solid. Orange skin. Fine grained and exceedingly productive. Every garden should have a hill of Sugar Pie pumpkins. A good keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 65c.

Big Tom (7)—(Connecticut Field or Yankee). Grows to large size and productive. Their chief value is for feeding stock. Pkt., 5c; oz., 10c; ¼ lb., 15c; 1 lb., 50c; 3 lbs., \$1.25.

Golden Oblong (8)—A medium size, solid, productive, long-keeping variety. Excellent variety for cooking summer and winter. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 85c.

Japanese Pie (9)—Called "Japanese" because the seeds are curiously marked with characters like Japanese writing. The flesh is salmon color, fine grained and more dry than some sweet potatoes when baked. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

Canners Supreme Pumpkin This variety originated by a canner who operates on a large scale. Years ago he said, "I felt the need of a better pie and canning variety so I crossed the large Connecticut Field Pumpkin and a little pie pumpkin, then I made selections until I produced this variety. For large size, thick meat and heavy weight they are not equaled by any other. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 65c; 3 lbs., \$1.50.

Canner's
Supreme
Pumpkin

OUR PUMPKIN COLLECTION

Here are 10 splendid, interesting varieties of pumpkins. 1 pkt. of each is priced for 50c, but we will send the collection for only 35c.

RADISHES—Spring, Summer and Winter

Culture All varieties of radishes thrive best in a rich, not too heavy soil, and a sandy loam is best. For early use, sow in the hot bed in February or outdoors as soon as the ground can be worked in rows 6 to 10 inches apart, covering the seed $\frac{1}{2}$ inch deep. Thin to 1 inch apart in row. The Summer varieties may be sown at the same time, coming on after the earlier sorts are gone. The winter varieties should not be sown until about August 1st. Sow every week or 10 days for succession until hot weather comes on. One oz. of seed will plant 100 feet of drill.

French Breakfast Extremely early olive-shaped, scarlet with white tip. This is a popular radish for first on the table. Crisp when young. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

CINCINNATI MARKET LONG SCARLET

Our strain of this radish is the best that we know of. It makes beautiful radishes in 30 days and they are always brittle and sweet; small top; withstands dry weather. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

Scarlet Turnip White Tipped

A beautiful extra early radish of fine quality. For forcing and garden. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

Scarlet Turnip Extra early. A famous variety for forcing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

White Turnip Both skin and flesh are pure white. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

First Crop Radish It is the earliest of the round radishes and the slowest to go to seed. This makes it a wonderfully profitable market variety and desirable for forcing. Bright scarlet, with smallest top. Has made bunching radishes in 20 days from sowing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

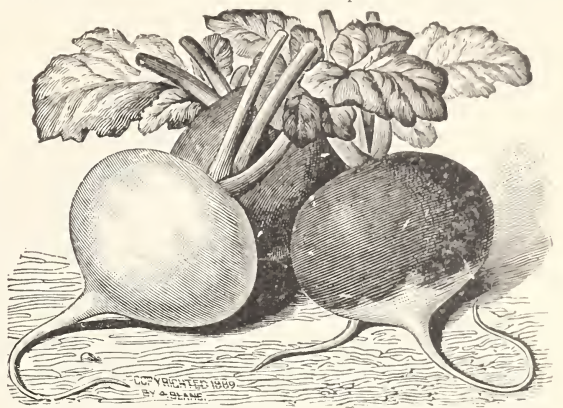

Sparkler Ready for table in 25 days. I consider it a little better and a little prettier than any of the other little radishes that come extra early. It is globe shaped, brilliant cardinal with white tip. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

Vick's Scarlet Globe Extra Strain This variety is well known and highly esteemed for outside planting and for forcing. Globe shape, small top, bright scarlet, crisp white flesh. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00; 3 lbs., \$2.50.

LATER VARIETIES

White Strasburg Semi-oblong, thick at top and tapers regularly. Very late but can begin to use it when young and small. In this respect it is truly an all season variety. It never gets pithy. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

Cincinnati Market

White Turnip Scarlet Turnip Scarlet Turnip W. T.

White Icicle

Selected Icicle If you want the best long white radish, select this one. It is very attractive and very good. The flesh is about as brittle as an icicle, which suggested its name. Extremely quick growth. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

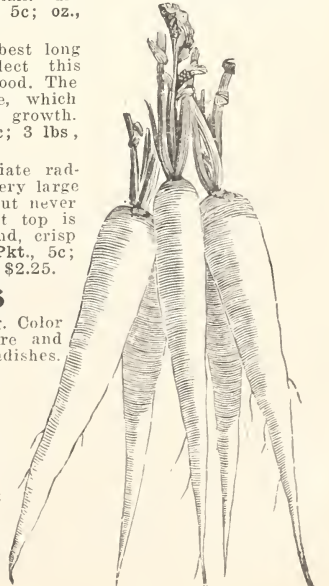

Crimson Giant A new intermediate radish that grows very large often 5 to 6 inches in circumference, but never gets pithy. It is good for garden but top is too large for best forcing. Nearly round, crisp and juicy. You better get this one. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

WINTER RADISHES

White Chinese Grows large oblong. Color white. Fine texture and flavor. One of the best Winter Radishes. Roots grow 6 to 8 ins. long and 3 ins. thick. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

Rose Chinese Same as the former except in color. Roots 4 to 5 ins. long. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

California Mammoth Largest long Winter variety. Roots grow 10 to 12 ins. through. Color white. Quality good. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 3 lbs., \$2.25.

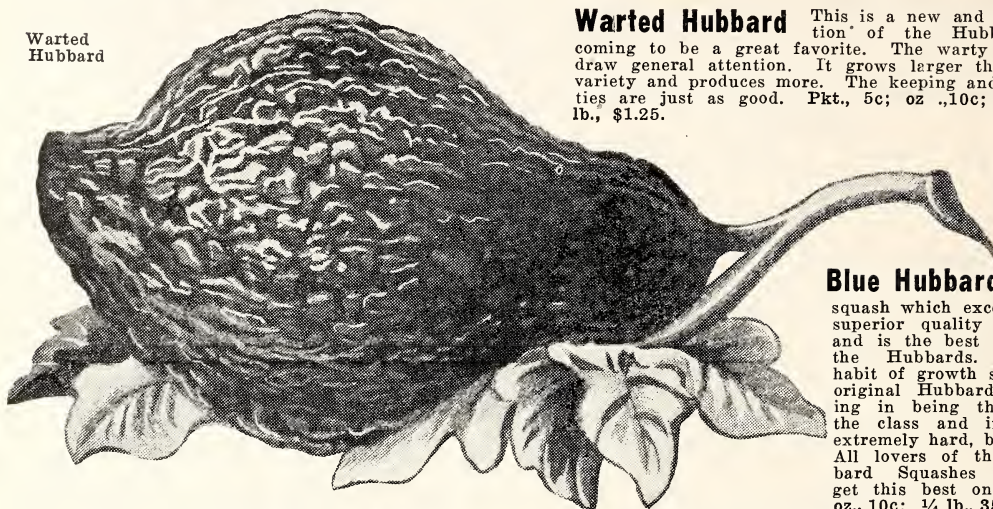

The person who plants OK Seeds (Trade Mark) in the Spring will find he has kicked a goal in the Fall.

SQUASHES Summer and Winter Bush and Vining

Culture Keep in mind that all vine crops delight in warm, rich soil. Plant squash in hills the same as melons and cucumbers. The bush kinds 4 feet apart, the others 10 to 12 feet, 8 to 12 seeds to the hill and later thin to 2 to 4 to the hill. Some kinds can be grown with corn. A pkt. will plant about 10 hills; one oz. to 50 hills; three to four lbs., per acre.

Warted
Hubbard

Warted Hubbard This is a new and enlarged edition of the Hubbard and is coming to be a great favorite. The warty knobs on it draw general attention. It grows larger than the older variety and produces more. The keeping and table qualities are just as good. Pkt., 5c; oz. .10c; ¼ lb., 35c; lb., \$1.25.

Blue Hubbard A new type of Hubbard squash which excels all in the superior quality of its flesh, and is the best keeper of all the Hubbards. Form and habit of growth similar to the original Hubbard, but differing in being the largest of the class and in having an extremely hard, blue-gray shell. All lovers of the good Hubbard Squashes should now get this best one. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

THE HUBBARD FAMILY

Imp. Hubbard The genuine Hubbard has more than held its own against all comers as a winter squash. Vines grow strong and set fruit quite numerous. Frequently specimens weigh 25 to 30 lbs. Shape oblong, color bronze green. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Golden Hubbard Now, while we are dealing with Hubbards Squashes, let us present also the yellow member of the family. This Golden Hubbard is the same as the original, with the exception of color, which is rich orange red, instead of dark bronze green. The flesh is a little deeper orange and equally fine-grained and sweet. All of the Hubbards are long keepers. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Golden Summer Crookneck Bush

Much larger than the old Crookneck, but just as early. Has all its good qualities and far more productive. The flesh is thick and yellow. Most popular of all summer kinds. Often grows 2 feet long. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Giant Summer Straight Neck In all respects like above, except without the crook. This is desirable from all viewpoints, but particularly to truckers who crate and ship to markets. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.75.

Boston Marrow This is a standard Fall variety and is without a peer for canning and pies. A rich orange color. Very productive. Pkt., 5c; oz., 10c; ¼ lb., 35c; 1 lb., \$1.25.

Fordhook Small, oblong excellent for Summer and Winter. Fruits grow 8 to 10 inches long; slightly ridged; skin smooth, thin, yellow. Flesh straw color, very thick, exceptionally dry and sweet. The skin is so thin it need not be peeled for cooking. Deserves a place in every garden. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Delicious A very early maturing variety that is also one of the best Winter sorts. The shell is very thin. Moderately hard. Unapproached for the fine grain, dryness, sweetness, and richness of flavor. 5 to 10 lb. It is in its prime from mid-fall to mid-winter. Plant some Delicious for some treats. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Mammoth Chili The Jumbo of the squash family. Sure to get the prize for the largest squash at the fair. Sometimes grow to weigh 200 lbs. Pkt., 5c; oz., 15c; ¼ lb., 50c.

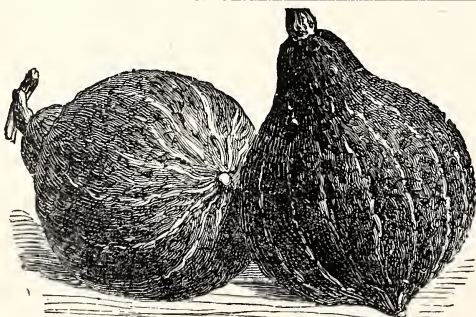

EARLY BUSH SCALLOPED OR DOLLAR SQUASH

Plant seed of the Early White Bush Scalloped (Dollar) Squash and pick them soon after the little squashes are the size of a silver dollar to two or three times the size and serve as asparagus. When handled this way the squashes are delicious and the vines will bloom and bear continuously until frost, producing a surprising amount of food. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.25.

Table Queen Squash

Cut in quarters or or halves and bake. The small squashes are preferred by many and the Table Queen is just about the right size—4 to 6 in. diameter by 6 to 8 in. long. Baked it is simply delicious. If you like sweet potatoes and do not raise them, then you ought to raise some of these squashes to take their place. A few hills will supply a family Fall and Winter, because the vines are just full of the little squashes. They have hard shell and keep all Winter. Now let's have an order for every garden. Pkt., 5c; oz., 15c; ¼ lb., 50c.

Tomato Seed

All our Tomato Seed is Grown expressly for Seed. None saved at Canning Factories.

Culture For the first sowing, select the earliest types. Sow the seed in the house or hot bed in February or early March. When two inches high, transplant. If time will permit, transplant again in two weeks. This will induce root growth. Each time giving more room. When ground is warm, set in garden 3 to 4 feet apart. For main crop, start later and transplant once or twice. As they grow you can let them trail on the ground or build frames about a foot high to carry them, or trellises. One pkt. will produce about 300 plants, an oz., about 2,000 plants.

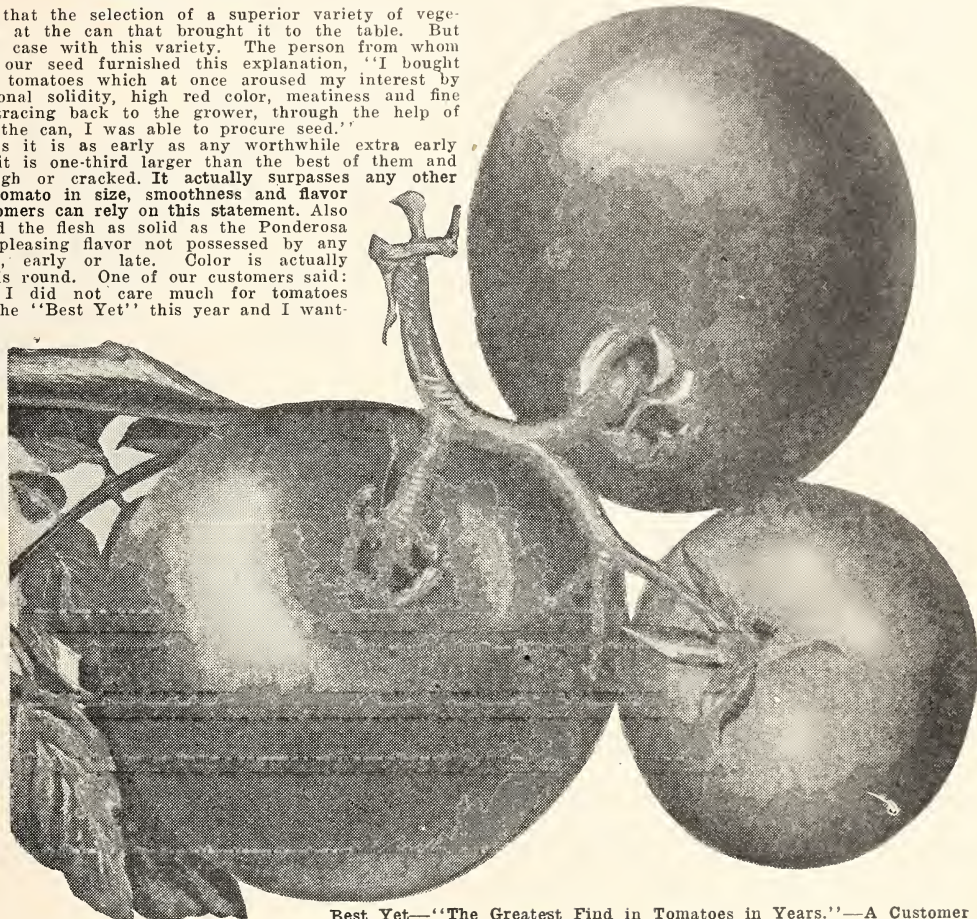

BEST YET

It is rare that the selection of a superior variety of vegetables begins at the can that brought it to the table. But such was the case with this variety. The person from whom we obtained our seed furnished this explanation, "I bought some canned tomatoes which at once aroused my interest by their exceptional solidity, high red color, meatiness and fine flavor. By tracing back to the grower, through the help of the label on the can, I was able to procure seed."

In earliness it is as early as any worthwhile extra early tomato, but it is one-third larger than the best of them and is never rough or cracked. It actually surpasses any other extra early tomato in size, smoothness and flavor and our customers can rely on this statement. Also they will find the flesh as solid as the Ponderosa and with a pleasing flavor not possessed by any other tomato, early or late. Color is actually red. Shape is round. One of our customers said: "Heretofore I did not care much for tomatoes but we had the 'Best Yet' this year and I wanted them

every meal." Another customer said: "I consider it the greatest 'find' in tomatoes in years. I planted only a packet this year but I want a full pound of seed for next year. I sold 200 plants to a neighbor and he said, 'I never saw any tomatoes to equal them.'"

Price, pkt., 10c; 3 for 25c; ½ oz., 30c; 1 oz., 50c; ¼ lb., \$1.50.

Best Yet—"The Greatest Find in Tomatoes in Years."—A Customer

RED VARIETIES

John Baer

Beautiful tomatoes in 30 days from setting plants that were started in veneer boxes and set in the ground. The best extra early. It is wonderfully productive, often yielding 50 to 100 fruits to a plant. Every tomato ripens evenly right up to the stem with no "cripples." The flavor is mild and sweet. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.75.

The Stone

This is a standard late or main crop tomato. The fruit is bright scarlet large, smooth, solid, heavy of the finest quality. The plant is a strong grower and productive. Bears shipment to distant markets. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.75.

Dwarf Stone

(Tree Tomato) The best stiff-stalked upright dwarf tomatoes, in size of fruit and productiveness. The fruit is produced in clusters of 3 to 5 and each plant produces quite a number. The color is deep scarlet. Quality the best. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.75.

Marglobe

Developed by the U. S. Dept. of Agriculture as a wilt-resistant variety. If you have been troubled by this disease plant some Marglobe Season second-early; color red; size large, globe shape, smooth; quality fine. One of the best forcing. Pkt., 5c; oz., 40c; ¼ lb., \$1.25.

Greater Baltimore

This has come to be a great canning tomato. The color is brilliant red. The vines have great vigor, are healthy, grow compact and bear a cluster of tomatoes at every other joint. It is an immense yielder. They are as fine for the home as for the market where they are sure to meet your expectations. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 3 lbs., \$5.00.

PINK OR PURPLE AND YELLOW VARIETIES

Golden Queen

This is a large, beautiful, yellow tomato of superior qualities. Very showy and very good. It is the best yellow tomato. Pkt., 5c; oz., 20c; ¼ lb., 65c.

Ponderosa

Wonderfully Popular. Has been the most popular of the Mammoth Tomatoes. A good way to raise the Ponderosa is to plant it by a fence or trellis, then it will grow higher than a man and bear fruit all along, many weighing a pound or more. The quality is splendid, especially good for slicing. Pkt., 5c; oz., 30c; ¼ lb., \$1.00.

SMALL FRUITED SORTS

These are used for preserves.

YELLOW PLUM—Plum shaped. Pkt., 5c; oz., 25c.

RED CHERRY—Look like large cherries. Pkt., 5c; oz., 25c.

PEANUTS

Peanuts are chiefly grown in the Southern States, commercially and for stock food. Hogs will harvest them and will fatten on them. The Spanish Peanut is the best in the North.

Spanish Peanut This is the earliest kind and is particularly recommended for the Northern States. It grows upright and can be cultivated with machinery. Small but plump nut. Lb., 30c; 3 lbs., 75c.

PLANT O. K. SEEDS. It is the best kind of crop insurance.

TOBACCO

Culture Sow the seed in early Spring on a clean bed. A favorite way is to burn brush or trash on the bed to kill weed seeds. Wood ash is the best fertilizer. When plants are 4 to 5 inches high, set in hills 4 to 5 feet apart. Give clean, thorough cultivation. An ounce of seed will produce plants for one acre.

Havana One of the earliest. Fine texture and super-fine flavor. Pkt., 10c; oz., 50c; ¼ lb., \$1.50.

White Burley A great favorite. Fine quality and commands high prices. Pkt., 10c; oz., 50c; ¼ lb., \$1.50.

TURNIPS

Culture For early sow as soon as ground will permit in drills 14 inches apart. The Ruta-Baga, 24 inches apart. Thin the plants to 6 inches and Ruta-Baga to 12 inches, or sow broadcast. For Fall and Winter sow July and August for turnips, one month earlier for Ruta-Baga. Use one to three lbs. per acre.

Extra Early Milan This is the earliest turnip and the best variety for early. Purple top and white root. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

White Egg Medium early white, splendid quality. A favorite for the home garden. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

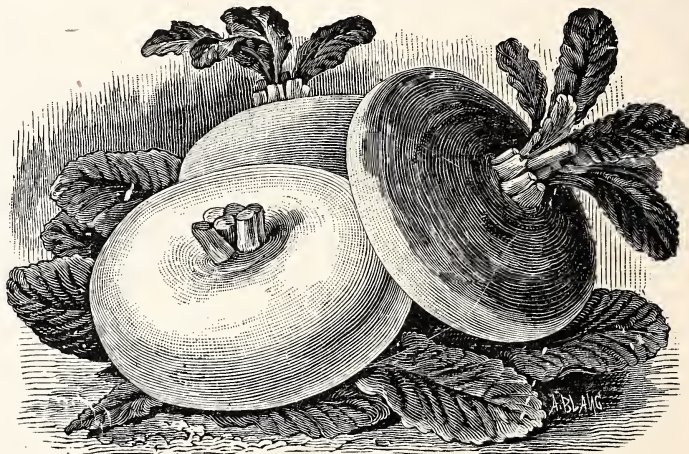

Purple Top Strap Leaf This is the most popular flat variety. Good for early Spring, Fall and Winter. Top is purple, bottom white. Very beautiful. We cannot recommend it too highly. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs. at 60c.

Large White Globe (Strap Leaved) A perfect globe in shape; skin and flesh pure white, firm and sweet. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Purple Top White Globe A large purple top globe-shaped turnip of choice quality and is very productive. A long keeper. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 65c; 5 lbs. at 60c.

Early White Flat Dutch Differs from the Purple Top Strap Leaf only in color. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Cowhorn If you want a large, coarse heavy-yielding turnip for stock pasture or winter feed, also to improve your ground, sow this one. It grows about one-half above ground and 12 to 15 inches long. Also will be eaten by cattle, sheep and hogs in the field. Sown with rape, the pasture and fertilizing value of the crop is considerable. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Golden Ball or Orange Jelly If you want a yellow-fleshed early, garden turnip, select this one. Tops are small, roots round, smooth, deep yellow color. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., \$1.00.

Seven Top Grown for the tops, which are used for greens. Very extensively grown in the South. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

RUTABAGA SEED

Imp. American A hardy, productive variety with a small neck. The roots are large, oblong or globular, with very little tap root. Color bright yellow with a purple top. Very solid and heavy. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

If for any reason your seeds have not been satisfactory before, try the O. K. Seeds this year and you will have no cause for regret.

Herbs

Culinary, Medicinal and Aromatic. The varieties marked (*) are Perennials and when once started will continue for years with little care. No garden is complete without a corner devoted to herbs. Remember the charm of the old-time herb corners—how fascinating they were. And what magic there was in a bit of savory or pinch of sage, to "dress up" an ordinary dish and make it a delight. And it was almost a treat to be a sick-bed child, if grandmother brought her a cup of steaming catnip tea; or perhaps it was balm or horehound, or pennyroyal or thyme, according to the ailment. Every woman with a family knows what it means when the children are a bit feverish, or have "bad colds"—with no doctor just around the corner—to have an herb garden, or dried herbs in the attic to rely upon, in such a case. Determine now to have an Herb-garden.

ANISE—Used for cordials, garnishing and flavoring. Pkt., 10c; oz., 35c.

BASIL (Sweet)—Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 10c; oz., 40c.

***CATNIP**—Leaves and young shoots are used for seasoning. Cats delight to roll in it. Is a good bee pasture. Pkt., 10c; oz., 60c.

***CARAWAY**—Grown for the seeds, which are extensively used for the flavoring of bread, pastry, candy, etc. Pkt., 10c; oz., 25c.

DILL—Leaves used for pickling cucumbers. Pkt., 10c; oz., 35c.

LAVENDER—Valuable for its perfume. The flowers are used. Pkt., 10c; oz., 40c.

SAVORY (Summer)—The leaves and flowers are used for flavoring soups and dressings and string beans. Pkt., 10c; oz., 30c.

FENNEL (Sweet)—The leaves boiled are used in fish sauces. A wonderful garnish. Pkt., 10c; oz., 25c.

***HOREHOUND**—Used for seasoning, also in cough remedy. Horehound tea is a remedy for cold. Pkt., 10c; oz., 40c.

***MARJORAM** (Sweet) — Leaves and ends of shoots highly esteemed for seasoning. Dry for winter use. Pkt., 10c; oz., 40c.

***PENNYROYAL**—A tea made from it is valuable for colic. The fresh plant placed close to people chases mosquitoes. Pkt., 10c; oz., 50c.

SAGE—Extensively used for seasoning and dressing. Pkt., 10c; oz., 30c.

***THYME**—For seasoning; a tea from the leaves is a remedy for headache. Pkt., 10c; oz., 50c.

FLORAL DEPARTMENT

It Will Pay to Make The Home Beautiful

On the following pages will be found a very complete list of Flower Seeds, Flowering Plants for outdoor and indoor cultivation; Gladioli, Canna, Lily, Dahlia and other Spring Bulbs; Rose Bushes, Perennial Plants, Hardy Shrubs and Hardy Climbers.

It was not our aim to present a long list, in any class, but the BEST that our country and some foreign countries can produce, and such that the average cultivator can be successful with, omitting such as require the skill of an expert with special facilities.

5c Pkt. Please Note That Nearly All Flower Seeds, Liberal Pkts., Are **5c Pkt.**

Every person, everywhere, in country or city, can have flowers. The cost of seeds, plants or bulbs need be but a trifle while once the garden is begun the work will be interesting and a real pleasure. I believe the most interesting flower garden I ever saw was in our city and it was on a narrow strip of ground between the sidewalk and the roadway. This seems to suggest that there is hardly any person so situated that he cannot have the pleasant and profitable pastime of having a garden and what it produces.

In the following list "a" stands for annual, "b" for biennial and "p" for perennial; "c" with any of these means climber.

ANNUALS—These are plants that flower and mature the first year and then die.

BIENNIALS—These are plants that flower the second and sometimes the third year after the seed is sown and then perish.

PERENNIALS—These generally do not bloom until the second year from seed and then live outdoors and bloom yearly.

TAKE NOTICE—When the abbreviation "Pkt." appears in the following list seeds are offered. When the word "Plants" is used then plants of the variety are offered.

Achillea The Pearl. Small double white flowers, borne in greatest profusion. 2 ft. p. Pkt., 5c.

Acroclonium One of best everlasting. a. Pkt. Single Mixed 5c; Double Mixed 5c.

Ageratum Flowers all season. One of the best bedding plants. a. Tall Blue, pkt., 5c; Tall Mixed, 5c; Dwarf Mixed, 5c.

Allysum Little Gem or Carpet of Snow—Grows only a few inches high and covers ground like a carpet of snow. a. Pkt., 5c; ¼ oz., 25c; oz., 75c. Basket of Gold—Flowers Brilliant yellow. p. Pkt., 5c.

Amaranthus Beautiful foliage plant. a. Fine Mixed, many forms and colors, Pkt., 5c.

Anemone (Jap. Wind Flower) Much valued for garden display and bouquets. The plant grows 2 to 3 ft. tall and bears many large, saucer-shaped flowers. Our mixed seed will give many fine colors. Give sunny position in the garden. May be grown in house in winter also. p. Mixed, pkt., 5c.

Antirrhinum (Snap Dragon) Tall—This old favorite has been greatly improved in our giant flowered. b. Mixed, pkt., 5c. Dwarf—Same as above, except in height, these are semi-dwarf. Mixed, pkt., 5c.

Aquilegia (Columbine)—Very popular hardy perennials that bloom freely in spring and early summer. Sometimes known as bush Honey-suckle. Producing flowers of various colors. p. Double Large Flowering Mixed, pkt., 5c. Single Large Flowering Mixed, pkt., 5c.

Christmas Red Begonia

Beefsteak Begonia Its circular leaves of heavy texture, red beneath, above a glossy olive-green oil-like cast make it an outstanding variety. Spreading habit. Dainty flowers of coral-red. Magnificent. Plants, each 35c; 3 for \$1.00; 12 for \$3.36. Larger plants, 60c.

Christmas Begonia One of the most wonderful Begonias in the world. The foliage is a rich, glossy green, shaded deep bronze while the flowers are an exquisite bright cherry changing to coral-red. Plants, each 26c; 3 for 74c; 12 for \$2.50.

Beans Ornamental—A rapid grower that bears sprays of brilliant scarlet blossoms from July to September. Grows quickly to 10 ft. Dense foliage makes it splendid for porches or anywhere where quick shade is wanted. a. c. Pkt., 5c; oz., 15c.

Boston Ivy (Ampelopsis Veitchii) See department of hardy climbers for description and the price of Vines. Hardy climber. Seed, pkt., 10c; ¼ oz., 25c.

Balloon Vine Graceful annual climber, quickly growing 5 to 10 ft. Its feature is balloon-shaped seed pods. a. c. Pkt., 5c; oz., 15c.

Balsams (Lady Slipper)—An old favorite garden flower producing masses of brilliant blooms. a.

Double Camelia Flowered—The largest flowered of any and perfectly double from brightest scarlet to pure white, including spotted and striped flowers. Mixed, pkt., 10c; ¼ oz., 20c.

Dwarf, Double, contains many colors—spotted, blotched, striped, etc. Pkt., 5c.

Begonia Tuberous Rooted. Make gigantic blooms of most beautiful colors. Single Mixed, pkt., 25c. Double Mixed, pkt., 30c.

Beefsteak Begonia

ASTERS

The Asters of today, such as we offer, approach almost, the chrysanthemum in great size and gorgeous beauty. As the flower has been improved, its popularity has also increased, until today, it may be called the universal flower. The seed may be sown outdoors in beds, or for earlier plants in the house. They delight in plenty of sun. a.

CREGO'S GIANT—The immense, gracefully formed flowers of this new aster have made it a favorite everywhere. The petals are long, curled and twisted, having a feathery appearance. The flowers are very fluffy and many run five inches in diameter and are as beautiful as chrysanthemums. Fine for cutting; 20 to 24 inches high.

Mixed—All colors and shades, makes a wonderful bed. Pkt., 5c; ¼ oz., 30c.

PEONY—A compact dwarf form. Plants about 8 to 12 ins. tall and bear fine double peony-like flowers. Mixed, pkt., 5c; oz., 30c.

AMERICAN BEAUTY—One of the most beautiful Asters of recent introduction. Of very vigorous habit, producing large perfectly double flowers on long stems. Mixed, pkt., 10c; ¼ oz., 60c.

BEDDING ASTERS

With these strong, healthy pot plants you will have flowers several weeks earlier than from seed.

Plants—Each 22c; 3 for 63c; 12 for \$2.10

HEART OF FRANCE—Opens red as the ruby, deepens with age, and retains its remarkable beauty to the very end. Full flowers.

PACIFIC BEAUTY—Wide curled petals of a beautiful shade of rich lavender.

PEERLESS PINK—Flowers average four inches across by two and one half in depth. Almost globular. A choice pink.

Blue Lily of The Nile

A splendid ornamental plant of bright evergreen foliage, and surmounted with spikes of bright blue flowers which remain in bloom for a long time. Should be wintered in cellar or greenhouse. Each 28c; 3 for 80c; 12 for \$2.69. Large plants 42c. Larger plants 60c. Tub plants \$1.50.

Blue Lily-of-the-Nile

Campanula

(Canterbury Bells)

Largest and most beautiful family of border-plants. Very free flowering and easy growing. Two ft. high. Blooms in June. p. Colors, white, rose, blue, striped. Double Mixed, pkt., 5c; Single Mixed, 5c.

Candytuft A treasure for bouquets. They soon flower from seed and remain in bloom a long time. Prized for borders and edging. Greatly prized for cutting. a. Choice Mixed, pkt., 5c; ¼ oz., 20c; oz., 65c.

Christmas Cactus

Christmas Cactus

An early flowering crimson scarlet variety. Produces long drooping flowers in great profusion. Stems branching and hanging in bunches. Grows and blooms with greatest ease. Requires absolutely no care, living for months without water. Value increasing yearly. Plants, each 45c; 3 for \$1.28; 12 for \$4.32.

Little Gem Calla

California Poppy (Eschscholtzia)

With silvery foliage studded with scores of gorgeous cups of cream and gold, crimson and scarlet, the California poppy in its most modern dress is one of the most reliable and gorgeous of the easily grown annuals for striking beds in a hot, sunny portion of garden. It blooms steadily from the first of July until killing frosts from seed sown in the open ground when warm. It likes a rather dry situation. Fine Mixture, Single 5c; ¼ oz., 20c. Fine Mixture, double 5c; ¼ oz., 20c.

Little Gem Calla It grows very freely and produces pure white blossoms during the winter and spring; the resting period during June and July can be given by turning the pots on their sides, without watering, in a shady place. Plants, each 28c; 3 for 80c; 12 for \$2.69.

Brazilian Plume Plant

Calliopsis For a mass of brilliant colors through the whole summer, this is hardly equaled. Desirable for borders and groups. a.

Golden Wave — Flowers yellow with a circle of crimson brown. Pkt., 5c; ¼ oz., 20c.

Brazilian Plume Plant

Easy culture and does equally well in all kinds of soil. A strong rapid grower throwing out long shoots each of which is tipped with beautiful pink, plume-like flowers. Plants, 30c; 3 for 85c; 12 for \$2.88.

Calendula (Pot Marigold) — About one foot high, produces flowers, white to orange in great profusion until late fall. Border and beds. a. Double Mixed, 5c; ¼ oz., 15c.

California Poppy

Crimson King Carnation

Carnations Popular favorites. Colors extremely rich and beautiful. Exquisitely fragrant. Hardy with protection in winter. p.

Marguerite—Large, double flowers which sometime measure three inches across. Flowers very early—about 12 weeks after sowing seed. Choice Mixed, many colors, pkt., 5c.

Chabaud Everblooming—A remarkable new carnation. Blooms in 5 months after sowing seed and continues in great profusion until killed. Will bloom in house. Start seed in house. Mixed colors, pkt. 10c.

Everitt's Peerless Mixture—Several of the best varieties and a wide range of colors. Pkt., 5c.

Carnation Crimson King

Everybody desires a Carnation that will live out in the garden during the winter. We have pleasure in offering this new plant, as it will fill the bill. Blooms all summer. The color is a rich crimson and it is deliciously fragrant. Plants, each 40c; 3 for \$1.14; 12 for \$3.84.

Cape Jasmine (Fragrant Gardenia)

A decorative plant equally favored by north and south. The rose shaped flowers are pure white, of waxy texture in appearance and tuberoscented. (Cannot be shipped to California.) Plants 40c; 3 for \$1.14; 12 for \$3.84. Larger plants 70c each.

Fragrant Cape Jasmine (Gardenia)

Canary Bird Vine

One of the most beautiful dainty climbers with delicate foliage and flowers, does well in shade. a. c. Pkt., 5c.

Cannas Few people know that Cannas can be grown from seed and bloom the first season. Sow early and plant out when ground is warm. Preserve the roots in the cellar for next year. a.

Green Leaved Varieties. Mixed, pkt., 5c; 1/4 oz., 20c.

Crozy Varieties. Mixed, pkt., 5c; 1/4 oz., 20c.

Choice Mixture of all types. Pkt., 5c; 1/4 oz., 15c.

Castor Beans (Ricinus)

Some attain gigantic proportions as much as 15 ft. Very decorative. Gives a tropical appearance. A wonderful round bed can be made by planting the tallest in centre, medium size next and the dwarf as the outer ring. a.

Zanzibarensis—The largest variety, 10 to 15 ft. Pkt., 5c; oz., 30c.

Cambodgensis—The medium size one, 6 to 8 ft. Pkt., 5c; oz., 30c.

Sanguineus—A dwarf kind. Red leaves. 4 to 5 ft. Pkt., 5c; oz., 15c.

Several Varieties Mixed—Pkt., 5c; oz., 25c.

Celosia (Cockscomb)—Very popular annuals of easy culture. Produce large ornamental heads of many interesting and novel shapes. Can be raised outdoors or in pots.

Plumosa—This stately type forms pyramidal bushes with numerous massive plumes, resembling Ostrich feathers. Pkt., 10c.

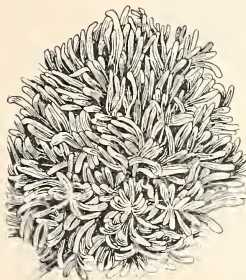

Empress-Cristate or Crested Type—Forms large blood-red combs. Has brown foliage. Pkt., 10c.

Childesia (Woolflower) Pkt., 10c.

Centaurea Cyanus (Cornflower) Mixed, pkt., 10c.

Celosia Plumosa

Childesia Woolflower

Castor Bean, Ricinus

Cobea Scandens. a. c. One of the best annual climbers. Flowers bell-shaped. Mixed Colors, pkt., 5c.

Cosmos, Giant Flowered This is a vigorous, tall growing annual and our Giant Flowered is one of the great, recent improvements in the flower kingdom. Single and double flowers, frilled and crested, in pink, crimson and white colors are borne in great profusion all summer. They are also earlier than the old, small kinds. They will bloom better if the seed pods are kept removed before they ripen.

Mixed, Giant Flowered, pkt., 5c; 1/4 oz. 15c.

Coreopsis p. Golden yellow blooms. (For plants see perennials). Pkt., 10c.

Crown of Thorns A curious plant with thick twining stems which are covered with sharp stout spines nearly an inch long. The foliage is bright green and the bloom a beautiful coral-pink. Plants, each 38c; 3 for \$1.08; 12 for \$3.65.

Cypress Vine Beautiful annual climber. Blooms scarlet and white. Mixed, pkt., 5c; 1/4 oz., 25c.

Giant Flowering Cosmos

Chrysanthemums Produce flowers of many bright colors. Splendid for cut-flowers. Everitt's Choice Mixed, Single. p. Pkt., 5c. Mixed Double, pkt., 10c.

Cut-Flower Chrysanthemums

BLACK HAWK—Dark velvety crimson flowers. Blooms of immense size. Late flowering. Plants, each 30c; 3 for 85c; 12 for \$2.88.

CHRISTMAS CHEER—A fine late pink. Usually produces flowers during the holiday season. Plants, each 34c; 3 for 97c; 12 for \$3.26.

CHRYSOLOREA—A new yellow variety. Large, beautiful blooms. Excellent. Plants, each, 34c; 3 for 97c; 12 for \$3.26.

Coleus a. Handsome foliage plant. Much used as a border. Sow seed and transplant. Fine mixed. Pkt., 10c.

Coleus Trailing Queen

Coleus Trailing Queen

Excellent variety for hanging baskets, vases and plant boxes, on account of its trailing habit. Center of leaves fiery crimson surrounded with deep maroon. Plants, each 18c; 3 for 52c; 12 for \$1.73.

Bedding Coleus

Plants are broad-leaved, with bushy foliage which is unequalled by any other plant for brilliancy of color. One of the finest bedding and border plants grown. Grows almost anywhere.

ELDORADO—Luxuriant, velvety foliage; old gold handsomely ribbed and blotched very dark garnet. Plants, each 16c; 3 for 46c; 12 for \$1.54.

GOLDEN BEDDER—Lovely golden yellow, a beauty. Plants, each 16c; 3 for 46c; 12 for \$1.54.

CHRISTMAS GEM—Leaves are of bright carmine shading off to a deep maroon, the margin being yellow and green, and the whole leaf having a rich velvety luster. A striking pot plant. Nothing more showy in foliage or color. As a bedding plant it is unexcelled. Plants, each 30c; 3 for 85c; 12 for \$2.88.

Coleus Christmas Gem

Wild Cucumber Vine at Home on a Wire Fence

Blue Butterfly

(Delphinium Chinese) This is a perennial that is one of the most satisfactory and beautiful flowers. Seed sown outdoors in the spring will make a bushy plant 2 feet high covered with graceful sprays of blue, butterfly-like flowers from bottom to top the same summer. The plant is perfectly hardy and will come up year after year larger than before. Blooms can be had earlier by starting in the house. Pkt., 5c.

Blue Butterfly

Delphinium

(Larkspur) (For plants see department of hardy Perennials.) These handsome flowers are very effective in borders and planted among shrubs. The graceful spikes of bloom are very appropriate for vases. Continue in bloom long. p. Belladonna—Light blue, 4 to 5 ft. Pkt., 5c; 1/4 oz., 20c.

Delphinium

(Wrexham Strain) It may truly be said, no Perennial garden is complete without the hardy Larkspurs. If you do not have them then the part of wisdom will be to not think of any but this new Wrexham strain and if you are growing the old kind, change them for the new and and prepare for joy. This strain records the greatest advance in Delphiniums. The graceful spire-shaped spikes are of enormous size and of exquisite beauty of form. Our mixed seed will give you all the colors in Delphiniums and will include both single and double. Pkt., 10c; 3 for 25c; 1/4 oz., 35c.

Dahlia

Raising dahlias from seed is a fascinating occupation. The plants start promptly and soon grow strong and sturdy and bear their novel flowers the first year. By sowing seed new varieties are produced. Cactus Hybrids—Mixed, pkt., 10c.

Double Show Flowered—Mixed, pkt., 10c.

Daisy

These flowers appeal to all. Excellent for cutting. p.

Giant Mixed—Pkt., 5c; 1/4 oz., 25c.

The Shasta Daisy—Large pure white flowers. p. Pkt., 5c.

Dianthus

A popular annual and perennial class known to nearly everyone. Flowers are beautiful, brilliant, contrasting color appearing in each. Chinese Extra Double Flowered. a. Mixed, pkt., 5c; 1/4 oz., 25c.

Fireball—Double, scarlet. a. Pkt., 10c.

The Bride—Single, white with purple. a. Pkt., 5c.

Hardy Plumarius—(Clove Pink) Single, an exquisite mixture of colors, easily grown. p. Pkt., 10c.

Mixed Hardy—p. Pkt., 5c.

Mixed Annuals—Pkt., 5c.

Digitalis

(Fox Glove)—Beautiful tall spikes of white, pink, rose and mottled flowers. Grows 4 feet high. Fine for cutting. p.

Gloxiniiflora—Mixed, shaped and spotted like Gloxiana. Pkt., 5c; 1/4 oz., 20c.

Purpurea—Giant Mixed many colors. Pkt., 5c; 1/4 oz., 20c.

Dianthus

Asparagus Sprengerii

Asparagus Plumosus

Free Blooming Fuchsias

large patches which can be transformed into a sea of blue. Pkt., 5c. Mixed—Pkt., 5c; $\frac{1}{4}$ oz., 30c.

Fountain Plant *Amaranthus Salicifolius*—A graceful plant growing 3 feet high with leaves 5 to 8 inches long, $\frac{1}{4}$ inch wide and droop like shown in illustration. Color, bronze-green changing to orange-red, with shading of gold. The plant resembles a miniature fountain. Pkt., 10c; 3 for 25c.

Four-o'clock (Marvel of Peru)—A good old-fashioned flower, bearing hundreds of white, yellow, crimson, violet and spotted or striped flowers. a.

Mixed—All kinds and colors. Pkt., 5c; $\frac{1}{2}$ oz., 20c.

Gaillardia

Dolichos (Hyacinth Bean)—A rapid growing annual climber. Flowers followed freely by ornamental seed pods. Sweet scented. a. c. Mixed—All varieties and colors. Pkt., 5c; $\frac{1}{4}$ oz., 10c.

Euphorbia (Snow in the Mountain)—Valuable as a foliage plant. The large dark green leaves are bordered with a broad band of snow white, 2 to 3 ft. a. Pkt., 5c.

Decorative Ferns

BOSTON FERN—The most popular house plant grown. It is of easy culture and a very rapid grower, producing fronds of unusual length. Its unusual freedom of growth without special care has made it popular. Considered most valuable house plant to be had. Plants, each 22c.

ASPARAGUS SPRENGERII—A valuable house plant being one of easy culture, the sprays growing four to five feet long and when the foliage is used for cut-flowers it retains its freshness for an unusual length of time. Plants, each 24c; 3 for 68c; 12 for \$2.30. Larger size 45c; extra large 68c.

ASPARAGUS PLUMOSUS—A tall, climbing, decorative plant of rare and delicate beauty. Fronds grow from six to eight inches in width and retain their color and shape for weeks when cut. Plants, each 24c; 3 for 68c; 12 for \$2.30. Larger size 45c. Extra large 68c.

OSTRICH PLUME FERN—One of the few feathery foliage ferns which everyone can successfully grow. Each 38c; 3 for \$1.08. Larger sizes 75c and \$1.00.

Feverfew Double white, grows 1 $\frac{1}{2}$ ft. tall and bears profusion of pure white, very double flowers. a. Pkt., 5c; $\frac{1}{4}$ oz., 20c.

Climbing Firecracker Plant

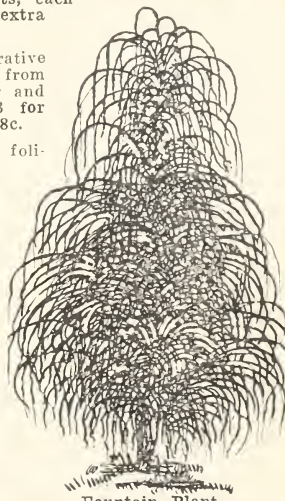

Can be grown in house or garden equally well. In the house it can be trained about a window forming a wreath of bloom summer and winter. Flowers are intense scarlet, shading into flame, tipped with bright golden-yellow, and are covered with a thick scarlet moss. Excellent for hanging baskets, suspended pots and boxes, etc. Plants, each 28c; 3 for 80c; 12 for \$2.69.

For-get-me-not (*Myosotis*)—Among the best spring flowers. They flourish in shady or moist situations a.

Alpestris Blue — Trailing habit, adapted to covering

Climbing Firecracker Plant

Fountain Plant

Double Flowering Geranium

Free Blooming Fuchsias

PHENOMENAL—An immense ornamental variety with very double deep, violet purple flowers. Plants, each 27c; 3 for 77c.

STORM CLOUD—Very double, pure white flowers of large size. Reflexed petals, bright crimson. Plants, each 24c; 3 for 68c.

LITTLE BEAUTY—Dwarf growing. Free blooming, seldom without flowers. Sepals carmine, corolla deep lilac. Plants, each 30c; 3 for 85c.

Gaillardia (Blanket Flower)—They will produce from early spring to late fall a continuous profusion of brilliant flowers, red and yellow chiefly. Will not bear transplanting. p.

Annual Varieties—Mixed, pkt., 5c; $\frac{1}{4}$ oz., 20c.

Perennial Varieties—Mixed, pkt., 5c; $\frac{1}{4}$ oz., 25c.

Geraniums

They will bloom from seeds in four to five months. a. Perennial if moved to cellar in winter and planted out in spring.

Lady Washington—Large flowering. Pkt., 15c.

Large Flowering—Single mixed. Pkt., 15c.

Strawberry Geranium

Strawberry Geranium Exceedingly rare and beautiful. Leaves striped freely with silver bands; blooms white and of great beauty. Adapted for hanging baskets, vases, etc. Plants, each 26c; 3 for 74c; 12 for \$2.50.

Double Flowering Geranium

ALPHONSE RICCARD—Bright vermilion scarlet, giant florets and trusses, semi-double. Plants, each 23c; 3 for 65c; 12 for \$2.20.

AMERICAN BEAUTY—Compact, medium tall, lustrous green in foliage. American Beauty in color. Each 25c; 3 for 72c; 12 for \$2.40.

BEAUTY OF POITEVINE—Double flowers salmon-pink. Each 24c; 3 for 68c; 12 for \$2.30.

S. A. NUTT—The best of the double varieties. Dark crimson scarlet bedder. Each 22c; 3 for 63c; 12 for \$2.10.

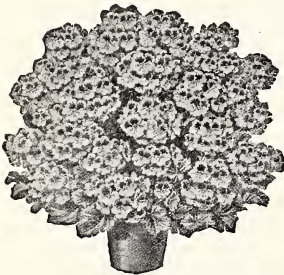

Pelargonium Easter Greeting

Gorgeous in coloring. Plants in five-inch pots have produced over a hundred trusses of blooms. Color fiery amaranth red, some describe it as a brilliant rose. Plants 45c each; 3 for \$1.28; 12 for \$4.32.

Richly Colored Gloxinias Richly colored flowers, handsome foliage, easily grown. Will bloom in six or eight weeks from time bulbs are planted. Plants, each 50c; 3 for \$1.42; 12 for \$4.80.

Godetia An attractive annual that deserves extensive cultivation. Plants bear showy colored flowers in profusion of satiny texture. Colors rich and varied. a. Everitt's Fine Mixed, pkt., 5c.

Gourds (Ornamental)—There are about 16 varieties of these curious and some useful fruits. Most of them are strong growers. From 20 to 30 ft. The small, fancy ones are nice playthings for children. See also department of vegetable seeds. a. c. Fine Mixture, pkt., 5c; oz., 20c.

Pelargonium Easter Greeting

Grevillea (Silk Oak Tree)

Grevillea (Silk Oak Tree) A magnificent plant for decorative purposes. Of rapid easy growth; its fully cut foliage rivaling a rare fern. An attractive decorative plant for pot or tub growing. Each 26c.

Helianthus (Sunflower)—Few people understand the great variations and beauties of the ornamental Sunflowers, their observations having been limited to the large mammoth Russian, raised for chicken feed. The tall ones, and there are many varieties, are suitable for backgrounds. The dwarf kinds are charming when grown in beds or in mixed flower borders. If you have not grown them, plant this spring and prepare for a fine surprise. a.

Double Varieties—Mixed, pkt., 5c; oz., 25c.

Single Varieties—Mixed, pkt., 5c; oz., 35c.

Miniature Varieties—These bear beautiful small blooms fine for cut flowers. Mixed, pkt., 5c; oz., 40c.

Heliotrope Its exquisite fragrance attracts all and its freedom to bloom places it foremost with our choicest flowers. Easily grown. Start seed inside and transplant. a. Fine Mixed, pkt., 5c.

MIDNIGHT—A new and wonderfully fragrant Giant Flowered Heliotrope. The color is of darkest lavender. Strong and vigorous grower and a fine house plant. Plants, each 28c; 3 for 80c; 12 for \$2.69.

HIBISCUS PEACHBLOW

One of the finest plant novelties. The flowers of which are double, of a charming peach, clear pink color with a small, deep crimson center. It is entirely new and most beautiful shade. An exceptionally fine house plant. Plants, each 30c; 3 for 85c; 12 for \$2.88; larger size 60c each.

Peachblow Hibiscus

Richly Colored Gloxinia

Heliotrope Midnight

EVERLASTING FLOWERS

The Everlasting or "Straw Flowers", with their rich and bright colorings, are most valuable for winter decorations. Plants grow readily from seed sown in the open ground when the trees are starting out in leaf. The blooms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. Everyone should grow some for winter bouquets, table centers, etc. Also they can be sold at profitable prices, summer and winter.

Globe Amaranth (Batchelor Button) A showy Everlasting that has blooms like clover heads. It grows 2 feet high and blooms profusely. Colors, white, pink, red, salmon and rose. Mixed. All colors. Pkt., 6c; 1/4 oz., 25c.

Helichrysum Of all Everlastings, this is the best known. The plants grow 2 to 3 feet high and are covered with fine large double flowers. White, pink, yellow and scarlet. Mixed. Pkt., 8c; 1/4 oz., 30c.

Weeping Lantana

Lantana This is a shrubby plant with Verbena like flowers that make a fine display in garden or porch boxes the first season from seed. They flower freely the entire summer and then may be potted for winter blooming. Height 18 inches. Seeds are slow to sprout; soaking in warm water for 48 hours will hasten them. Hybrid Mixed, pkt., 5c; ¼ oz. 20c.

Weeping Lantana A very striking plant of trailing habit. Grows very rapidly and blooms continuously, producing clusters of rosy-pink flowers. Foliage a beautiful dark green. Plants, each 26c; 3 for 74c; 12 for \$2.50.

Lathyrus (Hardy Sweet Pea)—A very decorative climbing vine. Suitable to grow on fences or trellises as floral screens. Blooms all summer. Good for cutting. p. c. Pink—Pkt., 5c; ¼ oz., 25c. Bright Crimson—Pkt., 5c; ¼ oz., 25c. Mixed—All colors, pkt., 5c; ¼ oz., 20c.

Linum (Crimson Flax)—The rich crimson flowers last only a day but they come continually until frost. Makes a splendid show in bed or border. Rosy Red, pkt., 5c; ¼ oz., 20c.

Lobelia (Cardinal Flower)—Bears brilliant, fiery scarlet flowers. Plant in moist place. a. Tall Varieties, mixed, pkt., 5c; ¼ oz., 25c. Dwarf Varieties, mixed, pkt., 5c; ¼ oz., 30c.

Morning Glories

MORNING GLORIES AND MOONFLOWERS

There are tens of thousands of places where rapid climbers are wanted to cover unsightly places or furnish cool shade. For such purposes few climbers are better than these. They all grow very rapidly and to a length of 15 to 25 feet, bearing thousands of flowers. Do not sow seed in open until trees start their leaves. May be started in pots in the house and set out.

Japanese Giant Morning Glory—Bears very large fringed flowers in many soft and delicate colors and shades. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Brazilian Morning Glory—This variety quickly makes a thick foliage of great lobed leaves and is brilliant with a great profusion of rose-colored flowers, with a satiny five-pointed star center. Pkt., 5c; oz., 25c.

Moonflower—This may be started in the house and transplanted when weather becomes warm and settled or sown in open ground. The flowers open at sundown and some have a delightful fragrance. Pkt., 5c; oz., 30c.

See Sataka's Mammoth Flowering Morning Glories on next page.

Hollyhocks The hollyhock in its perfection is very unlike its parent of olden times. It now ranks with the Aster, Dahlia, etc. The flowers many are as double as the rose and of many shades and colors. (Also see Hardy Perennial for Hollyhock plants.)

Allegheny—Flowers seldom less than 5 inches across and all beautifully colored and fringed. Blooms continuously. p. Mixed 5c.

Everitt's Finest Double—Finest Mixed. a. Pkt., 5c.

Single Finest Mixed—a. Pkt., 5c.

Chater's New Double Hollyhocks—This stately hollyhock plant is everywhere admired. No other plant can inject so much of vivid color and beauty as this new, double hollyhock. Planted as a background their tall pillars will set that portion of the garden ablaze throughout much of the summer. These new double flowers resemble large tissue paper rosettes of colors that only nature can produce, and no flower collection should be without them. We will be looking for your order. All colors mixed, pkt., 10c; 3 pkts., 25c.

Kochia (Burning Bush or Summer Cypress)—Early in the Fall this popular ornamental shrub turns to a bright scarlet. Quick growing. Let plants have three feet of space. a. Pkt., 5c; ¼ oz., 20c.

St. Bernard's Lily

Lupinus Lupines are of easy cultivation and in addition to their value as border plants, are admirably adapted for cutting; attain a height of 15 ins., producing long flower-spikes which keep a long time in water. a. and p. Annual Kinds, mixed, pkt., 5c; ¼ oz., 20c.

St. Bernards Lily

Recurved, gracefully foliaged. A handsome pot plant also useful for vases. Leaves are dark green, beautifully marked with broad stripes and bands of creamy-white. Bears large spikes of white flowers. Plants each 30c.

Marigold Blooms in late summer when many other plants are past their best and then affords a wealth of color. In rich reds, browns, mahoganies, oranges and yellows. a.

Double African—Tall Mixed, pkt., 5c; ¼ oz., 20c.

Double African—Dwarf Mixed, pkt., 5c; ¼ oz., 20c.

Double French—Tall Mixed, pkt., 5c; ¼ oz., 20c.

Double French—Dwarf Mixed, pkt., 5c; ¼ oz., 30c.

Mignonette One of the principal uses of this fragrant flower is for cutting and combining in bouquets with other flowers. a.

Giant Red Sort—Pkt., 5c; ¼ oz., 25c.

White Pearl—Sweet scented. Pkt., 5c; ¼ oz., 20c.

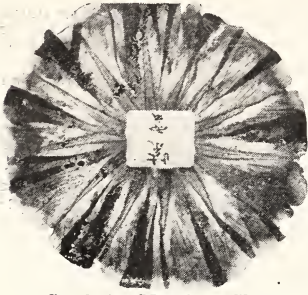

Momordica (Balsam Apple) A beautiful vine. Grows about ten feet and bears large creamy white, dotted with black, flowers, or pure white with red pistil. The flowers are succeeded by sulphur-yellow fruits which burst when ripe and show the large blood-red seeds. As the flowers and fruit

are borne at the same time the effect is striking. The fruit has medicinal properties, as a healing liniment or salve. Pkt., 5c; ¼ oz., 20c.

Mimosa (Sensitive Plant)—This plant is most interesting from its nature to fold up and droop when touched, then after a short period it assumes its natural position again. Small flowers. a. Pkt., 5c.

Momordica

Sataka's Morning Glory

Plant Nasturtiums

They will give you an abundance of flowers with hardly any trouble. Plant them for yourself and neighbors to gather. Everybody knows these lovely and universally popular flowers. They are probably more universally planted than any other kind. If you have not had liberal beds of them heretofore start this season and there will be many pleasant times coming to you and your friends. Succeed everywhere, even on poor soil. a.

EVERITT'S CHOICE MIXED — Tall.
Pkt., 5c; oz., 10c; ¼ lb., 30c.

EVERITT'S CHOICE MIXTURE—Dwarf.
Pkt., 5c; oz., 10c; ¼ lb., 30c.

Nasturtiums

SATAKA'S MAMMOTH FLOWERING MORNING GLORIES

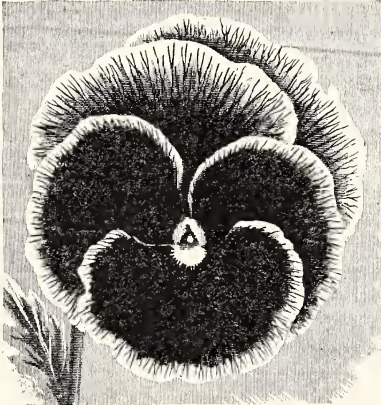

We just believe that every person who receives this catalogue ought to order some of this new type of Morning Glories from Japan. We consider it one of the very best SPECIALS that we list. When we tell you that individual flowers, when full grown, measure 6 inches across, you will probably doubt it, as we did. But the grower of our seed sent us a dry and pressed flower and sure enough it measured 6 ins. in diameter. As to the color, there is no use to try to tell you except they cover all colors, shades and tints and stripes, besides some are fringed, crumpled and crimped. Price, pkt., 10c; 3 for 25c; ½ oz., 30c.

Nigella (Love-in-a-Mist)—Very odd flower but one of the prettiest and adds charm to any garden. Always does well. Flowers blue and white. Plant in beds or border. Fine cut flower. 12 to 15 inches. Blooms 8 to 10 weeks after sowing. a. Pkt., 5c.

Phlox Drummondii Comes into flower in early summer and is not excelled for brilliancy and continuity of blooms. They make beautiful borders. When sown in beds colors are beyond description.

Annual Kinds, Mixed—Pkt., 5c; ¼ oz., 50c.

Perennial Kinds, Mixed—Pkt., 5c; ¼ oz., 50c.

Everitt's Mammoth Flowered Pansy

Portulaca (Moss Rose) Will grow and bloom profusely in dry hot situations where almost any other plant would perish. Brilliant in colors. Large flowering. a.
Single Mixed, pkt., 10c; ¼ oz., 40c.
Double Mixed, pkt., 10c; ¼ oz., 40c.

Pansies There is no flower more admired than the Pansy. It is everybody's favorite. The combination of colors embraces striped, spotted, bordered and fringed in rainbow colors, with rich, velvety textures. Pansy Seed, Everitt's Mammoth Flowered Choice Mixed—Pkt., 5c; ¼ oz., 50c.

Pansy Plants—Per doz., 70c; 6 for 35c; 3 for 20c.

The Evening Primrose (Oenothera)

Who has not watched with awe the moving pictures of opening flowers and appreciated that what required weeks to obtain, nature's action was accelerated for your pleasure. Yet you can enjoy such a thrill in your garden if you will sit for 15 minutes at twilight and watch the Evening Primrose drop its calyx and unfold its petals.

The Evening Primrose is a beautiful plant for beds, mixed gardens and borders. It is of easy culture, but prefers a dry soil and sunny position. Produces freely and continuously. June to September, large, single, Poppy-like flowers of white, yellow, rose color, etc. Plants should stand 12 inches apart. Mixed colors, pkt., 10c; 3 for 25c.

Oleanders Foliage dark green, somewhat willow-like grows easily but should be rested in winter. Plants, Red, Pink or White flowers. Red each 34c; 3 for 96c. Pink, each 32c; 3 for 89c. White each, 30c, 3 for 82c.

Large Flowering Pansies

Pink Flowering Oleander

Evening Primrose

Petunias

Petunias This is one of the most popular annuals, because they succeed everywhere and bloom constantly and profusely from June to frost. They will also flower freely in sunny windows in the house and are the preferred flower for window and porch boxes. We sell only the large flowering kinds.

Rosy Morn—Deep rose pink. A very splendid sort. Bears profusely. Pkt., 10c.

Large Flowering—Single Mixed. Pkt., 15c.

Large Flowering—Double Mixed. Pkt., 15c.

Giant Fringed and Ruffled—A strain of unexcelled beauty and unequalled in size. They comprise almost every color and shade of color and are fascinatingly beautiful in shape. Pkt., 20c.

Petunia Plants Unsurpassed for massing in beds and border plantings. Also fine for basket, vase and window boxes. Blooms early and continues until frost. Very popular on account of their richness of color, duration of blooms and ease of culture.

Single, each 20c; 3 for 57c; 12 for \$1.92.

Double, each 26c; 3 for 74c; 12 for \$2.50.

Permanent Ornamental Grass Bed

The Grandest Ornament That Can Be On Any Sizable Lawn

AN UNUSUAL LAWN DECORATION
Made up of these hardy, Permanent Grasses

Erianthus Ravena (Plum Grass or Hardy Pampas) Frequently throws up 30 to 40 plume stems. Grows 10 to 12 feet high. One clump, 60c; 3 or more at 50c each, delivered.

Eulalia Japonica Variegata—Long narrow leaves striped green, white and sometimes pink or yellow. Very ornamental. 5 to 6 feet. One clump, 50c; 3 or more at 40c each, delivered.

Eulalia Japonica Zebrina—The long leaves of this variety are marked with broad yellow bands across the leaf. A very attractive specimen. 5 to 6 feet. One clump, 50c; 3 or more at 40c each, delivered.

To Make The Bed Lay off a circle 6 to 8 ft. in diameter. Grade it so the center will be about 6 inches higher than the circumference. Have ground rich with good fertilizer. Bone meal will be lasting. Put the clumps of **Erianthus** in center. Then plant the other two varieties alternating near the circumference. Treat as any other hardy perennials. The plants will increase in size until all the space will be occupied and the bed will be an outstanding feature on any lawn. The bed may be made larger by using more plants. All these varieties produce plumes in the Fall which make attractive everlasting bouquets.

Special Offer To plant a bed, we will send 2 **Erianthus**, 3 **Eulalia Variegata** and 3 **Eulalia Zebrina**, all for \$3.10 delivered.

One of the most admired of our annual flowers. They are easily grown and display themselves in almost numberless shades. The plants. Bear all summer. height 15 ins. p. Single Mixed, 5c; Double Mixed, 5c.

Oriental Poppies Produce the most gorgeously colored flowers. Hardy. Everitt's Choice Mixture—Pkt., 5c; ¼ oz., 40c.

Poppies

Shirley Poppies

Broadcasting seed of Shirley Poppies over the bulb beds in early April will start a crop of brilliant bloom to come into color shortly after the bulbs have quit blooming. It will be necessary only to thin the Poppies to a foot apart to have a brilliant bed for an all-summer display.

Poppies Glowing Beauties

seed should be sown thinly where they are to bloom, and sown at intervals for a season's succession. a. and p. For plants see Perennials.

Shirley Poppies a. An extra fine strain, single and double flowers, in colors from white to deepest crimson, and some striped. Mixed, pkt., 5c; ¼ oz., 35c; oz., \$1.25.

Iceland Poppies Elegant free-flowering hardy

Bedding Petunias

American Wonder Lemon

A true everbearing Lemon. Excels ordinary Lemons for making pies, fruit sometimes weighing over four pounds. Of easy culture, flowering and fruiting in ordinary soil. Flowers are fragrant as orange blossoms. Plants, each 32c; 3 for 90c; 12 for \$3.07. Larger plants, 75c; 2 yr plants \$1.50.

Dwarf Fruiting Lemon

Dwarf free flowering variety, suitable for pot culture. Fruits freely, easy to grow, beautiful blossom, delightfully fragrant of a waxy white. Plants, each 30c; 3 for 85c; 12 for \$2.88. Large plants 50c; 3 for \$1.42. Larger plants 75c; selected plants, \$1.00.

Brilliant Red Salvias

Salvias (Scarlet Sage) —This is a universally grown bedding plant that keeps the garden bright with color until late in autumn.
Bonfire—Fiery Scarlet. Pkt., 10c; ¼ oz., \$1.00.
Mixed—Pkt., 10c; ¼ oz., 75c.

Bedding Salvias

Red-flowering bedding plant; most brilliant crimson and showy; a mass of this popular annual when in full bloom is hard to describe. Grows in bush form, 2 to 2½ ft. high; the foliage is dense, forming a mound of vivid green. Plants 20c each; 3 for 57c; \$1.92 per doz.

Sweet Peas

Fan Leaf Palm The Fan Palm is a general favorite. Large fan-shaped leaves make it a wonderful plant for home decoration. Easily grown and beautiful in all stages of its growth. Plants, each 50c; 3 for \$1.43; 12 for \$4.80.

Pyrethrum A large plant with daisy-like flowers in white, pink and rose. Excellent for cutting. Blooms May and June. The dried and powdered flowers kill insects when they breathe the dust. p.
Single Mixed—Pkt., 10c; Double Mixed, 10c.

Royal Purple Plant Of brilliant coloring. An attractive pot plant grown for its beautiful, glistening, reddish purple iridescent leaves. Plants, each 28c; 3 for 80c; 12 for \$2.69.

Scabiosa (Mourning Bride) Hardy with protection. Also known as the Pin Cushion plant. When the seed pods are kept picked off it will bloom through the whole summer. Great bee pasture.
Annual, Large Flowering. Pkt., 5c; ¼ oz., 25c.
Perennial, Large Flowering. Pkt., 5c; ¼ oz., 25c.

Snake Plant (Sansevieria)

Snake Plant (Sansevieria) The ideal house plant, its thick, leathery, sword-like leaves standing the heat, dust and gas with impunity. Leaves are dark green in color, striped with white. Plants each 36c and 75c.

Statice Bears masses of clear mauve flowers, easily dried; prized for winter decorations. Mixed, pkt., 5c; ¼ oz., 20c.

Stocks (Ten Weeks) Adapted for massing, bedding, borders and of special value for pot culture. Profusion of bloom, brilliant and varied colors. Giant perfection strain. a.
Everitt's Superior Mixture—All colors, 10c; ¼ oz., \$1.00.

Sweet William (Dianthus Barbatus) p.—A beautiful class of easily grown and beautiful plants with flowers of rich colors. Hardy. (See also Perennial Plants.)
Everitt's Double Mixed Annuals—Extra fine. Pkt., 5c; ¼ oz., 75c.
Everitt's Double Mixed Perennials—Pkt., 5c; ¼ oz., 60c.

Fan Leaf Palm, Latania Borbonica

Royal Purple Plant

—SWEET PEAS— for the Millions

**OH
WHAT
A
HARVEST
OF
BLOOMS**

We have thousands of pounds of Spencer Superior Mixed Sweet Pea Seed in the greatest variety of colors. They will give such great satisfaction that we want every person who gets this catalogue to have some of them. We know this will boost our business in every such neighborhood, as others will want our seeds next year too. So we offer them at

LESS THAN WHOLESALE

Everybody can afford to plant them lavishly and revel in their beautiful blossoms all summer. Don't stop with a packet, but let us suggest ¼ pound. Price, ¼ lb., 25c; lb., 85c.

Sweet Peas Universally admired and desired. Everybody wants Sweet Peas. Therefore everybody who has a little space should plant a row and share with neighbors who are less fortunate. Plant liberally. The two leading classes are the Spencers early and late, and Eckfords Grandiflora. There is always a space in the garden or back yard for a row of Sweet Peas.

Giant Spencers The Giant Spencers are recommended for spring and summer blooming and will thrive in any climate where any sweet peas will grow. This strain of Sweet Peas bears three and four very large flowers on long stiff stems.

Everitt's Superior Mixture of Spencers

comprises all colors and forms. Nowhere can greater value be gotten for the price. Pkt., 5c; oz., 20c; ¼ lb., 60c.

Eckford's Grandiflora A very fine class. Many of the flowers are as large as Spencers but they are not so much crimped like the former. Mixed, pkt., 5c; oz., 15c; ¼ lb., 50c.

Ten-Weeks
Stocks

7 OF THE BEST FLOWERS FOR BOUQUETS FREE

FREE

Cut Flowers Garden Mixture

All are described in our flower seed list. Each variety is a gem for cut flowers and bouquets that will last quite a while. The mixture is so prepared that a continuous array of blooms will appear throughout the summer. This mixture can be used in several different ways: Between rows of vegetables, in odd corners and in any vacant place. A vacant lot, usually grown up with weeds, can be made a community beauty spot by planting this seed.

Our Offer We will give one large packet **FREE** on each order for \$1.00 or more sent from this catalogue, if you ask for it with your order. If you want more than the one free packet, the price will be: Pkt., 10c; oz., 25c; 1/4 lb., 85c; per lb., \$3.00. One pound or less will plant or sow an ordinary lot.

ZINNIAS

See Giant Dahlia Flowered ZINNIAS on page 63.

See New Bedding Cut and Come ZINNIAS on Page 63.

Wandering Jew

Umbrella Plant

A large specimen is as handsome as a Palm. Throws up stems about two feet high, surmounted with a whorl of leaves, diverging horizontally. Indispensable for aquariums, fountains, etc. Plants, each 22c; 3 for 63c; 12 for \$2.10.

Tritoma (Red Hot Poker)—A beautiful late-flowering plant, having handsome reed-like foliage. Flowers are of a rich orange-scarlet color, three feet high. Blooms September-November. p. Pkt., 5c.

Attractive Water Hyacinth

Water Hyacinth

A very attractive water plant. Color a magnificent lilac-rose. It forms a lovely rosette of its curious shining green leaves, and throws up spikes of the most exquisite flowers imaginable, resembling in form a spike of Hyacinth bloom. Equally as beautiful as Orchids. Plants, each 30c; 3 for 85c; 12 for \$2.88.

Bedding Verbenas

Verbenas This universally popular flower thrives in almost any situation on good garden soil. Blooms profusely June to October. Are also planted extensively in porch and window boxes. a. Everitt's Superior Mixture. Pkt., 10c; 1/4 oz., 50c. Plants, 22c; 3 for 63c; 12 for \$2.10.

Wandering Jew

Very showy and effective. Very popular in porch and window boxes. Foliage most beautifully variegated. Should have plenty of water. Of easy culture. Each 22c; 3 for 63c; 12 for \$2.10.

Umbrella Plant

Vinca Beautiful rose and white flowers. a. Mixed, 5c.

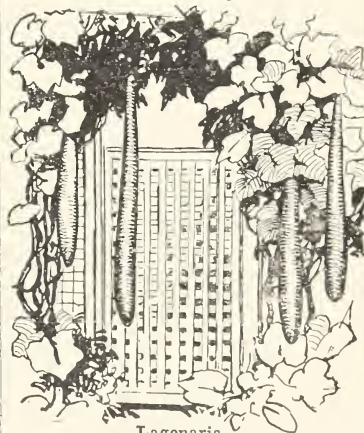

Double Violets

LADY CAMPBELL—Similar to the Marie Louise in growth and shape of flower. Color exquisite purple. Good for cut-flower planting. Plants each 28c; 3 for 80c; 12 for \$2.69.

MARIE LOUISE—Dark blue flowers, very fragrant and very prolific. The favorite double or blue violet that you see in the florists' window. Each 28c; 3 for 80c; 12 for \$2.69.

LAGENARIA OR NEW GUINEA BUTTER BEAN

This Vine Always Becomes the Talk of the Whole Neighborhood

Lagenaria

This is really not a bean, but is a tasty edible vegetable. While green and before it begins to harden, cut up and cook as butter beans, or fry as egg plant, or boil like a squash. (Directions for cooking on each packet.) It also has much merit in the size and attractiveness of the vine. The leaves and blooms are larger and handsomer than Moon Vines which, in connection with the curious fruits, which easily grow 25 inches long and frequently 3 ft., make a vine the talk of a whole neighborhood. Succeeds everywhere. The vine will grow about 50 feet in one season. Pkt., 10c; 3 for 25c; oz., 50c.

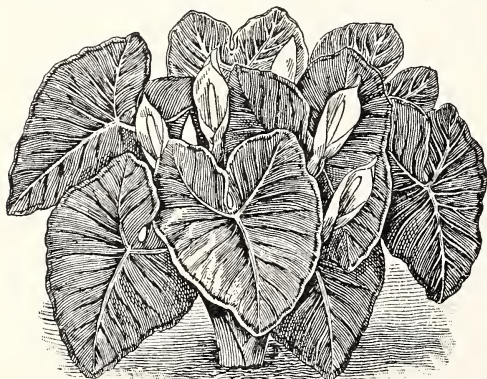

Summer Flowering Bulbs

There is more than one way to have flowers. Also some people are more successful in having lovely flowers than others. This may be because some people understand their care better than others but usually we hear the person who does not succeed very well, say, "I have no luck with flowers." To all such we say plant the bulbs. There need be no failure of flowers and nice foliage from bulbs. They will grow and produce as they should, as certainly as a potato will produce potatoes. They require the least amount of care and no other flowers excel them for a showy display. Feed the bulbs well during their growth. A light mulching of sheep manure or liquid manure every two to four weeks will increase the size of all flowers from bulbs surprisingly.

Give Your Lawn a Tropical Appearance

(See Illustration to Right)

The scheme of this bed is to plant a center of tall Castor Beans, like the Zanzibarensis. Three or four plants will be plenty. Then a circle of Cannas, and outside a circle of Caladiums. This will mean a bed 6 feet in diameter. To plant this bed we will furnish 1 pkt. Zanzibarensis castor beans, 10 Canna roots and 18 Caladium bulbs all for only \$3.50, delivered. You will have satisfaction from it.

Caladium (Elephant's Ear)

A Beautiful Tropical Lawn Ornament

Caladium (Elephant's Ear) This is one of the most effective plants for the lawn or flower garden and may be used singly or in groups, rows or beds. To obtain the best results they should be planted on rich ground where they will have an abundance of sunshine and give an abundance of water. Few people know that this caladium blooms, but under favorable conditions it does bloom like the illustration shows. Price—Medium sized bulbs, each 20c, 3 for 50c, dozen \$1.50. Large size, each 25c; 3 for 60c; doz., \$2.00. Extra large, each 35c; 3 for \$1.00; dozen \$3.00.

Fancy Leaved Caladiums We do not offer them because they are not very satisfactory for outdoor growing.

IRIS

These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted 4 to 6 inches apart in the spring when they will become well established and bloom abundantly the following spring.

GERMAN IRIS

These are among the easiest grown and most beautiful of our early Spring flowers. They bloom in May and June and early to late kinds cover several weeks. Price of all unless priced with description, each 15c; 4 for 50c; doz., \$1.25; 25 for \$2.50; 12 or more may be of more than one kind.

Mother of Pearl A wonderful new Iris. It is nationally advertised and you probably have heard of it and want it. The flowers are very large and lovely, lavender gray standards and falls. It has been called "The Perfect Iris." Price, each, 40c; 3 for \$1.00; doz., \$3.00.

Caprice Standard, rosy red; falls deeper rosy red; large and handsome. 24 in.

Fairy White, delicately bordered with pale blue. The tallest standard variety, giving a white effect. 40 in.

Mrs. Alan Gray

A delicate lavender pink that appears more pink in the shadow. Early bloom.

Midnight A rich, deep purple, the finest in this color; a fine cut flower.

Princess Victoria Louis

Standard sulphur yellow; falls rich plum, bordered cream. 30 in.

Rhein Nixe Standard white; falls violet blue with white edge. Very fine. Strong grower. 30 in.

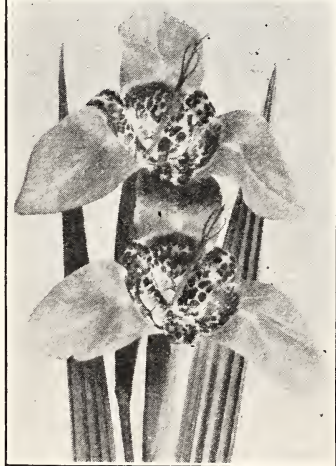

JAPANESE IRIS

This is a distinct group. The stalks grow two or three feet high with flowers of great size. Some measure 8 to 10 inches across. Commence to bloom in June and continue five or six weeks. Plants succeed best in cool, moist soil.

Price of all Japanese Iris, each 25c; 3 for 65c; dozen \$2.50; 25 for \$4.50.

Columbia Double blue; pure white veins; striking variety of unusual strength.

Eleanor Parry Double flower. Claret red, flamed with white and blue. Compact, medium size.

Tiger Flower
(Tigridia Pavonia)

Every flower lover should get acquainted with it. Marvelously, large, gorgeous flowers of yellow, spotted with crimson. New flowers come out every day and it blooms June to October. Of variable colors, no two being exactly alike. As easy to grow as Gladiolus and handled the same way. Bulbs multiply. Plant up to June. Price, one 25c; 5 for \$1.00; doz., \$2.00.

IRIS—CONTINUED

Gold Bound

A fine double, pure white, creamy glow with gold banded center.

Koko-no-Iro

This flower has six large royal purple petals with a yellow center, radiating into lines. Most brilliant Iris.

Tora-Odori

(Dancing Tiger) Vinous purple, speckled and splashed gray. A six petal flower.

Select Peonies

Everyone loves the Peony. They succeed everywhere and once started they last always. It is easier to have a bed of peonies or a border of them than to grow a row of potatoes, once planted they last always. Plant with crown 2 inches under the ground and not deeper. Too deep planting usually is the reason some Peony plants do not bloom. If you have such, take up and replant. The earlier you plant them the better.

Festiva Maxima

(Early)—White as paper with center flecked crimson. Extra large, globular. Very popular. Each, 50c; 3 for \$1.25.

Couronne D'Or

(Late)—Pure white with golden stamens. Large size, perfect form. 50c; 3 for \$1.25.

Edulis Superba

Early. Clear dark pink. Large flowers. 50c; 3 for \$1.25.

Marie Lemoine

(Very late)—Flowers are very large, massive and borne in great profusion, specimens frequently measure 8 to 10 inches across. Color ivory-white with a few narrow carmine tracings. 65c; 3 for \$1.75.

Price of all Peonies, unless priced differently: 1, 40c; 3 for \$1.15; doz., \$4.00, delivered. Three or more may be made up of more than one kind.

LINARIA MAROCCANA HYBRIDA

This is a beautiful Annual flowering plant but little grown, because it is not known. It blooms in about 8 weeks from sowing the seed and then continues to bloom from 2 to 2½ months. The plant is covered with small flowers resembling snap dragon flowers in shape with a long Columbine-like spur. The colors range through crimson, gold, pink, mauve, dark blue and rose with many lighter shades. Grows 12 to 18 inches. A splendid, different annual and should be in every garden. Pkt., 15c; 2 for 25c; 12 for \$1.00.

I WANT NO OTHER SEEDS

Please do not fail in mailing a catalog soon to the above address. Last year as well as in previous years I obtained such good crops from seed purchased from your store and I want no other—Mrs. R. R. Palamoun-tain. West Newton, Mass., 15 Hazelhurst Ave.

WORTH A CAREFUL READING

Naturally the person contemplating planting Perennials will like to make a selection that will give bloom from early Spring till late Fall. This can be accomplished by planting the following: Campanula, Chrysanthemums, Coreopsis, Delphinium, Digitalis, Hardy Sweet Pea, Gaillardia, Hollyhock, Rudbeckia and Shasta Daisy. See list.

Double Pearl Tuberosc

Nearly every one knows and prizes this beautiful fragrant flower, that is so easily raised from the bulb. By planting in the house and setting them out about May 1st, and then setting bulbs in open ground at intervals from May 1st to June 25th, a succession of blooms can be had all summer. Price. Each, 10c; dozen, 75c; 100 for \$4.50; 50 at the 100 rate.

**Felix Crousse**

(Midseason)—Bright ruby red. One of the choicest in form and color. 50c; 3 for \$1.25; dozen, \$4.50.

Fontenelle

(Early)—Crimson, very similar to Karl Rosenfield at less price. 65c; 3 for \$1.75.

Rubra Superba

(Very late)—Large flower. Deep, brilliant crimson. A strong grower. Should be in all collections because of its beauty and late bloom. 65c; 3 for \$1.75.

Karl Rosenfield

(Midseason)—Dark crimson, clear and brilliant with no trace of purple. Very large. 90c; 3 for \$2.50.

Albert Crousse

(Late)—Very large flower, shell pink. Most beautiful.

Augustin d'Hour

(Midseason)—Extremely large flower. Deep, rich solferino-red.

Duchess de Nemours

Midseason. Beautiful large bloom, white with creamy enter.

Princess Mathilde

A single bloom. Red petals with creamy center.

Linaria Maroccana Hybrida

The Flower Beautiful

Gladiolus

Any person who does not plant liberally of Gladiolus misses many a summer treat from a few dimes invested. The Gladiolus is the peer of all flowers and there is absolutely no danger of failure. Plant by the hundred, or one-half thousand and plant at intervals from early Spring till June 15th for a constant succession of blooms. Keep in mind that the bulbs multiply, so from a small start of the more costly kinds, you will soon have a large plantation, or bulbs to sell or give away. In garden cultivation plant 6 in. deep by 6 in. apart. Delivered at prices.

Topaz The Queen of Gladiolus. This beautiful gladiolus is a gem that everyone will be glad to possess. The color is very beautiful, being a salmon pink with buff trimmings. It is a good grower, has a fine spike and wide-open flowers. Blooms early. Price 15c; 6 for 75c; doz., \$1.25; 25 for \$2.25; 100 for \$7.50.

Radano Soft, sulphur-yellow. All petals beautifully penciled with pink in center; very beautiful. Medium size bloom. Early bloomer. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Arden Deep watermelon red. Grows very strong with large spike and many flowers opening at once; mid-season. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Nightingale Softest rose pink with creamy white throat. Grows tall and graceful; mid-season. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100, \$5.00.

1910 Rose Purest rose pink with fine white lines on the lower petals. Flowers and spikes extra large. Early. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Mrs. Francis King A fiery shade of light scarlet. Robust grower with glorious spikes in size and color. Midseason to late. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Pink Beauty Very dark rose pink with even darker throat markings. Blooms very early. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Gladness Outside of flower deep lavender with soft sulphur throat; mid-season. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Salmon Beauty Deep salmon color with even darker salmon throat; strong and sturdy stalk with big spikes and very large flowers. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

Zenobia Orange red with lighter lower petals. Grows strong and tall with extra large spike and flowers; medium early. 10c; 6 for 50c; doz., 85c; 25 for \$1.50; 100 for \$5.00.

America Pale pink with small rose colored blotch. Beautiful. Great cut flower variety. 10c; 6 for 50c; doz., 85c; 25, \$1.50; 100 for \$5.00.

Mrs. Frank Pendleton Flushed salmon pink, with maroon blotch on lower petals. Probably the most popular with florists, which should recommend it also to others. 10c; 6 for 50c; doz., 85c; 25, \$1.50; 100, \$3.75.

Golden Measure

Cut and Come GLADIOLUS

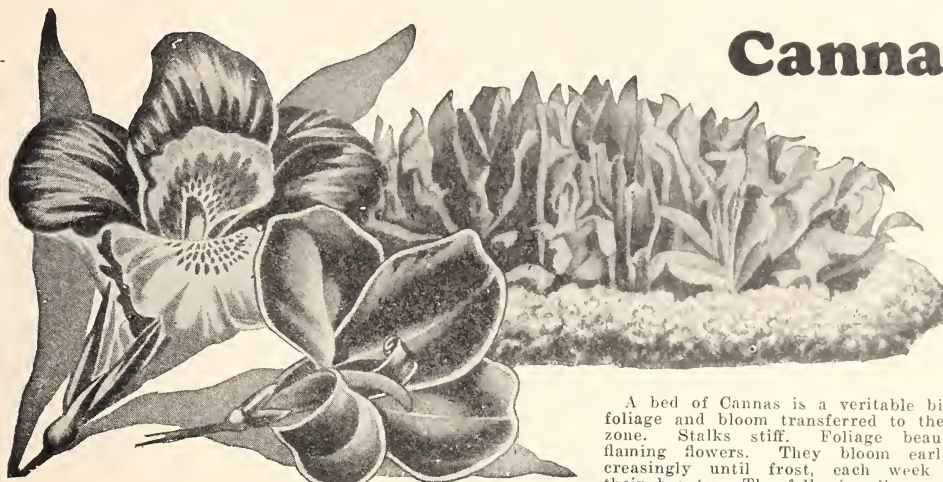

Is creating a sensation everywhere

As old spikes are cut, others, with large shrimplike blossoms, throats of orange, tinted with carmine come on, making it practically everblooming.

Everyone will be sure to have this DIFFERENT GLADIOLUS, so why wait? BE FIRST. Bulbs increase rapidly. Catalog Free. One 25c; 6, \$1; doz. \$1.50; 25, \$2.50; 100, \$10. Everitt's Seed Store, Des' xx Indianapolis, Ind.

Above advertisement is running in many newspapers and magazines this spring. You may have seen it and you may have ordered some of these remarkable Gladiolus already. If you did not, then you should order from our catalogue.

Cannas

A bed of Cannas is a veritable bit of tropic foliage and bloom transferred to the temperate zone. Stalks stiff. Foliage beautiful, with flaming flowers. They bloom early and increasingly until frost, each week adding to their beauty. The following list comprises the names.

cream of the varieties. If you are at all acquainted with varieties you will agree with us when you look at the names.

Price of all Cannas unless priced different: One, 15c; dozen, \$1.50; 25 for \$2.50; 100 for \$8.00, delivered.

City of Portland 3½ ft. Color a glowing shade of pink. Foliage a rich, green color. Flowers of the largest size borne on heavy trusses.

Candelabra 4 ft. Foliage green. 3 to 5 flower branches are on the one stock at a time. Every branch is ablaze with a torch-like flame of orange scarlet bloom.

Eureka 4 ft. Green foliage. White canna and the best for all purposes. Magnificent flowers are freely produced on strong vigorous stems.

Fiery Cross 4 ft. Green foliage. The flowers are vivid scarlet shading to crimson. The flowers have so much substance that they do not wilt in hottest sun.

Gladiator 4½ ft. Green foliage. The color is a bright yellow spotted with crimson. No other canna of this color can surpass it. It has been a leader for years.

Indiana 6 ft. Green foliage. An orchid flowered variety with golden orange flowers of mammoth size, often seven inches across.

King Humbert, Red 4 ft. Green foliage. This popular variety still remains one of the grandest cannas ever grown. The plant is crowned with immense heads of orchid-like, velvety orange-scarlet, rose tinted and margined at the base, flowers. The plant itself is beautiful.

King Humbert, Yellow 4 ft. Like foregoing in habit of growth and flowers blotched red.

Mrs. Alfred Conard 4 ft. Green foliage. A salmon-pink canna and the grandest one of its class. It has magnificent heads of perfectly formed flowers of great size and wonderful endurance.

Marvel 2½ ft. Green foliage. A nice healthy red flower with a delicate edging of bright orange. The foliage, with the fine flower makes a very fine variety.

Orange Bedder 4 ft. Green foliage. Color bright orange with enough scarlet to intensify the dazzling mass of color.

The President 4 foot. Green foliage. Flowers rich glowing scarlet in immense heads shooting well above the large, erect stalks. In a quantity of blooms and magnificence of flowers, this variety is not excelled. Each 20c; 6, \$1.00; doz., \$1.75; 25, \$3.00; 100, \$10.00.

Shenandoah 4 ft. Bronze foliage. Flowers salmon-pink borne in large clusters, on strong stalks. The foliage ruby-red.

Venus 4 ft. Green foliage. Beautiful rosy pink with a well defined border of creamy yellow. A charming combination.

Wintzer's Colossal 5 ft. Green foliage. Flowers of vivid scarlet. Without a doubt this is the largest flowered Canna yet produced. Sometimes they measure eight inches across. 20c; 6, \$1.00; doz., \$1.75; 25, \$3.00; 100, \$10.00.

Cannas in Mixtures Each season we have a surplus of considerable number of our named varieties and other Cannas that we put in this mixture and sell them at reduced prices. This is an opportunity that should be embraced by the person who does not care to keep track of names but wants to save some money and have a flower bed of blazing colors. Each 5c; doz., 50c; 25, \$1.00; per 100, \$4.00, delivered.

King Humbert

Mrs. Alfred Conard

What garden could be called complete without a fair display of these stately flowers? Their graceful habit, their ability to adapt themselves to special locations and the variety of them which provides flowers almost the entire summer, makes them very valuable. Their culture is simple, yet a few rules must be strictly observed to grow them successfully.

All lilies should be planted from 6 to 8 ins. deep, the Japanese varieties even 12 ins. deep. The bulbs themselves should be completely enveloped in sand; no manure should come in contact with the bulb but manure may be placed four to six inches underneath, on top of which place a layer of sand. All loose-petaled bulbs should be planted on their side instead of upright. In fact, this could apply to all lilies. In winter all lilies should have a protection of long manure loosely thrown over the bed.

Golden Banded Lily

(Auratum) Also called Golden-Rayed and Queen of Lilies. Blooms July and August. Flowers pure white petals, spotted with bright crimson and a yellow band along the mid-rib. 35c; 3 for \$1.00.

Double Tiger Lily

(Tigrinum) Blooms August to September. Flowers double, borne in large clusters. Color, bright salmon-red with purple black spots. The best double lily. 25c; 5 for \$1.00.

Single Tiger Lily

(Tigrinum) Same as the double Tiger except single. 25c; 5 for \$1.00.

Turk's Cap (Bateman's) Blooms July to August. Flowers pale orange red, sometimes tinged with pink, borne in clusters as high as 12. 30c; 4 for \$1.00.

Meadow Lily (Canadense) Blooms June and July. Flowers, bright orange-yellow spotted with purple, borne in clusters. 30c; 4 for \$1.00.

Swamp Lily

(Superbum) Blooms from late July to September. Flowers brilliant orange scarlet, shaded yellow and spotted purple-brown at the base. Will have as many as 40 flowers in a cluster. Very showy variety. Prefers moist soil. 25c; 5 for \$1.00.

Double Tiger Lily

Regale or Royal Lily

Lilium Regale (The Royal Lily)

This glorious species is considered the finest hardy lily in cultivation. The flowers are white slightly suffused pink, with a beautiful shade of canary-yellow at the centre, which extends part way up the trumpet. The fragrant, trumpet-shaped blooms appear early in July and often twenty to thirty flowers are carried on a single stem. The bulbs increase in number and have proved to be absolutely hardy. They should be planted about five inches deep, as early as possible. Large bulbs, 50c; 3 for \$1.25; doz., \$4.00.

AMARYLLIS

These are the most magnificent and gorgeous bulb and bulbous plants grown. The flowers are very large and remarkably colored, striped and blotched. For pot culture use any rich soil. Set the bulb two-thirds above the soil. Water moderately at first and increase. A 6 to 8 in. pot is usually large enough. Some growers put them in dark until the flower stems grow 4 to 5 inches.

New Hybrids Amaryllis These new types run through the colors and shades of colors. Mammoth bulbs, each 75c; 3 for \$2.00.

Belladonna Amaryllis Fine variety for fall blooming, very free flowering and fragrant. Flowers a lovely shell-pink color. Stems 2 to 2½ ft. high. 30c; 4 for \$1.00.

Equestris Amaryllis Brilliant orange scarlet flowers with green and white throat. 35c each; 3 for \$1.00.

Begonias Tuberous Rooted. One of the most beautiful of all Summer flowering bulbs. Easy to raise, adaptable to almost all positions except not in full sunshine and should be sheltered from winds. The north side of a porch is an ideal place. Also, window and porch boxes on the north side where they get only morning and evening sun a short time. Each 20c; 6, \$1.00; doz., \$1.50.

Oxalis Summer Flowering—These useful little plants are very effective in masses or beds and are particularly valuable for edgings. They produce an unbroken row of foliage about one foot high and continuous bloom. Colors, white, red, pink. Mixed, doz., 20c; 25, 30c; 100, \$1.00.

Show Lily

Dahlias are well known summer and autumn flowering plants. Good varieties like the below list produce flowers abundantly. Also,

from our list you can get every imaginable shape and color. Our varieties are right

down to date and possess unusual merit. Have different varieties from your neighbors.

Orders for 3 or more named kinds may be made up of different kinds at the rate of 3.

After each description we give the price that the variety usually sells for in parenthesis, and after that our price. Note the saving you can make by buying from us.

DECORATIVE DAHLIAS

This class is the pride of all growers. The plants are strong, sturdy, vigorous. They bloom in great profusion and the colors and forms are beautiful and varied. Our varieties have long, straight stems.

Bonnie Brae The color of this wonderful Dahlia is a peach and cream combination of shadings, showing strong on the peach pink at first, but after well opened comes out much lighter. Very free flowering. (\$1.00) 50c; 3 for \$1.25.

Eleanor Grant Large flowers borne on extra long stems, the outer petals of light cam-eo-pink, while the center is sea foam green. A fine Dahlia. (\$1.00) 50c; 3 for \$1.25.

Mrs. Carl Salbach A sensational decorative dahlia of great size. In color, a mauve pink, occasional blending of white; the general impression being pink. For exhibition purposes this new creation is indispensable. (\$1.00) 50c; 3 for \$1.25.

Mrs. I. De Ver Warner Deep mauve pink. One of the very best Dahlias grown. Long stiff stems and excellent for cut flowers. (\$1.00) 50c; 3 for \$1.25.

Snowdrift A giant clear white. The flower has good depth with broad waxy petals of the true decorative type. (\$1.00) 50c; 3 for \$1.25.

The Bashful Giant This is one of the largest Dahlias ever produced. It is also of great merit for its beautiful color, being an apricot with golden shadings. Flowers are produced on stout stems. (\$1.00) 50c; 3 for \$1.25.

Wm. H. Slocombe The largest and best pale yellow decorative to our knowledge. A clear sulphur yellow passing to martinus yellow at tips. Flowers of gigantic size, from six to eight inches in diameter under ordinary conditions. (\$1.00) 50c; 3 for \$1.25.

Dr. Tevis Beautiful shade of salmon-rose, suffused with old gold.

Jane Selby Exceptionally large flower of a delicate mauve pink. Great substance and good formation, on strong stems well above the foliage. A prize winner. (50c) 35c; 3 for \$1.00.

Pride of California Called the "American Beauty" Dahlia. Winner of Gold and Silver medals. Huge, crimson flowers produced on long straight stems. (50c), 35c; 3 for \$1.00.

CACTUS DAHLIAS

These have long, narrow in-curved and sometimes twisted petals which give them a very interesting and graceful appearance. No collection can be considered acceptable without some of this class.

Mrs. C. B. Benedict Alexander's New Seedling. 8 to 10 inches across. A clear, light yellow, one of the largest grown, a wonderful flower. (\$2.00) \$1.00, 3 for \$2.50.

Mrs. Ethel F. T. Smith This is a white shading to a greenish lemon tint in the center. A monster Dahlia on a strong stem. Blooms freely and is a splendid exhibition variety. (\$1.00) 50c, 3 for \$1.25.

Brides Bouquet An ideal white cactus and profuse bloomer, extra long stems, and a Dahlia that stands up well when cut. (50c), 35c; 3. \$1.00.

California Enchantress Flowers of very delicate blush; buds open a creamy white, changing to a soft rosy tint as the flowers develop. A great beauty. (50c), 35c; 3 for \$1.00.

Etendard De Lyon The color is a trifle darker than carmine-rose. The flower is held on fine, stiff stems. Bound to please. (50c) 35c; 3 for \$1.00.

Kalif In color a beautiful pure, glowing scarlet. Gigantic flowers, which are produced freely. (50c) 35c; 3 for \$1.00.

W. B. Childs A very reliable variety. Color a beautiful dark purple-maroon. Will grace any collection. (25c) 25c; 3 for 65c.

PEONY FLOWERED DAHLIA

These are large, fluffy and show that beautiful golden center so characteristic of the type. They are semi-double with long, wavy, and curling petals.

Latona An unusual blending of orange, buff and yellow. Flowers are nearly full to the center, and produced freely, upon good stems. (50c) 35c; 3 for \$1.00.

Mme. Van Bystein A very distinct new shade, lilac-blue throughout, holding blooms well above the foliage. An early and abundant bloomer. (50c) 35c; 3 for \$1.00.

Grace Kirschner White, daintily overlaid with cameo-pink (50c) 35c; 3, \$1.00.

BALL SHAPED SHOW DAHLIAS

The old-fashioned double Dahlia. The improved varieties are very popular on account of their long stiff stems and lasting qualities as cut flowers. Also these kinds are very beautiful.

D. M. Moore In this offering we have one of the best nearly black varieties to date. It is a rich, deep, velvety Victoria-lake which is a shade deeper than deep maroon. (50c) 35c; 3 for \$1.00.

Maude Adams The color is a pure snowy white, very effectively overlaid clear, delicate pink. (50c) 35c; 3 for \$1.00.

A. D. Livoni Beautiful soft pink. Well formed flowers with long stems. Free flowering. (25c) 25c; 3 for 65c.

American Beauty The flowers are of gigantic size. The color of this acquisition is a gorgeous wine-crimson. (25c) 25c; 3 for 65c.

Princess Victoria Pure canary yellow. Long stems. Perfect form and free bloomer. (25c) 25c; 3 for 65c.

Uncertainty A brilliant combination of very light shell pink and scarlet. No two flowers are the same. (25c) 25c, 3 for 65c.

Rainbow Mixture Comprises all types, forms and colors and is made up of varieties of genuine merit. If you will be too busy to keep the record of the named kinds, then this mixture will give you fine satisfaction. Each 15c; 6 for 75c; doz., \$1.25.

All 2-Year-Old Field Grown

Francis Scott Key Deep red, large flowers, double and fine form. A wonderful hardy and strong grower.

His Majesty Vermilion. Has a large, long bud that is very distinct and beautiful. Roses sometimes in clusters on long stems. Strong grower.

Gen. McArthur Fiery red, and one of the freest bloomers.

Radiance A bright shade of pure red. A beautiful rose and one of the most satisfactory for out-door cultivation.

CRIMSON EVERBLOOMING

Hadley Rich, velvety crimson. Beautiful buds and great double flowers throughout the season. Truly a great rose.

Milady Crimson scarlet. Flowers very large, full and well formed, on long stems. Will not disappoint.

National Emblem Dark crimson overlaid with a velvety finish shading to vermilion toward edges. Beautiful buds. Marvelous bloomer.

Mad. Alex Dreux Deep crimson on opening, changing to canary yellow. Much admired.

WHITE EVERBLOOMING

British Queen Purest white on opening; petals massive, with an exquisite reflex producing a globular and yet pointed form. Stiff, slender stems; free and fragrant. Valuable alike for exhibiting, massing, bedding, decorating and forcing.

K. A. Victoria A white rose with a faint tinting of yellow. Flowers very large and beautiful. Probably the best white H. T. rose.

Killarney White. Like the pink except in color.

THE BEST HARDY MONTHLY ROSES

PINK EVERBLOOMING

Captain Christy Delicate flesh-pink. Beautiful profusion. bud and superb roses in great

Columbia Peach blow pink buds, opening to a glowing color. Very large flowers on long stems. Few thorns.

Frank W. Dunlop New. A prize winner wherever shown. Beautiful pink color.

J. L. Mock Clear pink. Blooms very large and beautiful. This is probably the strongest grower of the H. T. class.

Killarney Pink. This rose is famous for its beautiful buds and continuity of blooms.

Los Angeles New color is flame pink with coral and tinted gold at base of petals. The color is new amongst roses. Plant is a vigorous grower.

Mad. Caroline Testout Brilliant satiny rose, bordered with silver. Extremely large rose.

Mrs. Chas. Bell Beautiful shade of pink. A very large rose and a very good one.

Premier A delightfully fragrant and beautiful dark pink rose that nearly everybody knows and loves. Robust grower and nearly thornless.

My Maryland Bright pink, strong growth and free bloomer. Gives great satisfaction.

RED EVERBLOOMING

Etoile de France (Star of France) Clear, velvety red crimson. Large roses on long stems. Hard to equal as an out-door rose.

YELLOW EVERBLOOMING

Lady Hillington Yellow. The color is a solid yellow without any shading. In this it is unique and appeals to every rose grower. Roses are large and preceded by exquisite buds. Clearly the best yellow rose.

Ophelia Brilliant salmon, shaded with rose on outer edge of petals with a heart of glowing peach pink and orange yellow blendings.

Sunburst Orange copper or golden orange and golden yellow, all intense shades, giving an extremely brilliant effect. A giant rose, long stems, long pointed buds.

Luxembourg Orange yellow. It is unsurpassed at any stage. A free bloomer. Will give great satisfaction.

SCARLET EVERBLOOMING

J. B. Clark Intense scarlet, shaded crimson maroon. A very rich rose and handsome foliage.

HYBRID PERPETUAL ROSES

This class blooms in June and some of them bloom moderately all Summer. They are the hardiest roses and live for many years.

Red American Beauty Brilliant cherry red flowers of immense size. Bears also through the summer.

Conrad F. Meyer Pure, silvery pink. Surpasses all others in its class in beauty of form and color. Will not mildew. Delightful fragrance.

Frau Karl Druschki Great snow white roses sometimes 6 inches across. Strong, vigorous grower.

Magna Charta Bright pink, extra large roses of fine form. A profuse bloomer.

Gruss An Teplitz Grows to 4 or 5 feet and bears masses of vivid dazzling crimson, sweetly fragrant roses, on long stems.

CLIMBING ROSES

American Beauty The popular American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance.

Crimson Rambler Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson flowers.

Dr. Van Fleet Dainty soft flesh-pink. Flowers full and buds pointed and open to a great diameter. A new variety.

Erna Teschedorff Carmine red. A climbing rose that blooms from May to end of October in profuse clusters like Baby Rambler.

La France The climbing form of this beautiful bush H. T. Silvery pink flowers. One of the great favorites.

Silver Moon Clear silvery white, with a mass of bright yellow stamens. Flowers open to an immense diameter.

Thousands Beauty (Tausendschoen) A robust growing vine bearing roses in colors from white to deep pink, bluish and soft yellow so numerous as to nearly hide the foliage.

THE DOROTHY PERKINS SET

If you have a porch, trellis, garage or other place that you want to beautify with vines and beautiful flowers, plant this set of Dorothy Perkins climbers. Any one is a beauty. The three will be a riot of beautiful colors and a joy forever.

Dorothy Perkins White

Dorothy Perkins Pink

Dorothy Perkins Red

Any one at price at top of list, but the three, one of each for \$1.00.

MOSS ROSE

Henry Martin Light, glossy red flowers, tinged with crimson. Finely massed. A very sweet rose.

DWARF POLYANTHA

F. J. Grootendorst A unique new rose in that the edge of each petal is notched like saw teeth. Brilliant rosy pink flowers always in bloom.

We repeat the prices here: All varieties unless priced different:

THREE FOR \$1.10

All delivered at these prices. Safe arrival guaranteed. All 2 year Field Grown.

Golden Rose of China**[Rosa Hugonis]**

This remarkable rose was found in Western China. American rose lovers now have the opportunity to grow this beautiful and only dependable **Yellow Shrub Rose**. It grows about six feet high and as wide across, with long arching branches filled with lovely single yellow flowers resembling hollyhocks. The long arching sprays make rare and beautiful outdoor and indoor decorations in May when flowers are scarce. Ideal table decorations.

Attractive Foliage Plant

But the roses are not its only charm. The new growth, springing from the roots has a reddish-maroon color with abundant green leaves which makes it one of the most attractive foliage plants all summer.

Everybody Should Grow It

Considering its hardiness, early and abundant blooms, beauty of its blooms and desirability as a foliage shrub, the **Golden Rose of China** will be grown by everybody as soon as they know of its all around merits and charm. Try to picture this rosebush at the corner of your porch, on your lawn, a border of them in the background, or along your driveway. Plan to plant some this spring. Remember the **Golden Rose of China** is entirely hardy, with fairy-like blossoms early each spring and acacia-like foliage, on arching branches, all summer long. Blooms in May, before other roses.

Everybody Will Grow It As Soon As They Know It

Dr. E. H. Wilson of Arnold Arboretum, Boston, said: "This Golden Rose should be in every garden for it is one of the most lovely plants known to cultivation." Our customer E. A. U., Detroit, wrote: "I have a Golden Rose of China bush 9 feet across and is literally covered with blossoms in May. I enclose check for 20 more of them." A. G. L., Minneapolis, wrote: "I planted a Golden Rose of China three years ago and it is a sight to see. I brought in a spray this morning 11 inches long with 18 roses on it. \$25.00 could not buy my bush." Try to picture this rose bush at a corner of your porch, on your lawn, or as a background. Probably the finest plant for a grave.

PRICE, 2-year field grown, each 75c; 3 for \$2.00; 6 for \$3.50; doz., \$6.00.

Everitt's Hardy Perennials

"THE FLOWERS GRANDMOTHER LOVED TO GROW"

The perennials we sell you are strong field-grown. Planted in the spring they will flower the same year and will continue for years, ever increasing in number of plants and blooms. In three years the bed should be thinned, the plants divided and the surplus transplanted. With a start of a dozen plants, your home and your friends' home may be supplied with beautiful flowers from early spring until freezing winter.

Price of all varieties in this list, unless priced with description: One 25c; 5 for \$1.00; dozen, may be of one or more kinds, \$2.00; 25, \$4.50, 100, \$12.50. All delivered Parcel Post or Express.

Achillea The Pearl—Pure white, double flowers produced in great profusion all Summer. A gem for cutting.

Aquilegia (Columbine)—All colors, fine for border and rock garden. Excellent cut flower. Two feet high. Blooms June-Oct. Double and Single.

Artemisia, Silver King A plant of rare beauty. Adapted to any landscape planting and for use in bouquets and table decorations. Its bright silvery stems and foliage make a beautiful bush in any situation, and they blend harmoniously with other perennials, shrubs or plants. Height, about 3 feet, and about the same across. Stems can be cut and held without moisture indefinitely. Each 35c; 3 for \$1.00; doz., \$3.50.

Bleeding Heart

Bleeding Heart (Dicentra)—An old favorite which has been difficult to obtain for years. Many will now want to plant it in their hardy flower gardens, where it will continue for years. It is one of the most attractive and most desired plants. Early in spring to June it bears long racemes of heart-shaped, rosy-red flowers. It is perfectly at home and hardy in any climate and does well in all situations, even in shade. Strong clumps 60c; 3 for \$1.65 dozen, \$6.00, delivered.

CAUTION—After the Bleeding Heart blooms the top dies and does not mark the place of the plant. Therefore put a marker where it is, as it will come back the next spring.

Campanula (Canterbury Bell) Invaluable for making a striking effect in the border during June. 2 ft. Double mixed.

HARDY RAINBOW CARNATION

Do you want carnations for buttonhole and house bouquets every day? These carnations are as refined, and the fragrance as exquisite as the hot house carnations. Can be grown with greatest ease and will bloom in 4 to 6 weeks from setting the plants. Every day you can cut buds and flowers till frost. Colors, Red, Pink, White and Yellow.

Colors—Mixed—30c each; 4 for \$1.00; \$3.00 per dozen.

Separate colors—4c each; 3 for \$1.00; per dozen, \$4.50.

CHRYSANthemum

Should be planted on well drained soil when they will be perfectly hardy. After through flowering cut down to 3 inches and cover with leaves.

LARGE FLOWERING mixed colors.

Separate Colors—Yellow, Rosy Red, Bright Pink, White.

Coreopsis (Tickseed)—The flowers are a rich golden yellow of slender, graceful form, making an excellent cut flower. Two feet high. Blooms all summer.

Liatris Gay Feather Probably no plant can be set that will attract more attention on account of its unusual, as well as beautiful appearance. The plant with the flower spike reaches the height of 4 feet or more. Color of flowers purple and produced through July to October. Very effective when cut and combined with Gladioli for bouquets. This plant will thrive on poorer soil than most flowers, but responds to rich soil. Plant 25c; 5 for \$1.00; dozen, \$2.00.

Delphinium (Larkspur)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphiniums, and for their value in hardy borders they are unsurpassed.

Belladonna—Sky blue flowers.

Bellamosa—Deep blue.

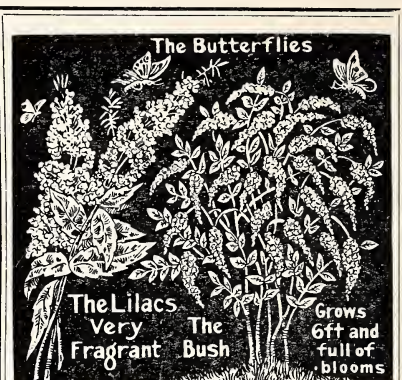

English Hybrids.

Dianthus Barbatu (Sweet William) One of the most popular of old fashioned flowers. If an abundance of cut flowers is desired these can be relied upon. Brilliant, fragrant.

Pink, scarlet, white, mixed.

Dianthus Hardy garden pinks. Without the spicy fragrance of these pinks no garden is complete. Their beautiful form and rich colors make them great favorites for edging beds, walks and drives. Many colors mixed.

Digitalis (Foxglove) One of the best flowers. Throws a beautiful spike 4 to 6 ft. high. Mixed, gives all colors.

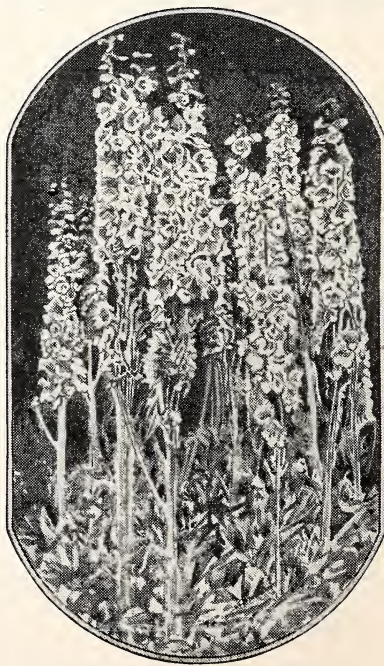

Butterfly Bush SUMMER LILAC

Planted in Spring will soon bloom. Grows 4 to 6 ft. Full of flowers until after frost. Hardy, blossoms large, lilac color. Very fragrant. Fine for bouquets. Unusual and attractive decoration for any lawn. Will be admired by neighbors and visitors.

READ—"Most beautiful plant I ever saw."—Chas. W. LaBreton, McKeesport, Penna. "Nothing lovelier in my garden."—Mrs. McCulla, Waukegan, Ill. "If I could not buy another you could not buy mine for 10 times its cost."—Mrs. Ed Bailey, Melbourne, Missouri. "The Butterfly Bush got from you 3 years ago had 72 blooms on at one time."—Ed Hensel, Bloomington, Ill.

PRICE—Strong Plants 30c; 4 for \$1.00. Field Grown Bushes, 50c; 3 for \$1.25; 6 for \$2.25.

Delphiniums, Belladonna, blue flowers.

Gaillardia The most glorious of our true 'Old-fashioned Flowers.' Flowering constantly from June till October in many rich and brilliant colors of orange, crimson and red. Unexcelled as a cut flower.

Gypsophila (Baby's Breath)—Masses of minute white flowers produced throughout the summer, very fine for cutting and drying.

Hemerocallis Lily-like flowers with very ornamental foliage, color pure yellow. Three feet high. Blooms July-August. They have long been favorites and should always be included in any planting.

Hollyhocks Give rich soil, well drained. Once established, they become stronger and bloom finer each year. Planted in spring will bloom the same year.

ALLEGHENY—Flowers seldom less than 5 inches across and fringed. Constant bloomers. Each 30c; 4 for \$1.00; dozen, \$2.50.

Mixed Colors, double.

Lathyrus (Everlasting Sweet Pea)—These plants are yet little grown in this country, but are everywhere in England. They are charming climbers, very showy and give a close imitation to regular sweet peas.

Pink Beauty, White Pearl, Red Star.

Lily of the Valley This flower is well known and appreciated by all. We sell field-grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house.

Linum (Perennial Flax)—A fine plant for the border or rockery. Grows about two feet high with large flowers all summer.

Lupines Few American flower lovers realize the beauty and value of the perennial Lupinus. They bloom profusely from June to August with graceful flower spikes, a foot long. Excellent for cutting. Easily grown but must be well watered. 25c; 3 for 65c; doz., \$2.25

Giant Flowering Hibiscus (Marvel Mallow)—Hardy Everywhere. Flowers July to Sept. This is a wonderful perennial growing 5 to 7 feet high in a clump of several feet around the base, with tops 4 to 6 feet across, loaded with giant flowers 5 to 8 inches in diameter. It is so remarkable and beautiful that we just know that every home-maker will love to have it. Absolutely hardy everywhere in the United States and Canada.

Price Separate Colors—Red, white and pink. One 35c; 3 for \$1.00; 5 for \$1.50; dozen, \$3.00.

Mixed Colors—In all the rich colors and shades of red pink and white; one, 30c; 4 for \$1.00; dozen, \$2.25.

Platycodon (Japanese Bell Flower)—One of the finest hardy plants. Produced from July until frost, very showy, violet blue flowers almost rivaling the charming Jackmanii Clematis. 1 to 2 feet high. Each 25c; 5 for \$1.00; doz., \$2.25.

Poppy (Oriental). For their gorgeous display of rich and brilliant coloring nothing equals them. The best time to plant them is in the last half of August, in Sept. and Oct., but may also be set in early spring. Separate colors, red, pink, white. 40c; 3 for \$1.00; dozen, \$3.00.

Iceland Poppy Bears pink, orange or yellow cup shaped flowers all through the summer. Mixed.

Marvel Mallow

Phlox Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their great variety of color adds a brilliancy to the landscape. Their flowering season begins in July and if the past bloom spikes are removed, the blooming period may be prolonged until fall. Separate colors—White, Pink, Lavender, Red, Mixed.

Pyrethrum (Painted Daisy)—A group of easily cultivated graceful free-flowering plants that are unequalled for cutting. Colors range from pure white to most brilliant scarlet. Blooms practically all summer in greatest profusion.

Rudbeckia (Coneflower)—Extra large flowers of a reddish purple with large brown cone-shaped center. July to October. Mixed.

Shasta Daisy A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. Two to two and a half feet high.

Tritoma (Red Hot Poker)—A beautiful late flowering plant, having handsome red-like foliage. Flowers are of a rich orange scarlet color, three feet high. Blooms Sept., Nov. 25c; 5 for \$1.00, doz., \$2.25.

PERENNIALS FOR ROCKERY

Rockeries are becoming much the style and the following are the best perennials for planting in them. Same price as other perennials.

Arabis (Rock Cress)—Low growing plants with white flowers.

Armeria (Thrift)—Of dwarf tufted habit that will succeed in any soil and bear enumerable flowers in dense heads.

Iberis (Hardy Candytuft)—Dwarf plants covered with sheet of white flowers very early in spring.

Nepeta (Ground Ivy)—Dwarf plants with masses of beautiful lavender flowers.

Sedum (Stone Crop)—Hardy plants, which can be used in many ways that no other plant will fit. There are too many varieties to attempt a list and give full description. So tell us the conditions under which you want to plant them and we will send the right varieties. For instance, poor, sandy waste, where nothing else will grow, or a rock garden, ruins, banks and walls, or for a carpet bedding, under shade trees where grass will not grow; or on a grave, or for edging or border or bed; or in hanging baskets or vases. With Sedum any position can be made a Beauty Spot. Easiest to start, multiply by planting off-sets. Tell us what you want to do with them and we will send the right kind. Prices delivered, 3 for 50c; (oz., \$1.75; 25, \$3.00; per 100, \$10.00.

SEDUM ACRE—Bright yellow flowers. The best for graves.

SPECTABILIS—Immense heads of showy, rose flowers.

SPECTABILIS BRILLIANT—Like above, but crimson.

SEXANGULAIRE—Dwarf with yellow flowers.

Pachysandria (Japanese Spurge)—A plant that will succeed in all shady places even, will thrive under pine trees. Use it in all of these places: Under evergreen plantings, under shrub plantings, between houses where sun does not reach, for borders, walks and drives, for steep terraces, in dense shade under any kind of trees. Evergreen, year around. Lives always. Plant 3 in. apart each way.

	Doz.	100	1000
Strong, 3 inch pot plants, heavy	\$1.75	\$12.00	\$115.00
Strong, 1 year, field-grown plants	1.50	10.00	95.00
2-year plants, field grown	1.75	12.00	115.00

Price of all varieties in this list, unless priced with description: One 25c; 5 for \$1.00; dozen, may be of one or more kinds, \$2.00; 25, \$4.50; 100, \$12.50.

Tritoma

Sedum, the rough and ready plant

The Best Hardy Shrubs

A few dollars invested in shrubs now will soon make your home a beauty spot, a greater joy to live in and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay. All of our shrubs are well developed, not seedlings.

Abelia Grandiflora This is one of the rare everblooming shrubs and it also has the added attraction of being almost evergreen in winter with its shiny foliage. These are combinations not found in any other shrub.

BARBERRY, THE HEDGE EVERLASTING

When we are asked "What is the BEST plant for a hedge, we can answer 7 times out of 10, "BARBERRY" after we know about the locality and soil. From Spring to next Spring, every day, they are beautiful.

Japanese Barberry In Spring the leaves are a soft shade of green; in Summer, deep glossy green and in autumn they take on shades of crimson and brown and hold these colors with numerous red berries through the winter. 12 to 18 in. 25c; 3, 65c; doz., \$2.50; 18 to 24 in. 35c, 3 for 90c, doz., \$3.25.

Red Leaved Barberry Growth in all respects like the Japanese but the leaves are rich, bronzy red in all stages. Will thrive in shade but to get the best color plant in full sun. One year plants, 60c; 3 for \$1.50; doz. \$5.00.

BEAUTY BUSH

(Illustration and prices on cover page)

This new plant is hailed as the finest one of the recent introductions from the Orient. Butterfly-like flowers are produced in such great profusion in June as to almost hide the foliage, and it is a beautiful shrub, growing 8 to 9 feet high all Summer. See 2nd Cover Page.

Calycanthus (All-Spice Shrub)—Grows to 6 ft., branches reddish brown with large glossy leaves and odd, double, spicy, fragrant flowers. Very desirable. Each 60c; 3 for \$1.50.

Deutzia (Pride of Rochester) — Large white flowers tinged with rose. Profuse bloomer and one of the earliest hardy plants to bloom. Each 50c; 3 for \$1.25.

Deutzia Crenata Magnifica—A new Deutzia. In its great fluffy bunches of white flowers it excels all others. Each 60c; 3 for \$1.50.

Dogwood (Cornus)—Grows 6 to 10 feet tall. Bears clusters of small white flowers in early summer, followed by whitish colored berries. Also valued for brilliancy of its bark. Does well in shade. Each 50c; 3 for \$1.25.

Golden Bell or Forsythia. 8 to 10 ft.—This is the shrub which when it blooms very early in the spring everybody admires and many people seek for the name of it. Small bell-shaped, beautiful, bright yellow flowers appear before the leaves. One of the most ornamental. Succeeds everywhere. Each, 50c; 3 for \$1.25.

Honeysuckle Forms beautiful tall bushes, with handsome foliage and beautiful pink flowers. Its flowers are followed by orange or red berries which cover the plant in Summer and Autumn. Will thrive in partial shade. Each 50c; 3 for \$1.25.

See Inside Back Cover Page for Cut and Come Zinnia—the new fashion in Zinnias.

Amur River Privet

Barberry Hedge

Floribunda The description above applies as well to this, the only difference the flowers are pink.

Bechtels Double In this variety the flowers are double, color pink.

FLOWERING PLUMS

Triloba This has been extensively sold as the Rose Tree of China. Of course it is not a rose, but real roses on a tree 6 to 8 ft. high could not be more beautiful. Its behavior, of flowering early in Spring and being beautiful all through the summer is similar to the description of Flowering Crab, above. The blossoms are rose-pink and double.

FLOWERING CHERRY

Sieboldi Semi-double white, tinged with red. These flowers are often taken for roses by the uninitiated, and the remark, "I saw a cherry tree bearing roses" is sometimes heard. Behavior, very like Flowering Crab, above.

FLOWERING PEACH

Double Red This tree is very like all of the others in bloom and behavior but for fast growth and the biggest splash of color it excels all of the others, remarkable as this is.

Prices of Flowering Trees These prices apply to all six varieties. We recommend planting in groups. When 3 or more of different kinds are taken the prices of 3 may apply.

18 to 24 in. high	-----	\$0.60;	3 for \$1.75
2 to 3 ft. high	-----	1.00;	3 for 2.50
3 to 4 ft. high	-----	1.25;	3 for 3.00

Abelia Grandiflora

HAS YOUR LAWN ITS FLOWERING FRUIT TREES

Novel Decorations with a Rapidly Increasing Appeal

Until quite recent years the amazing Japanese Flowering Cherry, Crab and Plum trees were rare novelties and found only in a few city parks, Arboretums and private collections of wealthy people. But, today, while the best varieties are not common, we are able to furnish them at prices that no person who takes a real pride in his place can afford to neglect them. No other plants, shrubs or trees will give greater returns in colorful flowers, glossy foliage and ornamental fruits, no matter what the investment, than the following:

FLOWERING CRABS

Astrosanguinea The whole nation loves red flowers and whoever sees this tree in bloom, in early Spring will have seen a sight that he will never forget. Not only do the flowers make a blanket of carmine red, but the fruits that follow, as numerous as the blossoms themselves, are red and even the branches are red. The fruit continues through the summer and fall, and the tree is then almost as beautiful as when in bloom.

Hydrangea Grandiflora

FLOWERING ALMOND**Cydonia Japonica**

A beautiful, showy shrub that grows 6 to 8 ft. tall and bears its dazzling scarlet flowers in early spring in great profusion.

Double Pink

Large, double pink flowers in May. Dwarf, compact growth.

PRICE OF BOTH KINDS—18-24 in. 60c; 3 for \$1.50; 2 to 3 ft. \$1.00; 3 for \$2.50; 3 to 4 ft. \$1.25; 3 for \$3.00.

Any person who wants a lawn unique and distinct probably from any other in the neighborhood can make it by an exclusive planting of these flowering fruit trees and flowering Almonds. One thing is certain. Whoever sees any of these trees in bloom will turn and look back.

HYDRANGEA

The massiveness of blooms on Hydrangeas should assure them a place in every planting where white effects are desired.

Aborensens Grandiflora

(Hills of Snow)—Very suitable for foundation planting and borders. Each 60c; 3 for \$1.50.

Hydrangea Grandiflora

The well known hydrangea. Grows 6 to 12 feet high bearing great globose white flowers in August, changing to pink later. Each 60c; 3 for \$1.50.

New Philadelphus Virginalis

Philadelphus

(Mock Orange) (Virginal) This is a late addition to the Mock Orange family and is the best of all, therefore we do not list the old ones. Blooms all summer. Beautiful, large, crested flowers. The richly fragrant flowers of Virginal, almost 3 inches across, surpass them all and continue blooming all summer. Each 75c; 3 for \$2.00.

Snowball

(Opulus Sterile)—The well known favorite Snowball bush which is loaded with large white balls in clusters in May. It is found on nearly every lawn or should be. Grows 6 to 8 feet. Each 50c; 3 for \$1.25.

USED O. K. SEEDS OVER FORTY YEARS

My father bought seed from you people every year for over 40 years. I have always found your O. K. Seed good. I especially liked your tomatoes, Best Yet and Norton. Also Dollar Squash, Early Wonder Beets, Asparagus, Sage, Pie Plant and Parsley. Every seed came up and all of them made a good average.—Mrs. Landon Casey, Coal Hill, Ark.

NEW LILACS FOR OLD GARDENS

(See colored illustration of 2nd cover page)

Our Special Offer of Six Superb French Lilacs.

In France, more than any other country, the Lilac, has been the subject of intensive study and experiments to improve it. The result has been increase in size and beauty of the flowers. Old bushes should be replaced with these new ones, or plant these in addition to the old-fashioned ones.

CHARLES X (Single)—Large heads of reddish-purple flowers. A strong, rapid grower.

JACQUES CALOT (Single)—Very large panicles of rosy pink flowers. The individual florets are unusually large.

PRESIDENT GREVY (Double)—A beautiful shade of blue. Individual flowers very large.

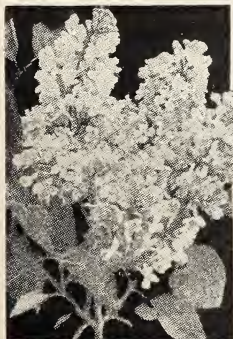

RENE JARRY-DESLOGES (Double)—Panicles very large. Perfectly formed flowers of a shade of beautiful blue rarely seen. An unsurpassed lilac.

VESTEL (Single) Enormous trusses of large, perfectly formed, pure white flowers, with reflexed lobes. No variety has finer flowers.

WM. C. BARR (Single)—Buds reddish lilac, opening silvery or pearly lavender. Individual flowers cup-shaped.

OUR OFFERS—These new French Lilacs in the usual way would be priced at \$1.50 to \$2.00 each. To encourage all the people to plant them, we offer these low prices.

18 to 24 inches, one 85c; any 3 for \$2.25; doz. \$7.50. 2 to 3 feet, one \$1.00; any 3 for \$2.50; doz. \$9.00. One of each (6) 18 to 24 inches, \$3.75; One of each (6) 2 to 3 ft. \$4.50.

Lilac

Privet Hedge instead of Fence

PRIVET

Plant a Privet Hedge. Enclose your grounds, but don't use expensive, perishable fences. Privets are cheaper, need no repairs, are prettier and last always. 100 Privet plants set 12 inches apart will make a hedge 100 feet long. (If you want a double-width hedge, set 18 in. apart in 2 rows.

CALIFORNIA—Well and favorably known variety.

12-18 in. doz., 60c; 25, \$1.20, 100, \$4.00.

18-24 in. doz. 75c; 25, \$1.50; 100, \$5.00.

2-3 ft. doz., \$1.00; 25, \$2.00; 100, \$7.00.

AMUR RIVER—Very hardy. Tops never winter kill.

12-18 in., doz. \$1.00; 25, \$2.00; 100, \$7.00.

18-24 in., doz. \$1.25; 25, \$2.25; 100, \$8.00.

REGELS—New. Makes a wonderfully attractive hedge without the trouble of trimming.

12-18 in., doz. \$1.25; 25, \$2.50; 100, \$7.50.

18-24 in., doz. \$1.75; 25, \$3.50; 100, \$12.00.

THE SPIREAS

There are no more dependable shrubs than Spireas. They all bloom with a riotous extravagance and the colors, forms and seasons of bloom differ so much, that a collection of these plants, alone, will insure blooms the whole season through.

Anthony Waterer

Blooms early spring and more or less until fall if fading blooms are cut away. Color pink. Each 50c; 3, \$1.25.

Spirea Van Houttei

Van Houttei

(Called Bridal Wreath)—Nearly every planted home has this plant and new homes are not complete without it. 18 to 24 in. 20c; 3 for 55c; doz., \$2.00; 2-3 ft., 35c; 3, \$1.00, doz. \$3.50.

Frobelle Spirea

Grows 2 to 3 feet high. Will flower in June and more or less during the summer. If cut back after first flowers fade will make another full bloom later. Give about one foot to a plant. Price, 2 year old field grown, one 40c; 3 for \$1.00; per doz., \$3.50.

Billardia

4 to 5 ft. Blooms July-Aug. Clusters of pink flowers. 12-18 in. 35c; 3 for \$1.00; doz., \$3.50.

Opulifolia

This magnificent Spirea grows 8 to 10 ft. tall until the heavy white flowers come in June making the branches droop. The flowers are followed by dark red seed pods. 12-18 in. 40c; 3 for \$1.10; doz. \$4.00; 18-24 in., 50c; 3 for \$1.25; doz., \$4.50.

WEIGELA**Eva Rathke**

Blooms May into July. Most desirable variety. 65c; 3 for \$1.50.

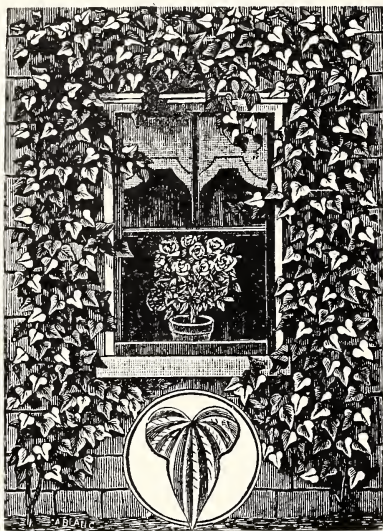

Spirea Billardia

Charming Climbers

For Every Situation—Once Planted, Last Always

There is always a place in the garden, on the porch or even on the house, and other places for vines or climbers. Many of them are extremely showy when in flower, others afford shade where needed and some even display beautiful foliage. Nothing can be more beautiful than a cottage clothed with some of the following climbing vines or climbing roses.

Cinnamon Vine Has dark green foliage and late in the season bears small white flowers of a delicious cinnamon fragrance and little bulblets which may be planted. Vines die down to the ground each autumn and grow up very rapidly in the spring. Each 10c; 6 for 50c; 15 for \$1.00. Large Tubers, 15c each; 4 for 50c; 10 for \$1.00. Mammoth size, 20c each.

Ampelopsis, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in Fall to a vivid autumnal tinge. Nothing is more beautiful than a cottage, out building, or even a church or business house covered with this vine. Each 40c; 3 for \$1.00.

Aristolochia (Dutchman's Pipe)—The brownish pipe-shaped flowers are very interesting but the heart-shaped leaves of great size are the most important feature as they quickly furnish the most complete leaf screen of any cultivated vine. Grows in sun or shade but prefers northern exposure. Entirely hardy. We do not advise one on every porch in town, but a few on every street wouldn't be too many. Each 75c; 3 for \$2.00.

Bittersweet (Celastrus Scadens)—A rapid growing vine, which has yellow flowers in early summer that produce bright orange colored fruits by autumn which remain on the stems all winter unless eaten by the birds. A handsome vine in summer, as well as bringing bright colors to the home in winter. Each 65c; 3 for \$1.50.

Clematis, Paniculata (White Flower) Perhaps no other vine can surpass this for rapid growth as well as big display of its white star-shaped flowers. 2 years, each 50c; 3 for \$1.25.

Clematis, Jackmanii (Purple Flower) Similar to above except the color of flowers. 2 years, each 75c; 3 for \$2.00.

Honeysuckle (Hall's Japan) Pure white and creamy yellow. Very fragrant. Each 40c; 3 for \$1.00.

Kudzu Vine One of the best hardy climbers, will run 30 to 40 feet in one season and cover almost everything within its reach. Profuse rosy-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

Silver Lace Vine

(Polygonum Auberti)

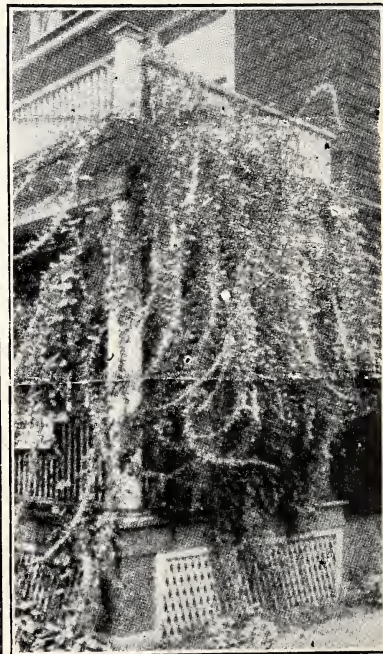

This is the latest addition to our list of practical hardy vines, a quick-growing type of twining habit averaging 25 feet in a season. Produces more than any other hardy vine, covering a season extending from late summer into the fall with an extravagance of large, foamy sprays in silvery white. 2 year plants, 75c each; 3 for \$2.00.

Maderia Vine A rapid growing vine that makes a dense foliage. Bears sweet white flowers. Grows well everywhere, but is partial to sunny location. Tubers, each 10c; doz., 50c. Protect tubers in winter or take them up and keep over in cellar.

Trumpet Vine (Bignonia Radicans) A very strong growing shrubby vine with rich foliage profusely set with trumpet-shaped flowers that are bright red. Blooms a long time. Entirely hardy. Each 40c; 3 for \$1.00.

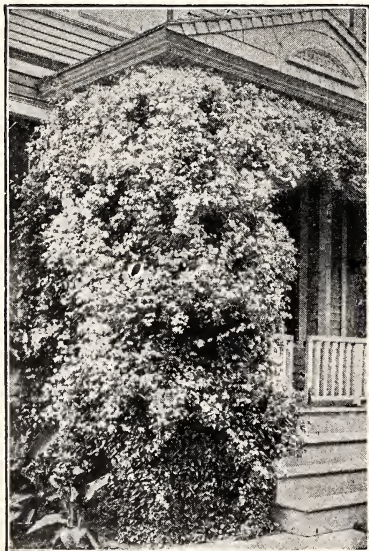

Wisteria One of the best vines for use on trellis, pergola or porch where a very tall, dense growing vine is desired. Bears drooping clusters of pea-shaped purple flowers. Each, 60c; 3 for \$1.50.

CORAL HONEYSUCKLE—See first cover page and page 63.

MATRIMONY VINE

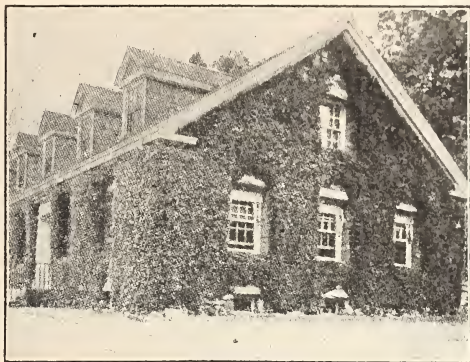

A vigorous, hardy climbing plant. It covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long. It will grow and thrive in any situation, either shade or bright sunlight. Strong plants, each 35c; 3 for \$1.00.

Clematis Paniculata

EUONYMOUS COLORATA

(AN EVERGREEN BITTERSWEET)

A MILLION DOLLAR VINE

A writer in Garden Magazine said: "If I had a million dollars to spare I would like to plant an Evergreen Bittersweet against every stone, brick or concrete and other wall in America. The effect would add 100 per cent to the beauty of America. And this would only be anticipating what will surely happen for it is hardly possible that the world holds any plant with greater power to transform a house into a home."

BRIEFLY STATED

It may be said to have six-fold glories. (1) It is Evergreen, therefore is beautiful 365 days of the year. (2) It is easy to grow as a ground creeper or a climber to the height of 20 to 30 feet. (3) It is not particular as to soil, climate or exposure. (4) It is harder than Ivy, therefore can be planted farther North. (5) Loaded with beautiful red berries which remain on the vines unless picked by the birds and redeem our winters from their bleak, cheerless mood. (6) It promises to become the universal vine as dear to Americans as Ivy is to Europeans.

Plant on good ground in sun or shade, and mulch with manure, water liberally the first year.

Price: Strong vines, each \$1.00; 3 for \$2.00; 6 for \$3.75; per doz., \$6.50. Give 4 to 6 feet space.

PLANTS ARE STRONGEST AND STURDIEST

Your nursery stock was received in A-1 condition. One could not tell, after replanting, that the roots had ever been disturbed, as they went right on growing. The butterfly bush is a wonder. It grew five to seven feet. It was admired by all who saw it, bloomed until frost and made beautiful bouquets. My roses were wonderful. The plants all considered, yours are the strongest and sturdiest I have ever had and I have bought quite a few. Will recommend your nursery stock to anyone.—Mrs. J. P. Boyer, Collinsville, Ill.

FINEST EVER RAISED

The Dwarf Mixed Nasturtiums from your firm were the finest ever raised—bloomed 'til frost. The finest thing about them was that they did not bear seeds, didn't have to gather them constantly to keep them from seeding. The colors were wonderful. I gave away great quantities of blooms. The Brazilian Morning Glories made a wonderful shade—The Golden Rose of China is going to be a marvel. I'm longing for spring so I can see it in blossom.—Mrs. Bertha Blachley, Bainbridge, Ind.

RECOMMENDS EVERITT'S BULBS

I received the Dahlia bulbs in fine condition. Every bulb grew and bloomed. American Beauty was exceedingly lovely and a continual bloomer all summer. It started among the first to bloom, came large, full and double and color was magnificent. "Brides Bouquet" and "Ora Dow" deserve honorable mention too. While the price was very reasonable, I feel safe to recommend Everitt's bulbs.—Mrs. William H. Bayer, Hamburg, Pa. R. R. 2.

WONDERFUL SUCCESS

I want to say that I had wonderful success with the O. K. Seeds purchased from you last season. In my order was included a package of Whipple's early white corn and it exceeded my expectation. Exactly sixty days after planting I gathered a dandy mess of corn, nice large ears of wonderful flavor. I also had a package of Perfection pop corn. Better popping corn I have never seen, and it matures so early.—Mrs. Luther Bradley, Paxico, Kansas.

BOUGHT FOR 15 YEARS

I have bought seed from the Everitt's Seed Store for the past fifteen years and have been to the store in person and bought many different varieties. Among them were the Giant Climbing Tomato, Beets, Golden Tankard and Blood Turnip, also got several pounds of Potato Onions. Everitt's O. K. Seed Store is the only place to get the real perfect Potato Onions.—Elzina Lafara, Osgood, Ind.

Plant Beautifully Foliaged Hardy Ferns

If each home owner would just take a look around the place he would be sure to see one or more spots that could quickly be converted from a drab unsightly place to one of rare and interesting beauty. Hardy ferns are of the easiest culture, and are at home where hardly another plant will succeed. A shady nook where the soil is moist and drainage good will prove an ideal location. Many places more or less shut out from sunlight may be converted into beautiful spots by these ferns. By the side of the house or in front of a porch where the sun hardly shines they will show their beauty for years and years, but do not plant them so close to the walls that the roof eaves will prevent them from getting moisture.

Adiantum Pedatum

(Maiden-hair Fern)—A graceful species, with large leaves, dark chestnut-brown stripes radially forked at the summit. One of the beautiful native Ferns. Grows 10 to 15 inches high.

Dicksonia Punctiloba

(Hay-scented Fern)—A handsome large fern with thin and delicate leaves, from one to three feet long. Stalks clustered, pale green and sweet scented, bearing many soft green lobed divisions. A very handsome species.

Osmunda Cinnamomea

(Cinnamon Fern)—A stately large Fern with very large creeping rootstalks. Leaves produced in circular cluster, bright green with lobed divisions, growing 3 to 5 feet tall. A very ornamental Fern.

Osmunda Regalis

(Royal Fern)—A vigorous tall-growing fern with good stout rootstalks. Fronds will measure a foot or more wide growing 2 to 5 feet tall, fruiting portions tufted at the summit.

Polystichum Acrostichoides

(Christmas Fern)—A beautiful evergreen Fern with densely chaffy stalks. Leaves deep green, 1 to 2 feet long.

Our Offer Any fern, 25c; any 3, 60c; any 6, \$1.00; doz., \$1.50. A set of the 5 for 50c; and as many sets as wanted at 50c each set. All delivered.

Maiden-hair Fern

Shade Trees

This list represents the best trees for lawns and street planting. The trees we will send will be too large to go by mail, but must go by express. An exception to this is the Chinese Elm, which we will deliver to and including 4 to 6 ft. sizes. Larger size not prepaid. We advise ordering 3 or more to save in express. May be of more than one kind.

CHINESE ELM

The Coming Shade Tree of America.
LUXURIOUS SHADE IN FIVE YEARS.

A million homes were built last year. Each one of them and others, want beautiful shade trees as soon as possible. You need not wait 15 to 20 yrs. It succeeds in all parts of the U. S., including the semi-arid regions; makes a fine showing even under neglect and on poor ground. Is the first to put out leaves in Spring and the last to drop them in Fall. Dense dark-green foliage with delicate, graceful sprays similar to Cut Leaf Birch. Should interest every home owner, also real estate men, park boards and cemetery associations. With no other tree can homes enjoy the luxury of shade in such a short time.

Prices, 2 to 3 ft. seedlings 50c, 10 for \$2.50; 3 to 4 ft. transplanted, \$1.25; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00; 8 to 10 ft., \$4.00; all delivered.

Soft Maple

Valuable for quick growth and shade producing. Is a very handsome tree. \$1.00, 3 for \$2.50.

Hard or Norway Maple

A very handsome maple which grows slower than the preceding one, but makes up for the delay in its ultimate beauty. \$2.25, 3 for \$6.25.

Lombardy Poplar

An outstanding feature because of its great height and slender form. Very rapid grower. \$1.00; 3 for \$2.50.

Birch, Cut Leaf Weeping

Grows tall, slender with graceful drooping habit. Bark silvery white. Presents an appearance on a lawn seldom equaled. \$2.50; 3 for \$7.00.

Weeping Willow (Babylonica)

—A graceful tree, grows large or may be headed in as desired. This would not be a bad slogan, "A Willow Tree on Every Lawn." \$1.00; 3 for \$2.50.

Catalpa Bungeii (Umbrella Tree)

—A well known and admired tree flourishes in all soils. 6 ft. stem \$2.00; 3 for \$5.00.

"The Chinese Elm trees bought from you last Spring are the fastest growing trees I have on my place. They are all you claim for them and perhaps more too."—H. Bible, Atlanta, Georgia.

In these times when evergreens are becoming so popular no person, having charge of a lawn, park or other ground should neglect the evergreens. They are beautiful in themselves, 365 days of the year, and they furnish the "color" which sets off the rest of the planting. The following list comprises some old familiar sort and the best of the dwarf low growing newer varieties. The sizes are just right for successful transplanting. All will be delivered at prices listed. 3 or more may be of assorted kinds.

23 Numerals refer to illustrations.

Juniperus Chinesis (3)—Compact pyramidal tree grows about 20 ft. high. Plant 10 ft. apart. 8 to 12 in., twice transplanted. 75c; 3 for \$2.00; per doz., \$6.50.

Juniper, Savin Grows about 4 ft. high. Branches many, dense, well-clothed with foliage. Plant 4 to 6 ft. apart. 10 to 12 in., twice trans. \$1.00; 3 for \$2.50; per doz., \$7.50.

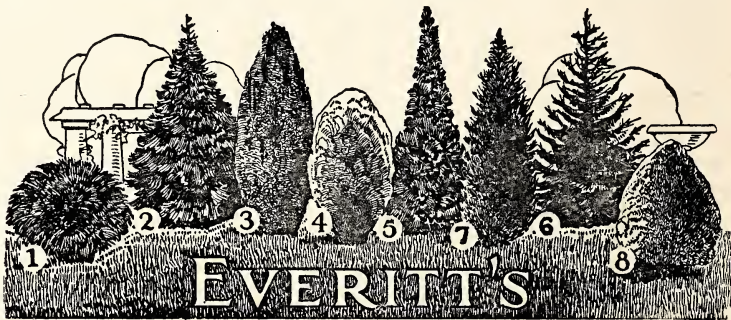

Juniperus Chinesis Pfitzeriana (1)—One of our most valuable evergreens. Thrives under nearly all conditions of sun, shade and soil, north, east, south and west. 8 to 10 in. once trans. 75c; 3 for \$2.00; per doz. \$6.50.

Colorado Blue Spruce (2)—One of the finest evergreens. It is always admired for its symmetrical shape and beautiful color. 10 to 12 in. once trans. 50c; 3 for \$1.25; per doz. \$4.00.

Norway Spruce (7)—Can be pruned to any desired height, but naturally grows tall. 10 to 12 in. Twice transplanted, 75c; 3 for \$2.00; per doz., \$6.50.

White Spruce (5)—Attains height of 25 to 50 ft. Does well in all situations and ground conditions. 1 to 1½ ft. \$1.00; 3 for \$2.50; per doz., \$7.50.

Black Hill Spruce Symmetrical, compact and bushy of growth. Even the small trees soon form round, compact bodies. 8 to 10 in. Once trans. 75c; 3 for \$2.00; per doz., \$6.50.

ORNAMENTAL EVERGREENS

Austrian Pine (6)—One of the best for planting in districts affected with smoky atmospheres and coal gas, by the seashore and of course, inland places. 10 to 12 in. twice trans., 75c; 3 for \$2.00; per doz., \$6.50.

Mugho Pine The many stemmed, dwarf growing broad spreading type. Attracts much attention. 6 to 8 in. Twice trans. 75c; 3 for \$1.00 per doz., \$6.00.

American Arborvitae Grows bushy at bottom and tapers to top. Foliage soft and deep green. 18 to 24 in. Twice trans. 75c; 3 for \$2.00; doz., \$6.50.

Pyramidal Arborvitae Grows to 15 to 20 ft. 1 to 1½ ft. usually about 2 ft. in diameter at base, compact, narrow and pyramidal. 1 to 1½ ft. Twice trans. \$1.00; 3 for \$2.50; per doz., \$7.50.

Golden Arborvitae (Berkman) (4)—Grows 6 to 8 ft. compact and bushy. Noted for its fine form and color. 8 to 10 in. Once trans. 75c; 3 for \$2.00; doz., \$6.50.

Globe Arborvitae (8)—An old favorite. Round, bushy, compact. 8 to 10 in. \$1.00; 3 for \$2.50; doz., \$7.50.

Fruit Trees, Berry Plants and Grape Vines

Our Fruit Trees are 3 to 4 feet, about the largest size that can be mailed. They have lots of fibrous roots and a healthy top, just right to grow. Much more certain to grow than larger trees which usually lose some fibrous roots in digging. The varieties are all such as you can rely upon to give the utmost satisfaction. Prepaid at prices.

APPLE TREES

Price of all Apple Trees, each 40c; 3 for \$1.00; doz., \$3.50; 100 for \$25.00.

EARLY SUMMER VARIETIES

Early Harvest—Pale yellow.
Yellow Transparent—White to pale yellow.

LATE SUMMER VARIETIES

Maiden Blush—Yellow with red blush.
Fall Pippin—Large yellow, rich.

FALL AND WINTER VARIETIES

Baldwin—Bright red, sub-acid.
Delicious—Large, bright red, blending to golden yellow.
Grimes Golden—Golden yellow.
Jonathan—Beautiful, clear light yellow.
McIntosh—Deep crimson, highest quality, sub-acid.
Rome Beauty—Large yellow, shaded bright red, juicy.
Winesap—Dark red, sub-acid. Splendid.

CRAB APPLES

Hyslop—Large yellow to crimson.
Yellow Siberian—Medium yellow.

PEACHES

Price—Same as Apple Trees.
Champion—White flesh, free, August.
Carman—White flesh, free, August.
Elberta—Yellow flesh, free, Sept.
J. H. Hale—Mammoth size, yellow flesh, free. Be sure to plant a Hale. September.
Heath's Cling—If you want a clingstone peach, this is the best. October.
Crawford Early—A magnificent, large, early, yellow peach, early September.
Crawford Late—Same as the early, but some larger. Late September.

APRICOTS

Price—Each 50c; 3 for \$1.25; doz., \$4.50.
Superb—Early.

PEARS

Price of all Pear Trees, each 45c; 3 for \$1.25; doz., \$4.00; per 100, \$30.00.

SUMMER VARIETIES

Bartlett—Yellow with blush.
Clapp's Favorite—Yellow, about 1 week earlier than Bartlett.

FALL VARIETIES

Seckle—Small, crimson cheek.
Sheldon—Yellow with shaded cheek, juicy, first quality.
Keiffer—Yellow and crimson, with russet. Will keep until January.

CHERRIES

Price—Each 50c; 3 for \$1.25; doz., \$4.50; per 100, \$40.00.

Black Tartarian—Late sweet. June.
Early Richmond—Sour. July.
English Morillo—Reliable bearer. Dark red, acid. August.
Napoleon—Sweet, yellowish red, juicy, productive. July.
Montmorency—Late, tart, late June. Each 60c; 3, \$1.50; doz., \$5.00.
Windsor—Large, liver color, late; very valuable for family or market. July.

QUINCES

Price—Each 75c; 3 for \$2.00; doz., \$7.00.
Champion—Greenish yellow.
Meeche's Prolific—Bright yellow.

PLUMS

Plum trees should not stand singly as two or more are needed to fertilize the blossoms.
Price—Same as Pear Trees.
Green Gage—Greenish yellow. August.
German Prune—Large, long, oval, purple; flesh sweet. Does not cling to stone. Sept.
Abundance—Red. August.
Burbank—Reddish purple. Aug.
Lombard—Violet red. August.
"Reine Claude"—Large green, red cheek, hang long on the tree, one of the best. Late September.

Delicious

Shropshire Damson—Dark purple. Very prolific, fine for preserves. October.

NEW PLUMS

These remarkable new plums were originated in the cold northwest. If you have no plum trees you should not let another season go by without setting some of these.

Waneta Skin red, flesh yellow. Delicious flavor and suitable for all uses to which plums are put at home and to market. Size is "mammoth". With reasonable cultivation they grow as large as a good peach or a medium-size apple with a small pit. Price, 3 to 4 ft., each 50c; 3 for \$1.25; doz., \$4.00.

Sapa Skin green, then turns black and the flesh is royal purple. Delicious as a fresh fruit and excellent for preserves and jelly. Good shipper. Price, 3 to 4 ft., each 50c; 3 for \$1.25; doz., \$4.00.

RASPBERRY

PRICE of all Blackberries—Each 15c; 2 25c; 12, \$1.00; 100, \$4.50, delivered.

Columbia—Red.

Cuthbert—Red.

Plum Farmer—Black, large berries, one of the best early sorts for home and market.

Gregg—Black, well known market sort, large and very productive.

St. Regis—Crimson.

BLACKBERRY

PRICE of all Blackberries—Each 15c; 2 for 25c; 12, \$1.00; 100, \$5.00, delivered.

Blower—Jet black, large size, best quality. Home or market.

Eldorado—Very large, fine.

Snyder—The hardiest.

CURRENTS

We can sell Currants only in Indiana.

PRICE—Each 25c; 3 for 65c; 12 for \$2.25.

Fay's Prolific—Red, very large.

Wildner—Red, unsurpassed for all purposes.

White Grape—White, large, excellent quality.

Branches from Sapa Plum Tree showing the prolific bearing of fruit.

Keep in mind that we deliver to you at the prices and guarantee safe arrival.

STRAWBERRY PLANTS

Send your orders for strawberry plants to us. We can supply you with the best plants that can be produced and will guarantee to get them to you in good condition, or will replace, if report is made in 3 days. In this way you will make the right start which will be a great thing toward profitable crops. All our varieties have "Perfect" blossoms. All prices up to 500 are delivered. 1000 lots not prepaid.

No difference where you live. We send strawberry plants everywhere.

Everbearing Mastodon Strawberry

Reports from the people who have grown this Strawberry would seem to prove that it is the most wonderful Strawberry ever produced. It is of the everbearing type, a vigorous grower, bears all season and berries hold their size. The berry is extra large—18 have filled a quart. Color, dark, glossy red and its red color extends all through the berry. There are other berries with better flavor, but when the large size, continuous heavy bearing, attractive color and good quality are taken into consideration, the Mastodon points ahead of all others.

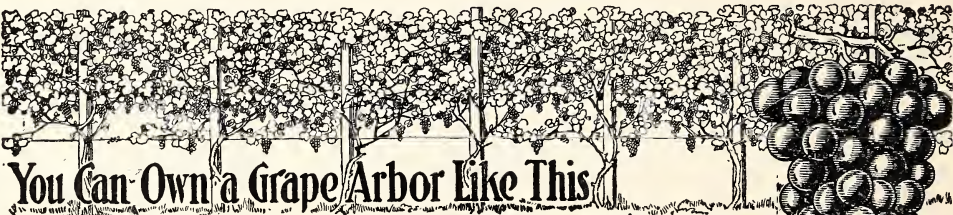

Price, doz., 50c; 25 for \$1.00; 50 for \$1.50; per 100, \$2.75; 1000, \$20.00.

Strawberry Plants, by Mail Everywhere

Best Varieties of Grape Vines

Of all fruits the Grape is the most universally grown. It is of easy culture and adapts itself to nearly every climate and condition. It requires little ground room, but produces its crop up in the air. Every home should have and can have a half dozen or more vines on arbors, or on the garden fence. Grapes are strong yielders, delicious to eat and fit in many ways into the home economics. Besides, if grown in quantities to spare, they are moneymakers, \$500 having been realized from 100 vines in one year.

You Can Own a Grape Arbor Like This

Price—2-year old vines, each 20c; 3 for 50c; 12 for \$2.00; unless priced otherwise.

BLACK GRAPES

- Concord** Black, large, very yeldy. Most popular of all grapes.
- Moore's Early** Black, early. Like the Concord, as large and good but earlier.
- Worden** Resembles Concord, but larger. Ripens earlier.
- Ives** Black. Best for red wine.

RED GRAPES

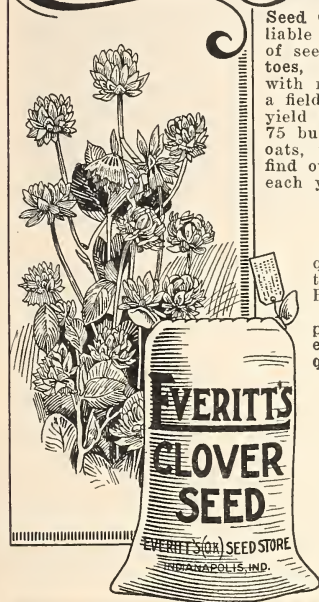

- Catawba** Red, late; a great wine grape.
- Delaware** Red, exquisite little grapes. Best quality. Best for white wine.
- Lucile** From the multitude of varieties we are offering the new LUCILE as a variety unsurpassed for home and market. It has all that can be asked for in appearance, color and size of bunch, with the most delicious flavor. The grapes are medium in size, on mammoth bunches. Four bunches have more than filled a four-quart basket. The vine is extra hardy, which coupled with being extra early, adapts it for our Northern sections. It has never been known to winter-kill. We have a colored plate of Lucile which we will be pleased to send on request. **REGULAR PRICE, \$1.00. SPECIAL PRICE, one, 50c; 3 for \$1.00; doz., \$3.00.**

WHITE GRAPES

- Niagara** White. The standard white grape, as large as Concord.
- Winchell** Comparatively new. One of the earliest of all, hardy, productive. Each 25c; 3, 60c; doz., \$2.00.

"SUPERIOR PRODUCTIONS"

That is a good motto for American farmers. Superior Productions are brought about by Superior Seeds, Superior Fertilization and Superior Cultivation, but chief and most important of these is **SUPERIOR SEED.**

We have always made a Great Specialty of **IMPROVED FARM SEEDS**, including Grass and Clover Seed, Seed Corn, Seed Oats, Seed Potatoes, etc. These are the Money Crops on nearly all farms, and are liable to degenerate very rapidly without proper care, or judicious and frequent change of seeds. The difference between the poor or ordinary varieties of corn, oats, and potatoes, as grown on the majority of farms, and the best varieties that could be grown with no extra expense is really surprising. For instance, you have seen side by side, a field of wheat yield 40 bushels per acre and another 15 bu.; side by side potatoes yield 200 bu. per acre and another kind less than 100 bu.; or one kind of corn yield 75 bu. and another kind under like conditions less than 50 bu. Then what corn, what oats, what potatoes, good farmer, will give the best yields? Isn't it worth while to find out? Or, don't you believe there are such differences? A few dollars invested each year will keep any farmer right up to date on improvements.

Grass is KING, Clover is QUEEN

The most successful farmers are those who possess large meadows of a high quality of grasses. Oftentimes the low price of grain fails to net satisfactory returns. Stock growing is more profitable. Hence, seed more ground to meadows. Raise more stock.

All prices of Grass and Clover Seed are subject to changes of the market. The prices quoted herewith are ruling on day of closing this catalogue. Bags, extra for each 2½ bushels or less, 35c each. 1 to 4 pounds are prepaid by mail. Larger quantities by freight or express, not prepaid.

CLOVER SEED

The Clovers have justly been called the "Cornerstone of Agriculture" in the Northern, Eastern and Central States.

All Clover Seed should be inoculated before sowing.

Medium Red Clover

SOY BEANS

The cultivation of this crop is increasing rapidly. Wherever it has been introduced, it is proving to be one of the most valuable grain and forage for stock. Also, a crop of Soy Beans equals a crop of clover for enriching the soil. Soy Beans as a feed take the place of oil or gluten. Fed to milch cows and for fattening hogs, they give wonderful results. Plant when ground is warm, same time as corn. Inoculate Soy Bean Seed.

Manchu

Plants stout, erect, bushy. Matures in about 110 days. Seeds yellow, about 2,350 to pound. Recommended to grow for the seed crop, for pasture and for silage. $\frac{1}{4}$ bu., \$1.00; $\frac{1}{2}$ bu., \$1.75; bu., \$3.00; 5 bu. at \$2.90.

Dunfield

Plants stout, erect bushy. Matures in about 110 days. Seeds yellow, about 3,175 to pound. Recommended to grow for the seed crop, for pasture and for silage. $\frac{1}{4}$ bu., \$1.00; $\frac{1}{2}$ bu., \$2.00; bu., \$3.75; 5 bu. at \$3.60.

Midwest

or Hollybrook. Plants stout, erect, bushy, matures in about 115 days. Seeds yellow, about 3,675 to pound. Recommended to grow for the seed crop, for pasture, for hay and for silage. $\frac{1}{4}$ bu., \$1.00; $\frac{1}{2}$ bu., \$2.00; bu., \$3.75; 5 bu. at \$3.60.

Ito San

Plants stout, erect, bushy. Matures in about 110 days. Seeds yellow, about 3,325 to pound. Recommended for the seed crop and for hay. $\frac{1}{4}$ bu., \$1.00; $\frac{1}{2}$ bu., \$2.00; bu., \$3.75; 5 bu. at \$3.50.

Wilson

Plants slender, erect. Matures in about 120 days. Seeds black. About 5,025 to pound. Recommended to grow for hay and for silage. $\frac{1}{4}$ bu., \$1.00; $\frac{1}{2}$ bu., \$2.35; bu., \$4.50; 5 bu. at \$4.40.

COW PEAS

The Great Soil Improver. Cow Peas, like Clover, Vetch, Soy Beans, etc., have the property of taking nitrogen from the air and storing it in the soil. Whether the whole vine and root are used for fertilizer, or the vine is used for feed, any land that produced a crop of Cow Peas has improved in its contents of fertility. Inoculate Cow Peas before sowing.

INOCULANTS

The seed of all legume crops can and should be inoculated before planting. We mention these crops: All Clovers, Alfalfa, Vetches, Peas, field (cow peas), garden and sweet; Beans, including garden, soy and field; and Peanuts. To apply fresh virile inoculant to all such seed will increase the crop even on soil that will produce a reasonable crop without.

McQUEEN "DUST-COTE" INOCULATION

Within the past year progress has been made in the method of inoculating and now, instead of fussing with a liquid process, this dry (dust) inoculant is put with the seed and the mass agitated until the seed is coated with it. A simple process, little work, only a trifling expense, and quickly done. Good results guaranteed or money refunded.

REDUCED PRICES

Tremendous sales on McQueen's Inoculator enables us to offer this quality merchandise at the following postpaid prices.

FOR CLOVER AND ALFALFA

$\frac{1}{2}$ bushel size Inoculates	30 lbs. seed	\$0.50

This inoculant comes in dust form and is no trouble to apply. Read carefully above to know what crops to use it on.

Landscape Beauty

A beautiful lawn completes the setting of home, clubhouse or factory building. To keep the lawn beautiful, as time goes on, it should have a "sprucing up" every Spring with fresh seed and possible fertilizers.

QUICK GROWING LAWN GRASS

is the kind to use. Nearly all of the beautiful lawns in Indianapolis have been made with this seed. It is a mixture of 8 of the best lawn grasses, so as to balance it to meet all requirements of soil and season. Not a pound of filler is used in a ton. All grass and clover seeds. Use it freely and have a green and velvety lawn all summer.

QUICK GROWING FOR SUNNY LAWNS, delivered. Lb., 45c; 3 lbs., \$1.25; 10 lbs., \$3.50. Not delivered, 10 lbs. or more at 30c per lb.

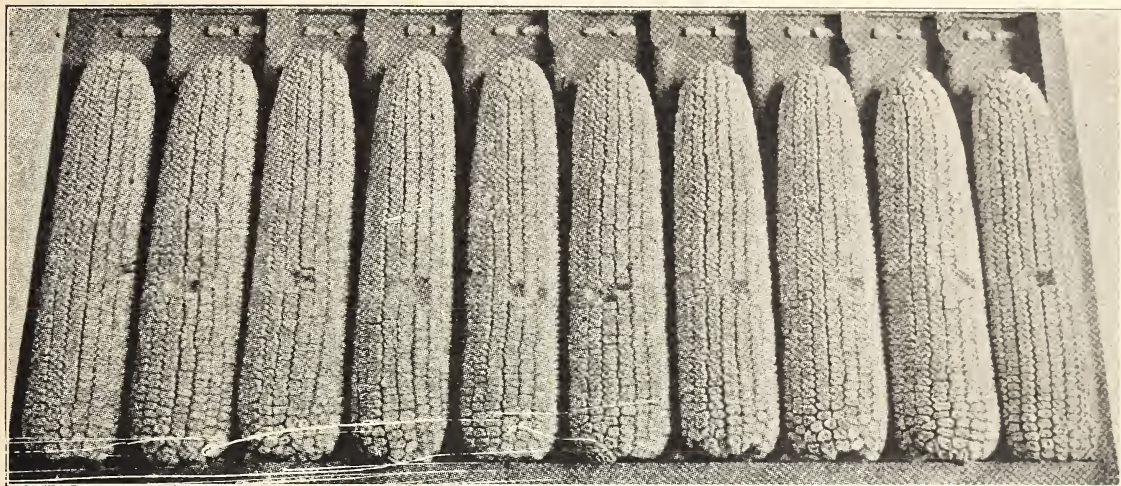

QUICK GROWING FOR SHADY LAWNS, delivered. Use this if lawn is much shaded. Lb., 55c; 3 lbs., \$1.50; 10 lbs., \$4.00. Not delivered, 10 lbs. or more at 35c per lb.

For a new lawn sow 1 lb. to about 200 square feet. To renovate an old lawn, 1 lb. to 400 sq. ft.

Indiana Seed Corn

Is the Best in the Country

We know that INDIANA CORN is the best produced in the country and suited to farmers over the widest range of territory. We do not recommend our largest varieties for northern latitudes, nor our smallest varieties for southern latitudes, but we have kinds suited for the North, South, East and West. Indiana has been capturing nearly all the prizes at corn shows for many years in competition with growers not only in this country but throughout the world.

FARMERS' INTEREST

WHITE DENT [Also called Johnson County White Dent]

Every Farmer knows it pays to plant good seed. Every farmer should know that there is a great difference in seed. If by changing seed corn to a better variety you can increase the yield 10 bushels per acre, it means the payment of the rental of the land over and above your regular crop. An increase of 15 to 25 bushels per acre is not at all impossible. The cost to get the maximum crops in corn is very trifling indeed. A bushel of seed will plant about 8 acres, and the cost will be about 50c an acre. The plowing, pulverizing, planting and cultivating are exactly the same, whether you raise 40 bushels or over 80 bushels per acre. The only extra labor is in harvesting, a task that should be willingly performed.

FARMERS' INTEREST WHITE DENT

Is the grandest, most valuable variety of white corn in the country. A strong growing variety, sending its roots out in all directions in search of food. Withstands drought well on this account; stalks are strong, close jointed and

leafy. A fine grower. Produces mammoth ears. Grains are very deep, ranging $\frac{1}{2}$ to $\frac{3}{4}$ of an inch in length in middle of the ear. Color pure white; firm and good texture; cob medium size. The ears frequently shell 1 pound of Corn to the ear, and cobs from 1 bushel of ears weigh from 8 to 10 lbs. Ears 18 to 24 rows. Ears of this variety are well filled out at the ends. Matures in about 115 days. Yields very heavy.

CORN GROWERS
Read this department of
seed corn
CAREFULLY.

As the introducers of this fine Corn, we desire to make a demand for it by reasonably extolling its merits. We will, however, appeal more directly to the good, sound sense of Corn-growers, than to attempt to fill the pages with claims for the Corn. The Corn will speak for itself, from the time

you receive the seed we will ship you until it is finally stored in the bursting cribs. We want the better class of intelligent, up to date farmers, and those who are seeking for improvements in their crops, as our customers, and count upon an order from every grower who wants to plant wisely and reap abundantly.

The effect of growing a large-eared variety of Corn like Farmers' Interest can be illustrated as follows: The average weight of Corn ears is not more than 8 ounces. If an increase of 2 ounces to the ear be secured, there will be added to the yield per acre $\frac{1}{4}$ more. And if there be four ounces added to the weight of ears, then the yield will be increased $\frac{1}{2}$.

When the Farmers' Interest Corn is grown in the South new seed should be obtained of us after two or three years, as it gets later and loses some of its good qualities.

PRICE By Parcel Post, lb., 30c; 4 lbs., \$1.00; By freight or express; $\frac{1}{4}$ bu. \$1.25; $\frac{1}{2}$ bu. \$2.25; bu. \$4.25; 5 bu. or more at \$4.00 per bu.

GOOD SEED CORN IS SCARCE

Because of the extremely hard freeze the last of November, and zero weather several times since, with no drying fall weather, the germ in nearly all the corn was killed. Acquaint yourself with the true condition and prepare for planting time.

THINK ABOUT IT

Mr. Corn Grower:

Dear Sir:—Please study the following table showing acreage, seed required and result, if by using better seed the yield can be increased 10 bushels per acre.

State	Acreage	Average Seed to plant			Increase (10 bu. per acre)
		Yield	Bushels	(10 bu. per acre)	
Illinois	7,140,000	37 Bu.	1,020,000	71,140,000	
Indiana	4,032,000	38 Bu.	576,000	40,032,000	
Iowa	8,049,000	38 Bu.	1,149,855	80,490,000	
Kansas	8,625,000	19 Bu.	1,232,143	86,250,000	
Missouri ..	6,454,000	28 Bu.	922,000	64,454,000	
Nebraska ..	8,094,000	26 Bu.	1,156,286	80,940,000	

It is discouraging to note the low average yield. The yield can be increased at least 10 bushels per acre by using better seed.

From All Over The Country

We do not give full address, as thus we would direct trade to our customers of former years.

KENTUCKY

I planted a field of your Farmers' Interest Corn last spring and the result was a revelation to me and my neighbors, when we found we could send to Indiana and get seed corn that excelled our native varieties. We thought we grew good Corn, but your Farmers' Interest is yielding 110 to 120 bu. per acre, and surpass the best of other Corn by 25 to 30 bus. per acre.

C. W. W., Breckenridge Co., Ky.

INDIANA

Farmers' Interest Corn is yielding 95 to 100 bus. per acre. Four of my neighbors, who are also growing it, all are getting over 100 bus. per acre. These are not exaggerated reports, but actual facts. C. A. B., Indiana.

I started this morning for your place with two of the finest loads of Corn that ever were seen. The Farmers' Interest Corn is yielding 100 to 120 bus. per acre all over my fields. Nothing like it ever seen in this section before.—L. B., Indiana.

I grew 50 acres of Farmers' Interest Corn, and the yield over the whole field was 90 to 105 bus. per acre, a total of 4,948 bus. on the field. It matured very early; ears mammoth size. It surpassed any other variety in this vicinity. C. A. H., Ind.

ILLINOIS

I planted a field of your Farmers' Interest Corn last spring and it has astonished us farmers all through the

season in rapid strong growth. I topped it when ripe and such a field of mammoth corn ears I never saw before. It is good for over 100 bus. per acre. I don't think there can be a better. W. P. R., St. Clair Co., Ill.

KANSAS

In a visit to my brother in Kansas, he showed me a field of your Farmers' Interest Corn. I must say I never saw its equal in Indiana, nor on the way to Kansas and return. The ears were arms of giants. He wrote me the yield was 114 bushels per acre. I would have guessed it at more, if it was possible for more corn to grow on an acre.

A. M. T., Knox Co., Ind.

TENNESSEE

Farmers' Interest Corn is the largest, heaviest and best White Corn I ever grew. On a test 50 ears made a bushel. The cobs weighed 12 lbs. J. W. Maury Co., Tenn.

MISSOURI

Having seen a crop of F. I. Corn grown from one ear, I write you early to save me 4 bushels of it for seed, and quote your price. It is the greatest corn I ever saw. A. R., Miller Co., Mo.

IOWA

28 Acres of F. I. Corn yielded 2,430 bus. of the finest White Corn grown in this section. C. F. P., Co., Iowa.

MARYLAND

Farmers' Interest Corn has taken our section by storm. It is the greatest ever seen here. S. B. O., Prince George Co., Md.

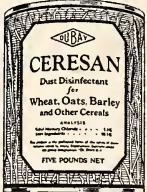

A Proved Way to Increase FARM YIELDS

SEED DISINFECTANT

Controls Seed-borne Diseases of Farm Crops. Stimulates Germination. Improves Stands, Increases Yields, Permits Earlier Planting. Fewer Barren Stalks. Costs Little, Easy to Use. Full Directions.

Keep it on hand and disinfect all seeds before planting. A cheap crop insurance.

EV-ER-IT BRAND

REID'S YELLOW DENT

SEED CORN

Years of seed selection and breeding of this universally popular variety of corn, here in central Indiana has developed a type of yellow corn that approaches nearer perfection than has ever been reached elsewhere. Such breeding has made it possible for central Indiana Reid type of corn to win the big majority of prizes and medals for yellow corn at the great shows for many years.

The EV-ER-IT brand or type maintains the large ear of the variety with even deeper and more solid grain and an earlier maturity of about 10 days, or about 105 days. The ears are 8 to 10 inches long, 16 to 18 rowed medium cob with very deep beautiful yellow grains. No corn grower can afford to continue to grow Reid's corn of a type that is "run out" when he can get our seed at our moderate price. An improvement of $\frac{1}{2}$ bu. to the acre will pay the extra cost, or less than this, when you consider your own corn is saved. We invite growers to procure our Reid's corn and compare the crop with what they have been growing.

Price, prepaid, 1 lb. 30c; 4 lbs., \$1.00; Not prepaid, $\frac{1}{4}$ bu. \$1.25; $\frac{1}{2}$ bu. \$2.25; 1 bu. \$4.25; 5 bu. or more at \$4.00.

DISINFECT YOUR SEED CORN

The diseases of corn can be controlled and prevented by using Seed and Soil Disinfectants. Examples are numerous where seed corn was treated and marked rows with non-treated seed and the difference in favor of the treated seed could be seen to the row all through the growth and the yields of the crop. See page 56 for full particulars.

Two Good Crops.

The two crops represented on this page it will pay all good farmers to grow. They are Good Corn and Good Children.

O. K. Seeds Produce Good Crops

J. A. EVERITT,
SEEDSMAN

MORTGAGE LIFTER CORN

MAKES MONEY GROW AND MONEY WILL LIFT THE MORTGAGE, IF ONE

Do you take pride in your corn crop?
Do you want to grow the finest yellow corn in the country?
Do you want to grow the largest crop that your land is capable of producing?
In short, do you want to make more money, through growing more corn?

MORTGAGE LIFTER CORN is the corn that will do these things for you. It is a corn that you will take pride in growing. We know Mortgage Lifter Corn will do all that seed can do for you and give you the maximum crop your land is capable of producing. It is a strong grower and on rich soil makes yields 75 up to 100 bushels to the acre. We have introduced several varieties of corn, chief among which is the great white corn, Farmer's Interest. Mortgage Lifter is taking a place among yellow corn that the Farmer's Interest occupies among whites—the most productive, hence the most profitable variety to grow.

We want to sell enough of this corn to each corn grower who receives this catalogue to plant at least one field, where our claims will be proved and favorable comparisons made with the varieties you are now growing. 105 day maturity.

PRICE, 1b. 30c; 4 lbs., \$1.00, prepaid. Not prepaid, ¼ bu. \$1.25; ½ bu. \$2.25; 1 bu. \$4.25; 5 bu. or more at \$4.00 per bu.

Pride of the North Extra Early Yellow Dent—This is frequently called "90 Day" Corn because of its rapid growth and early maturity. It is a variety that is suited right up to the Northern border of the corn belt and to very late planting in Southern latitudes. Shelled corn only.

PRICE—By mail postpaid: 1 lb., 30c; 4 lbs., \$1.00. By freight or express: ¼ bu., \$1.00; ½ bu., \$1.75; 1 bu., \$3.25; 5 bu. at \$3.00.

ENSILAGE CORN

St. Charles White The Famous Red Cob Ensilage Corn. This is a double purpose corn. While it is probably planted more extensively for ensilage than any other corn, its value as a grain-cropping corn should be kept in mind.

Price—By mail postpaid: 1 lb., 30c; 4 lbs., \$1.00. By freight or express: ¼ bu. 75c; ½ bu. \$1.25; 1 bu. \$2.25; 5 bu., at \$2.15.

Eureka Ensilage Besides being one of the very best ensilage corns it ranks high as a grain corn.

Yields heavily. It should be planted on strong ground when the stalks will grow 12 to 15

ft. high and very leafy.

1b. 30c; 4 lbs. \$1.00;

½ bu. \$1.25; 1 bu.

\$2.25; 5 bu. at

\$4.00 per bu.

100 DAY YELLOW DENT

A dependable yellow corn that matures in a season that will recommend it to growers in the central corn belt. If you feel the need of an early type of corn, we recommend this. The ears are fine size 16 to 20 rows with deep grains of splendid texture. Also, it can be relied upon to make a fine yield. Stalk medium size.

We have a good supply of this early variety and can probably supply seed of it when some other varieties may be exhausted, so we suggest that it might be selected as a second choice if we should be sold out of first choice.

Price, 1b. 30c; 4 lbs. \$1.00; postpaid. Not prepaid, ¼ bu. \$1.25 ½ bu. \$2.00; 1 bu. \$3.75; 5 bu. or more at \$3.50 per bu.

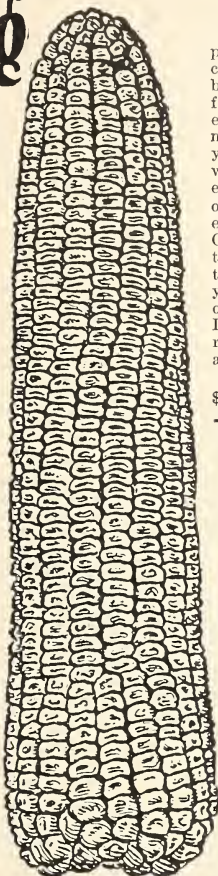

FIGURES AND FACTS

Prove that the expense of planting our varieties of Corn is about 50 cents per acre, including freight, and your own seed is saved.

OLD FASHIONED LEAMING

FOR EARLY MATURITY AND BIG YIELDS
PLANT SOME OF THIS

**Leaming
Early
Yellow
Dent**

We call this Old-Fashioned Leaming because it is the true type as produced by Mr. Leaming of Ohio and is the oldest distinct type of corn grown. Leaming corn grows a stout, heavy stock with numerous broad leaves and bears one or two medium to large ears. The heavy foliage makes it a splendid variety for ensilage. It produces a heavy ear with strong shank and an open butt. The ear is tapering, grains medium rough, rich in PROTEIN and OIL. The COLOR is a golden yellow. Length of ears 8 to 11 inches, circumference $7\frac{1}{2}$ to 8 inches, weight 12 to 17 ounces. Each ear has from 16 to 20 rows of moderately deep kernels. Red cob. This corn gives universal satisfaction over the entire corn belt. Leaming is the kind that fills your cribs each season. Plant two grains to hill and get wagon loads of big ears. One bushel will plant 8 to 10 acres. This makes the cost of seed less than 50c per acre. An increase of one-half bushel per acre pays for the seed. You should get from 5 to 15 bushels per acre increase. The yield usually surprises the grower. For the live stock farmer on rich or poor land and for any farmer on any land, we cannot recommend Leaming too highly. Due to the frequency of bad seasons this variety is everywhere being sought after now because it matures in about 90 to 100 days and makes heavy yields.

Price—Lb., 30c; 4 lbs., \$1.00, delivered. Not delivered, $\frac{1}{4}$ bu. \$1.25, $\frac{1}{2}$ bu., \$2.25; 1 bu. \$4.25; 5 bu. or more at \$4.00 per bu.

Ten-to-one White Dent

(Meaning 10 lbs. of Corn to 1 lb. of Cob. Illustrated Below)

The one purpose of the originator of this corn was to produce an Extra Early White Dent Corn that would yield as much grain as the later varieties. There is a place on every farm for this valuable corn. Some farmers now plant no other kind. While it is early maturing, it is not exactly a small-eared variety. Ears frequently grow 10 inches long and weigh 12 to 14 ounces. The illustration from a photograph, but reduced in size, shows very well the appearance of an ear, the shelled corn and the cob. Matures in 90 days.

WE SUMMARIZE ITS GOOD QUALITIES AS FOLLOWS:

Extra Early.

The heaviest yielding early variety.

It will make a better crop on thin soil than other white corn.

When planted early, it makes very early feed.

It is suited for the latitude of Southern Michigan and all south.

Just the kind to plant late, when delayed because of unfavorable season, or when other corn failed, or after early spring crops are removed.

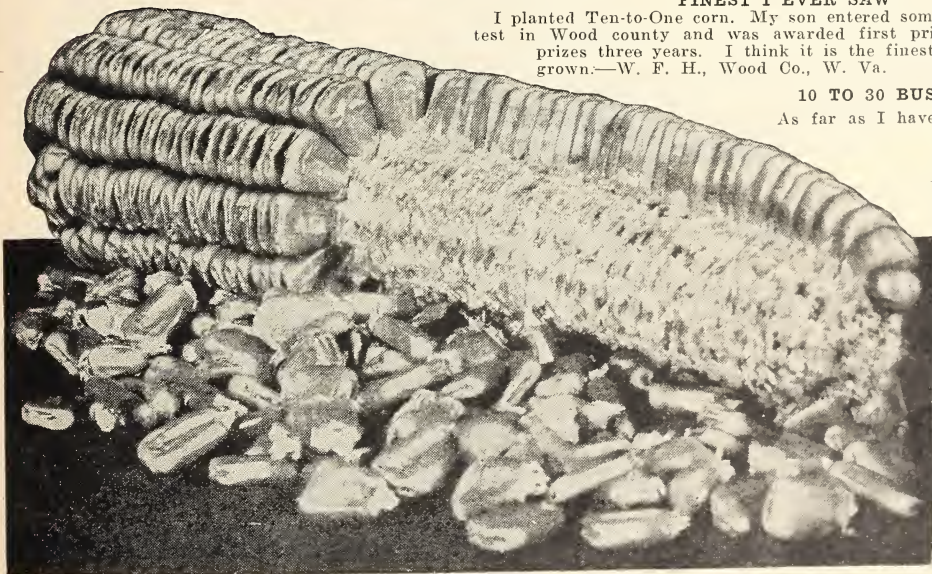

Price—Lb., 30c; 4 lbs., \$1.00, delivered; $\frac{1}{4}$ bu., \$1.25; $\frac{1}{2}$ bu., \$2.25; bu., \$4.25 5 bu. or more at \$4.00 per bushel.

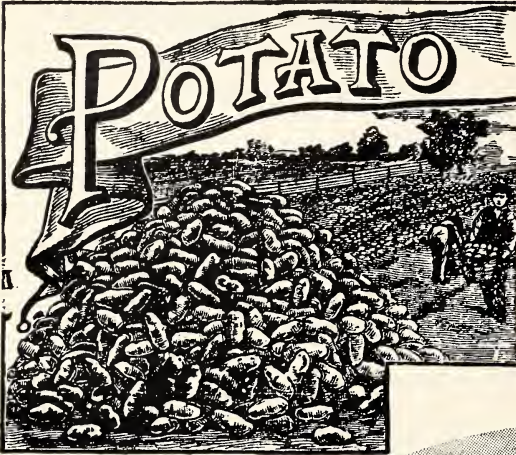

READ WHAT GROWERS SAY ABOUT TEN-TO-ONE
"FINEST I EVER SAW"

I planted Ten-to-One corn. My son entered some of it in the contest in Wood county and was awarded first prize two year, two prizes three years. I think it is the finest corn I have ever grown.—W. F. H., Wood Co., W. Va.

10 TO 30 BUSHELS MORE

As far as I have been able to determine. Ten-to-One corn is much purer and better than corn raised about here. It has yielded from 10 to 30 bushels more per acre than our native corn. I like it better than any other corn I ever raised. The reason I like it is because it matures so early, also because it is so well suited to my bottom land, where I can plant it after the flood. C. C. P., Todd Co., Ky.

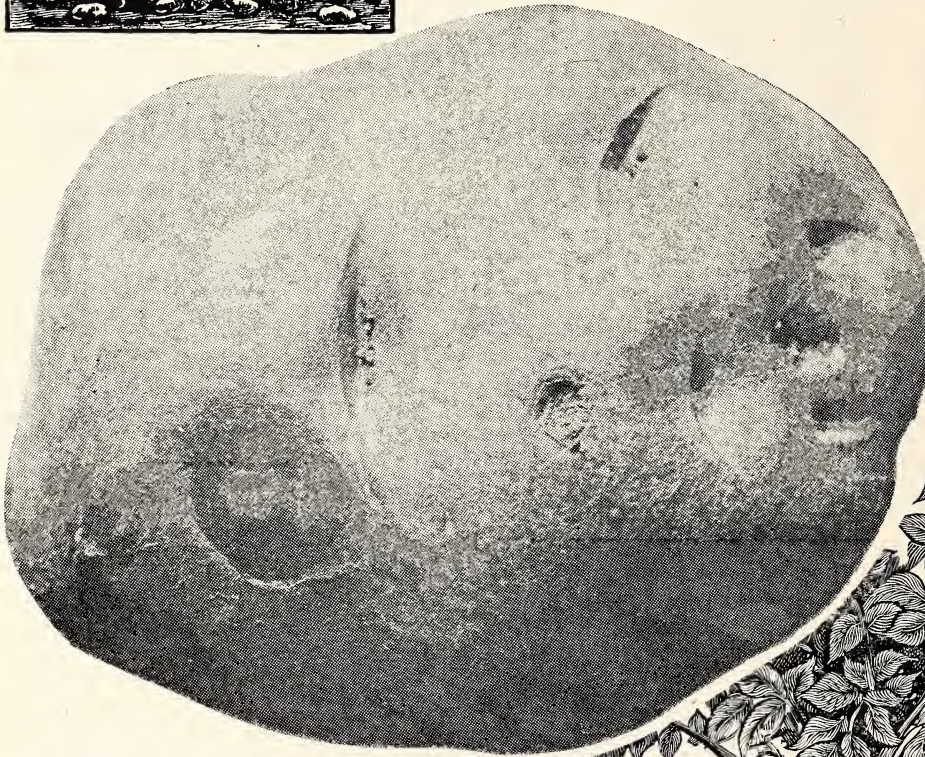

Seed Department

EVERITT'S CHOICE . . . Seed Potatoes

Are Famous Wherever Known. They Are the Leaders

We have always made a great specialty of seed potatoes and have introduced some of the valuable standard market varieties of the present day. Particularly we may refer to the Green Mountain which is a popular potato on nearly all the markets. This potato was originated by O. H. Alexander of Vermont. It made a record at the rate of 1,391½ bu. to an acre and we paid \$200 per barrel for the first available stock. Another notable example is the Early Six Weeks Market which is being widely grown as a first early potato. Remarkable to say, these varieties still retain practically their original vigor and we still sell large quantities of them every season to planters who have not had them before, or who want to change their seed.

Northern grown seed potatoes are best but this does not mean that you need to send to the far north for them. We have them grown in the north then pay the freight to Indianapolis, near the center of the country and save you money by delivering from this point.

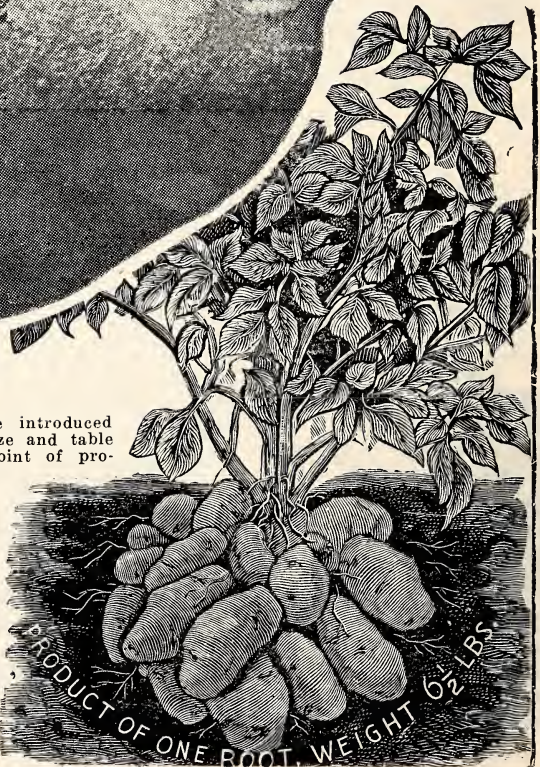

THE GREAT NEW POTATO MICHIGAN RUSSET

Since originated, this potato is taking sections where introduced by storm. It has all the qualities of appearance, shape, size and table qualities to recommend it, while in the very important point of production IT IS SURPASSING ALL OTHERS.

Yields of 300 bushels are common, under ordinary conditions, 400 bu. per acre yields are not uncommon, while even greater yields have been obtained when conditions are particularly favorable.

Shape is round to oblong; grow to medium size with many in a hill, rather than overly large, with few in a hill. They are also flattened, which allows them to cook quicker than round potatoes. The russet skin also has its advantage, because it is thicker and tougher than the smooth skinned varieties, thus they carry better and sell on market better. A wonderful winter keeper. For cooking they are simply all that can be asked for, no matter what form the cooking takes.

Price: 1 lb., 30c; 4 lbs., \$1.00, delivered. Not delivered, ¼ bu., \$1.00; ½ bu., \$1.75; bu., \$3.00; 5 bu. or more at \$2.85 per bu.

Still Unequaled

We introduced this potato a good many years ago, and it still leads as the best first early, productive, profitable variety for the market gardener, and is prized by all lovers of good early potatoes from the home garden. It has yielded for one grower, one year, 420 bushels per acre; next year, 380 bushels and, two years later, over 600 bushels. Because of its quick growth it largely escapes the Summer droughts and the second crop of bugs. A delicious winter potato and if planted late, keeps good through the winter.

MARKET GARDENERS, TRUCKERS AND ALL OTHERS who grow potatoes for home or market will prize it above all others for its earliness, fine shape, extra productiveness and good cooking qualities. As to its earliness which is important with every grower, this potato has proven our claims uniformly when planted when the growing season has arrived and with favoring weather. Read these reports.

The originator reported to us when we bought his crop, for its introduction:

"Potatoes have been my favorite crop since I was a boy and I always took great pleasure in seeing what good crops and large yields I could get and never did

I see a nicer potato than this one. I have sent for the earliest in the catalogs and got some very good ones, but none that came up to my ideals, until I originated this one. I now raise it for early and main crop; for to use at home and to market."

Mr. John L. Saum of Paulding Co., Ohio, wrote us as follows:

"I am sending you today by freight the yield of 40 hills of Six Weeks Market Potatoes. They were dug last night and this morning and they grew in 43 days. This crop was given very ordinary cultivation. I think I can beat it next year." John L. Saum, Paulding Co., Ohio.

"We, the undersigned, do personally know the originator of the Early Six Weeks Market Potato and of our knowledge we know that the variety will produce potatoes fit for the table in six weeks from planting and that they will mature in 72 days." J. W. Shanks, E. B. Smith, R. Blair, V. Washburn, M. Elizabeth Washburn, all of Athens Co., Ohio.

"Early Six Weeks did well for me. I could sell a car load of seed here if I had them." John B. Cochran, Jefferson Co., Ohio.

"You have it this time. I mean the earliest and the best early potato in existence. We had them for the table in six weeks. They out-yielded our other kinds." August Broenkner, Allegan Co., Mich.

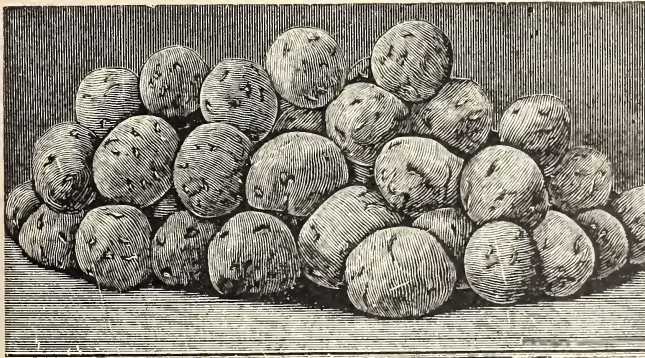

"Planted Six Weeks Potato May 3, had new potatoes cooked June 20th. They are the earliest we ever saw." Daniel Donovan, Carroll Co., Tenn.

"Twenty hills of Six Weeks Potatoes yielded a heaped bushel. They bear out your claims for earliness, productiveness and qualities." Emil Lawrence, Worcester Co., Mass.

"Of 17 kinds of potatoes your Six Weeks were superior to all the others in earliness, size and quality. I really think they are the best variety." C. Carroll, Pipestone Co., Minn.

Six Weeks Market Potatoes begin to form in the hills when the stalks are very young and both tops and tubers grow rapidly. The matured potatoes are beauties, medium size, light flesh colored skin, round shape.

Prices: 1 lb., 30c; 4 lbs., \$1.00, delivered. Not delivered, 1/4 bu., \$1.00; 1/2 bu., \$1.75; bu., \$3.00; 5 bu. or more at \$2.85 a bushel.

Engraved from the photograph of Six Weeks Market Potatoes, grown by John L. Saum, dug 43 days after planting.

The Famous

GREEN MOUNTAIN POTATO

Although we introduced this potato a good many years ago the demand for seed of it continues large every year from those growers who have not yet had it, or who want to get a change of seed.

Its handsome form, white skin and large size recommend it everywhere. The flesh is white and fine grained, cooks dry and mealy, and is of superior flavor. This is the case when first dug, and they retain their good cooking qualities and keep well until the new crop comes again. Vines grow vigorously, foliage deep green, the tubers grow compactly in the hill, which is completely crowded with fine, large potatoes. They ripen

in August if planted in April, and in the important matter of productiveness they are perfectly marvelous. This quality combined, as it is, with fine appearance and good table qualities, makes the Green Mountain one of the most valuable late varieties for the best markets in the country.

The Green Mountain Potato surprised everybody in this section. They yield about double our other kinds, and are just right for fancy city trade. Bankers and merchants are having me fill their cellars at 10c to 20c per bu. above the market. I will grow no other for main crop until the Green Mountain runs out, then I hope you will have another to take its place. S. E. Garber, Hamilton Co., O.

The Green Mountains are the finest potatoes I ever saw. Some of them weigh 2 lbs. apiece. My neighbors thought I was foolish to buy the potatoes. I think I can raise 50 or 60 bushels next year from 29 pounds of seed. S. P. Whitman, Fulton Co., Ind.

From the 1/4 lb. Green Mountain Potatoes I raised 62 pounds. They are fine, large potatoes. The four largest weighed 9 lbs. I am exceedingly well pleased with them. A. Huber, Union Co., Pa.

I send you the following results of tests of 4 varieties of potatoes, all planted May 28, all harvested September 27. The yield is given at rate per acre. All had exactly the same treatment: Carman No. 3, 132 1/2 bus.; Mayflower, 127 1/2 bus.; Seneca Beauty, 167 bus.; Green Mountain, 243 bus. W. B. H., Huron Co., O.

The Green Mountain Potato was planted May 3, and dug September 10. It made a very large, vigorous growth, with thick stalk and stocky vines. The tubers were very compact in the hills and all large—no small ones at all. There was no record kept of the yields. I am very much pleased with the potato. There were 31 other varieties, mostly new, planted in the field, and none made a better showing or pleased me better than the Green Mountain. This was one of the 52 varieties I showed at Wisconsin and Illinois State Fairs and it attracted much attention. L. L. O., Rock Co., Wis.

My trial of the Green Mountain Potato was very satisfactory. The 6 tubers yielded me 4 bushels, with very common care and planted in the ordinary way. The quality is very fine. They have great merit and a great acquisition for potato growers. S. J. A., Lorain Co., O.

The Green Mountain Potato proved to be a very vigorous grower, produced smooth tubers of uniform size, while in yield and appearance compare very favorably with Rurals and Carmans. Dennis Dfl R., Huron Co., O.

Unequaled Records

The Greatest Yield ever made by any Potato—at the rate of

1,391 1-2 Bushels

per acre—was grown of our Green Mountain Potato in a competitive test.

The Greatest Price ever paid for any Potato we paid for this—viz.,

\$200 Per Barrel

It is still in the front ranks and held in high esteem by farmers in America and Europe.

Mr. B., who had in charge the test of Green Mountain Potato, is in New York. The writer, however, saw the crop harvested. It was fine and of good quality. This variety was one of the largest yielders out of several varieties tested.

G. B. & Co., (Per Lawson), Rochester, N. Y.

Price, 1 lb. 30c; 4 lbs., \$1.00 delivered. Not delivered, 1/4 bu. 75c; 1/2 bu., \$1.50; bu., \$3.00; 5 bu. or more at \$2.85 per bu.

OTHER VARIETIES OF POTATOES FOR SEED

Bliss Triumph (Extra Early)—This is the standard variety in most of the Southern producing sections to ship to Northern markets and has numerous warm friends in the North. The plant grows rapidly and the tubers are medium size, light red color, with whitish flesh. Its extra earliness productiveness and handsome appearance and fine table qualities make it a favorite with growers, and buyers. Price, 1 lb., 30c; 4 lbs., \$1.00 delivered. Not delivered, 1/4 bu., \$1.00; 1/2 bu., \$1.50; 1 bu., \$3.00; 5 bu. or more at \$2.75 per bu.

Early Ohio The best known early potato. Skin light pink, with small white blotches. It is a good yielder of shapely potatoes of splendid quality. Makes a good fall and early winter potato if planted late. Price 1 lb., 30c; 4 lbs., \$1.00 delivered. Not delivered, 1/4 bu., \$1.00; 1/2 bu., \$1.50; 1 bu., \$3.00; 5 bu. or more at \$2.75 per bu.

Irish Cobbler (Medium Early)—An excellent variety. One of its good qualities is that it is not apt to set on more tubers than it brings to marketable size. Vines grow short and upright, permitting of close planting. Skin is white and flesh is white. Superior quality. In many sections is preferred to all others. Price, 1 lb., 30c; 4 lbs., \$1.00 delivered. Not delivered, 1/4 bu., \$1.00; 1/2 bu., \$1.50; 1 bu., \$3.00; 5 bu. or more at \$2.75 per bu.

Early Rose This is the good old favorite, known by everybody. Price, 1 lb., 30c; 4 lbs., \$1.00 delivered. Not delivered, 1/4 bu., \$1.00; 1/2 bu., \$1.50; 1 bu., \$3.00; 5 bu. or more at \$2.75 per bu.

Rural New Yorker A main crop potato noted for its heavy yields, good keeping and eating qualities and the esteem in which is held on all markets. The tubers are white, large oval many of them flattened with few eyes even with the surface. Flesh white and of excellent quality. A very heavy yielder on good ground. Price 1 lb., 30c; 4 lbs., \$1.00, delivered. Not delivered 1/4 bu., 75c; 1/2 bu., \$1.25; 1 bu., \$2.25; 5 bu. or more at \$2.25 per bu.

Giant Dahlia Flowered Zinnias

The Seed Offered Below Is Reselected Stock Seed, from Most Perfect Specimens and Will Show Superior Flowers Over Same Varieties of Previous Years. Grown by the Originator.

The large size, fullness of petals, extraordinary range of colors and long keeping qualities of this type of Zinnias have contributed to make it the most universally popular flower introduced in recent years. It is easily grown, and immune from disease. Scarcely a garden now is without them. Everybody grows them, so the desire is to have the largest and most showy and in that direction the rivalry is very keen. If you want to excel your neighbors select from the following which are from reselected stock seed and are improved over previous offerings of the same names.

14 WONDERFUL NAMED VARIETIES COMPRISES ALL BEAUTIFUL COLORS 10c Per Pkt.

Buttercup—An immense deep creamy yellow. A very desirable flower which should be included in every collection.

Canary Bird—A delicate shade of primrose—very large and holds its color well until out of bloom.

Crimson Monarch—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.

Cream—A fine, deep lavender, turning to purple (Mallow Purple), a new desirable shade in Zinnias.

Exquisite—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose).

Golden State—A very rich orange yellow. Yellow in the bud, turning to an attractive orange when in full bloom.

Illumination—Similar to Exquisite, but a striking self-color of deep rose. (Tyrian Rose).

Lemon Beauty—This is next to Crimson Monarch in size and form. It may be described as a golden yellow on brown. Decidedly a pastel shade, and should be in every collection.

Meteor—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with a good depth of petal. Very large and more floriferous than other reds.

Oriole—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

Old Rose—This is adequately described by its name, as it is of the real old rose shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

Purple Prince—A fine, deep purple (Rhodanthé Purple) large and well formed.

Polar Bear—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.

Scarlet Flame—A large, beautiful bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.

Giant Dahlia Flowered Zinnias

PRICES—Any of the above named varieties, pkt., 10c each; any 3 for 25c; \$1.00 per doz.; ½ oz., 25c; ¼ oz., 40c; oz., \$1.50.

EVERITT'S GRAND MIXTURE—Made up of all of above and others. Recommended when the grower does not care for a formal planting. Pkt., 15c; ½ oz., 30c; ¼ oz., 50c; per oz., \$1.75.

CUT and COME THE NEW FASHION IN ZINNIAS

New Type Bedding and Bouquet Zinnia. See also 3rd Cover Page

Our grower, the originator in California, reported that one stalk bore

86 PERFECT, BEAUTIFUL ZINNIAS.

This gives an idea of their profusion of bloom. When we got that letter we tried to imagine what a beautiful sight such a plant would be, and then tried to multiply that to a bed, or row,

of this new Zinnia like a 15c packet will produce.

PRICES—The CUT and COME ZINNIAS cover practically the whole range of colors. We offer: Red, White, Salmon-Rose, Golden Yellow, Canary-Yellow, Pink.

In separate colors, pkt., 15c; 2 for 25c; 5 for 50c; 12 for \$1.00; ½ oz., 35c; ¼ oz., 60c.

In all colors Mixed, pkt., 15c; 2 for 25c; 5 for 50c; 12 for \$1.00; ½ oz., 35c; ¼ oz., 60c.

CORAL HONEY-SUCKLE

(or Trumpet Honey-suckle) (See illustration on 1st cover page) One of the finest varieties but little

known. Its flowers are scarlet or coral colored, 2 inches long, borne in clusters at the ends of branchlets. The flowers are followed by scarlet berries. Leaves are very much evergreen. One of the most beautiful vines to cover trellises, fences and arbors. Admirable for covering steep banks where difficult to sod, where they grow rapidly and

need little attention. Plant 6 feet apart. Remove old wood branches each spring. Each 60c; 3 for \$1.50; doz., \$5.00.

FERTILIZERS

On brands of fertilizers not delivered at the prices, we will allow 10 per cent off which will pay the freight in some instances.

The prices do not include delivery unless so stated.

STIM-U-PLANT Fertilizer tablets for House plants. Very convenient to use. Very effective. Pkgs., 25c and 75c paid, 1000 tablets (enough for a season's supply for a medium-size garden) \$3.50, delivered.

PLANTABBS are small, white, odorless tablets more effective than the finest fertilizer. Ideal for house plants but equally as good for all garden planting, particularly roses. We highly recommend PlanTabbs because they are economical, there is no waste, no run-off, no weeds, they are clean, odorless, easy to apply, give uniform feeding and by dissolving quickly produce immediate fertilization. Four sizes, 25c, 50c, \$1.00 and \$3.50. The \$3.50 package has five times as many tablets as the \$1.00 size. Delivered.

SUPERIOR PLANT FOOD for House plants. Pkgs., 50c, \$1.00, delivered. **BONE MEAL** Fine Ground—Is pure animal bone finely ground. Unusually rich in nitrogen and phosphoric acid. Unexcelled for permanent results on lawns and in gardens. 10 lbs., 45c; 25 lbs., \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.75; 500 lbs., \$16.50, not delivered.

NITRATE OF SODA—If you want to see your garden and crops hump themselves; can be applied in liquid. 1 oz. to 1 gal. of water. 1 lb., 15c; 5 lbs., 50c; 10 lbs., 75c, not delivered.

SHEEP MANURE—The most popular garden and lawn fertilizer. 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00; 500 lbs., \$12.00, not delivered.

DERRISOL—An insecticide that can be mailed. Sure death to plant lice. Look at your rose bushes and shrubs for aphids. Package makes 6 gallons spray. 35c.

SOME THINGS EVERY POULTRYMAN SHOULD ALWAYS HAVE READY AT HAND

FOR CHICKEN DIARRHEA

Avoid the usual loss of chicks by putting Avicol in the drinking water. Watch it revive the chicks that seemed almost ready to die—watch it keep the whole flock in good health, free from disease, full of pep, growing and developing. Avicol positively prevents and quickly stops diarrhea and bowel diseases. Endorsed by thousands who have used it with perfect success year after year. The best remedy you ever tried, or money refunded. Liberal package, 50c. Extra-large Economy size, \$1.00, delivered.

ROUP-OVER STOPS ROUP, COLDS, CANKER

Deadly roup starts like a cold, spreads rapidly, and often kills an entire flock. A few drops of Roup-Over usually banishes every symptom of roup or cold in one day. And used as a preventive, it guards the whole flock against such epidemics. Easy to give. Results Guaranteed! Liberal bottle, 50c. Large Economy size, \$1.00. Delivered.

DON SUNG MAKES HENS LAY

DON SUNG gets the eggs no matter how cold or wet the weather. Easily given in the feed. A scientific tonic regulator and conditioner. Beneficial to all the flock. Instead of feeding loafing hens all winter, give Don Sung and get the eggs when eggs are scarce and high priced. We guarantee you more eggs with Don Sung—or your money back. Trial Guaranteed size, 50c; \$1 size (3 times the 50c size), \$5.00 size (6 times the \$1 size). Delivered.

ZINNIAS

The Most Popular of All Annual Flowers

This New Type

CUT AND COME ZINNIA

sets a new fashion in these lovely flowers. It will soon be found in every garden as the Dahlia types are now found.

86 Perfect Zinnias from One Plant

This new type of Zinnia surpasses all for abundance of blooms. A bed in bloom is a dazzling sight from mid-summer until frost, the bushes always bringing forth new blooms. Imagine a bush 2 to 3 ft. tall producing 86 perfect blooms and then multiply this rare sight into a bed such as a 15c packet of our seed will give you.

PRICES

The CUT and COME ZINNIAS cover practically the whole range of colors. We offer:

Red	Salmon-Rose	Canary-yellow
White	Golden-yellow	Pink

In separate colors, pkt., 15c; 2 for 25c; 5 for 50c.

In mixed colors, pkt., 15c; 2 for 25c; 5 for 50c.

SEE ALSO
PAGE 63

CUT AND COME . . The New Fashion in ZINNIAS

Do you remember when the new Dahlia-flowered Zinnias were introduced a few years ago and their great popularity? Well, why delay starting with this NEW TYPE BEDDING and BOUQUET ZINNIA? Like the older type, every garden is going to have them because they are the LATEST STYLE in ZINNIAS. Seed sown in the house and planted out in May produce blooms in June, or sow seed outside when ground is warm. Give good soil, clean cultivation, plenty of water and away from trees.

Giant Climbing Everbearing

TOMATO

When we say that **Giant Climbing Everbearing Tomato** is the very best variety for the home, where there is little ground space, we are only emphasizing what some of our customers have found to be true and stating the consensus of reports sent to us. It is a tomato of the greatest usefulness and combines the good qualities of large size, smooth surface, great productiveness, solidity of flesh and delicious flavor. There is much rivalry amongst neighbors to see who can have the largest and best tomatoes. If you want to win in such neighborhood contest, plant the **Giant Climbing Everbearing Tomato**.

This is a climbing tomato that can be trained up a trellis, although it can be left to take care of itself on the ground. When given supports to climb on they will grow 6 to 8 feet. (Some of our customers report them as much as 14 feet.) If ground space is limited plant them in sunny positions, in rich soil, by a fence or side of house or garage. As to the size and other qualities we refer you to the reports printed below.

REPORTS FROM GROWERS

"Your **Giant Climbing Tomatoes** are immense. I have them weighing $2\frac{3}{4}$ lbs., and the people see that they are wonderful.—GEO. R. BOOTH, Ludlow, Mass."

"One plant of **Giant Tomatoes** grew over 8 feet high. The best cluster was 7 tomatoes, weighing 6 lbs., all ripe at one time.—Wm. YATES, Titusville, Pa."

"The **Giant Climbing Tomatoes** are wonderful in size and fine quality. One fruit weighed 3 lbs. 1 oz.—C. H. COX, Bascobel, Pa."

"The **Giant Tomatoes** averaged a yield of nearly a bushel to each plant. One vine grew 14 feet high.—H. D. MUSSER, Rohrerstown, Pa."

"It is a pleasure to see your **Giant Climbing Tomatoes** grow, and any person can well be proud of them. They are mammoth in size and wonderful in tall growth. I have some specimens measuring 16 inches in circumference and over 6 inches in diameter. Fine flavor and better than I thought it could be. You cannot recommend them too highly.—MRS. WM. CRABBE, West Branch, Cal."

"From the **Giant Tomato** seed I raised the greatest crop I ever saw. One weighed 3 lbs. and many 2 lbs. each.—P. J. DIGGS, Malory, Va."

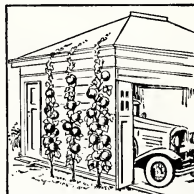

J. H. NICHOLAS, Indianapolis, Ind., said: "**Giant Climbing Tomato** is better than you claimed. When I bought the seed I did not expect it to come near up to your representations. But I was surprised and for once found the tomato even better than represented. You do not recommend it high enough."

W. A. SOLOMON, Modesta, Ill., wrote: "We have just picked our first ripe **Giant Climbing** and it weighed 3 lbs. and measured $16\frac{1}{2}$ ins. in circumference. There are several more larger ones on the vine."

R. T. Smith, Murfreesboro, Tenn., wrote: "I pulled 4 **G. C. Tomatoes** that weighed $10\frac{1}{4}$ lbs."

J. M. ACKER, Aberdeen, Miss., wrote: "From one packet of **Giant Climbing Tomato** I raised more large tomatoes than I ever saw before from an equal amount of seed. I pulled four off of one stem that weighed 9 lbs. I did not prune or tie up the vine as I should have done, but with bad treatment it is a wonder."

Giant Climbing EVERBEARING TOMATO

The **BEST** tomato for home gardens or grow on trellis, or garage, or wherever there is a few feet of ground. Great SIZE, great PRODUCTIVENESS, flesh SOLID, flavor DELICIOUS.

A Bushel to the Plant

"G. C. averaged nearly a bu. to the plant, one vine grew 14 ft." H. D. Musser. "One vine G. C. grew 8 ft., one cluster was 7 tomatoes, wt. 6 lbs., all ripe at same time." Wm. Gates. "Ten G. C. took 1st prize at our fair, from 60 plants I sold \$10.00 worth, we used bushels and still have plenty 'till frost. The best I ever raised." W. M. Frazier. Nearly everybody can grow G. C. E. T. with profit and pleasure.

Raise your own tomatoes if you don't have more of a garden. Pkt. 25c; 3, 50c; 8, \$1.00. If you don't want to bother with seeds, order plants at 50c per doz. Will be sent in season. Everitt's Seed Store, Desk Indianapolis, Ind.

This advertisement has appeared in many newspapers and magazines.

PRICE OF GIANT CLIMBING TOMATO SEED

This tomato is a shy bearer of seed and seed must be fairly high, but when it is considered that a plant under good conditions can bear a bushel of tomatoes the price should not be considered. Liberal pkt., 25c; 3 for 50c; 8 for \$1.00. If you don't want to bother with seed, order plants, price 50c a dozen.
